Polin A Journal Of Polish Jewish Studies Volume 5:

The Journal of Jewish Studies ,2005 *Hitler Strikes Poland* Alexander B. Rossino,2003-05-01 It was one of the most ruthlessly conceived and executed invasions in the annals of warfare Hitler s Polish campaign unleashed a blitzkrieg in which SS troops police squads and the army itself waged an ethnic war of unprecedented brutality Tens of thousands of Poles roughly 80 percent of whom were Christian were summarily executed in acts of collective punishment After six weeks a country was crushed and the world was at war Usually given short shrift in most histories of World War II the invasion of Poland was more than a series of opening salvos it was a testing ground for German brutalities to come In this first intensive study of the invasion Alexander Rossino provides a comprehensive study of the Polish campaign including disturbing new insights into its racist and ideological underpinnings Rossino tells how this invasion melded the ideology of the Nazi party with Germany s military yearning for empire in the East The Polish campaign was important as the first step in Hitler s drive for living space for Germans in Eastern Europe and as the blitzkrieg decimated urban residential areas civilians soon became indistinguishable from combatants In addition to describing military operations Rossino also provides a close analysis of SS plans to murder Polish leaders German army reprisal policies and the close collaboration of Wehrmacht and SS forces in the subjugation and execution of Polish citizens Rossino considers both top level decision making and the experiences of German soldiers as he explores the mentality of those who perpetrated crimes against civilians He particularly investigates the links between Nazi racial political policies and military action to show that Poland was merely the German army s dress rehearsal for the later slaughter of other Slavs and Jews during the Russian campaign By providing a detailed examination of atrocities committed by both military and SS personnel he shows that the Wehrmacht s criminality was clearly evident at the beginning of the war *Hitler Strikes Poland* is a startling reconstruction of history that clearly reveals the extent to which Nazi philosophy drove the German war machine By placing German expansionism in its ideological context it can help us better understand the brutality of the years that followed and better appreciate the suffering of the Polish people

Philo-Semitism in Nineteenth-Century German Literature Irving Massey,2014-05-14 The work begins with an attempt to understand the philosophy of Nazism and its attendant anti-Semitism as a necessary prelude to the study of philo-Semitism which also displays a continuous tradition to the present day Most of the non Jewish authors in Germany in the nineteenth century expressed both anti-Semitic and philo-Semitic views as did most of the German Jewish authors of that same time the following work deals with philo-Semitic texts by the non Jewish authors of the period The writer who provides the largest body of relevant material is Leopold von Sacher-Masoch but works by Gutzkow Bettine von Arnim Annette von Droste-Hilshoff Hebbel Freytag Raabe Fontane Grillparzer Ebner Eschenbach Anzengruber and Ferdinand von Saar are also examined as are several tales by the Alsatian authors Erckmann and Chatrian There is a short chapter on women and philo-Semitism The conclusion draws attention to the feelings of guilt that are revealed in a number of the texts Jewish Serials of the

World Robert Singerman, 2000-11-30 Jewish journalism history is a growing field of active research as evidenced by the growing number of new serials devoted to it Given the geographic extent of the Jewish diaspora the Jewish press offers valuable primary source materials for any historical study of the Jewish people The social and intellectual history of the Jews in modern times can similarly be advanced by an examination of the Jewish press of the world This volume the first supplement to Jewish Serials of the World A Research Bibliography continues and extends the bibliographic coverage to include 3 000 new entries The new volume s classified arrangement enhanced by author and subject indexes provide up to date coverage of all pertinent research including theses and dissertations on Jewish press and journalism history throughout the world in all languages This new bibliography is indispensable for libraries supporting academic programs in Jewish Studies and journalism as well as area studies Singerman s coverage of the studies and research about the Jewish press is broadly defined his scope is worldwide and all pertinent languages are treated The 3 000 entries are verified and bibliographically complete and special efforts have been made to analyze hidden sections on the Jewish press buried within larger more expansive studies of related topics The entries are organized into regional subcategories Together with the foundation volume over 6 000 entries are provided making this an important addition to any libraries with Jewish Studies or journalism collections

web of 107 fluid mechanics 6 ed kundu cohen and dowling exercise 4.1 let a one-dimensional velocity field be $u = u(x)$ with $v = 0$ and $w = 0$ the density varies as $2 \cos vt$ find an expression for $u(x, t)$ if $u(0, t) = 1$ solution 4.1 here $u = u(r, t)$ and the density field is given so a solution for $u(x, t)$ might be found from the
