Walsh, 2010-11-15 This study offers an explanation for why advances in women's rights rarely occur in democratizing states Drawing on deliberative theory Denise Walsh argues that the leading institutions in the public sphere are highly gendered meaning women's ability to shape the content of public debate and put pressure on the state to advance their rights is limited She tests this claim by measuring the openness and inclusiveness of debate conditions in the public sphere during select time periods in Poland Chile and South Africa Through a series of structured focused comparisons the book confirms the importance of just debate for securing gender justice The comparisons also reveal that counter publics in the leading institutions in the public sphere are crucial for expanding debate conditions The book concludes with an analysis of counter publics and suggests an active role for the state in the public sphere Women in Polish Cinema Ewa Mazierska, Elzbieta Ostrowska, 2006-03-01 Polish film has long enjoyed an outstanding reputation but its best known protagonists tend to be male This book points to the important role of women as key characters in Polish films such as the enduring female figure in Polish culture the Polish Mother female characters in socialist realistic cinema women depicted in the films of the Polish School Solidarity heroines and women in the films from the postcommunist period Not less important for the success of Polish cinema are Polish women filmmakers four of whom are presented in this volume Wanda Jakubowska
