Political Conjecture In Military Plannin:

Political Conjecture in Military Planning Klaus Knorr, Oskar Morgenstern, 1968 *Military Planning in the Twentieth Century* Mary Ann Robinson, 1984 The essays commentaries and speeches which form this volume were presented at the Eleventh Military History Symposium held at the United States Air Force Academy on 10-12 October 1984 This conference is a biennial event sponsored jointly by the Department of History and the Association of Graduates of the United States Air Force Academy Begun in 1967 the series seeks to address problems in military history which have received limited attention and to provide a forum in which scholars may present the results of their research In this manner we hope to stimulate and encourage interest in military history among civilian and military scholars members of the armed forces and the cadets of the United States Air Force Academy **Military planning in the twentieth century** , *Defence Planning and Uncertainty*

Stephan Frühling, 2014-04-24 How can countries decide what kind of military forces they need if threats are uncertain and history is full of strategic surprises This is a question that is more pertinent than ever as countries across the Asia Pacific are faced with the military and economic rise of China Uncertainty is inherent in defence planning but different types of uncertainty mean that countries need to approach decisions about military force structure in different ways This book examines four different basic frameworks for defence planning and demonstrates how states can make decisions coherently about the structure and posture of their defence forces despite strategic uncertainty It draws on case studies from the United States Australian and New Zealand each of which developed key concepts for their particular circumstances and risk perception in Asia Success as well as failure in developing coherent defence planning frameworks holds lessons for the United States and other countries as they consider how best to structure their military forces for the uncertain challenges of the future **War, Strategy and Intelligence** Michael I. Handel, 2012-11-12 Investigating the logic conduct and nature of war on the highest political and strategic levels these essays put less emphasis on operational and tactical aspects They look at the impact of technology on warfare the political nature of war and the limits of rational analysis in studying war

Defense Policy Formation Clark A. Murdock, 1974-01-01 When Robert McNamara became U S Secretary of Defense he introduced a new mode of making policy decisions systems analysis In *Defense Policy Formation* Clark Murdock examines what effects this systems analysis had on policy making process both in theory and the actual practice of military innovation

Law, Force and Diplomacy at Sea (Routledge Revivals) Ken Booth, 2014-06-27 *Law Force and Diplomacy at Sea* first published in 1985 is one of the few comprehensive treatments on the subject from a strategic perspective It offers a detailed strategic analysis of the background and outcome of the Third UN Conference on the Law of the Sea and its naval implications The interplay between the interest of the naval powers in freedom of navigation and the interest of coastal states in control provides the setting for the strategic problems The sea is taking on more properties of the land it is becoming territorialised and this is presenting fresh challenges and opportunities to which navies and their national governments have

to respond This study is designed for students of naval strategy for international lawyers and for students of international affairs who wish to think about the important security questions in the maritime environment Military Law Review ,1979
 NATO Review ,1971 **The Study of the Future** ,1977
