Political Cultural History Of Mod 2vol:

Politics and Sentiments in Risorgimento Italy Carlotta Sorba, 2021-05-03 This book investigates the narrative of nationhood during the Italian Risorgimento and its ability to reach a new and wider audience In Italy an extraordinary emotional excitement pervaded the struggle for national independence suffusing the speeches and actions of patriots This book shows how this ardour borrowed the tones figures and spectacular nature of the melodramatic imagination feeding the theatre and literature of the time and how it could resonate with a largely uneducated audience An important contribution to the new historiography on the Italian Risorgimento and on nineteenth century nationalism in Europe it offers a fresh perspective on the public sphere during the Risorgimento focusing on the transnational links between political mobilisation and the growth of new media and burgeoning mass culture United States Cumulative Book Auction Records ,1941

Japan in the Muromachi Age John Whitney Hall, Toyoda Takeshi, 2022-07-15 This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1977 Classical Humanism and the Challenge of Modernity Bas van Bommel, 2015-03-10 In scholarship classical Renaissance humanism is usually strictly distinguished from neo humanism which especially in Germany flourished at the beginning of the 19th century While most classical humanists focused on the practical imitation of Latin stylistic models neohumanism is commonly believed to have been mainly inspired by typically modern values such as authenticity and historicity Bas van Bommel shows that whereas neohumanism was mainly adhered to at the German universities at the Gymnasien a much more traditional educational ideal prevailed which is best described as classical humanism This ideal involved the prioritisation of the Romans above the Greeks as well as the belief that imitation of Roman and Greek models brings about man s aesthetic and moral elevation Van Bommel makes clear that 19th century classical humanism dynamically related to modern society On the one hand classical humanists explained the value of classical education in typically modern terms On the other hand competitors of the classical Gymnasium laid claim to values that were ultimately derived from classical humanism 19th century classical humanism should therefore not be seen as a dried out remnant of a dying past but as the continuation of a living tradition
