Political Culture In East Central Europe:

Political Culture in East Central Europe Fritz Plasser, Andreas Pribersky, 1996 A review and actual data on the state of political culture in Central Europe in comparison with western Austria and eastern Russia neighbours **Local Democracy And The Processes Of Transformation In East-central Europe** Harald Baldersheim, 2019-04-10 This book focuses on one particular aspect of the post communist transformations in the East Central European countries In studying the local government reforms it evaluates achievements with the traditional yardsticks for local government performance democracy efficiency and autonomy Political Elites in East Central Europe Nicole Gallina, 2008-10-29 This monograph is a major survey of East Central European ECE political elites and concentrates on Czech Republic Slovakia Hungary and Poland It is grounded within classic elite theory slightly adapted to ECE necessities More practically the book examines political elite composition and identifies political elite fragmentation in ECE The author questions that East Central European political elites have incorporated democratic values and conduct The main argument is that there is a significant gap between the formal democratic ECE institutions and political elite behaviour This gap has different dimensions which are relevant at the domestic level and also cause problems at the EU level Ultimately the political elite institution gap questions democratic political achievements after 1989 In providing a major analysis of ECE political elite structure and conduct the book points to the most urgent challenges of ECE political systems the reform of the political elite From the content The Importance of Analysing ECE Elites Forms of Political Elite Formation and Activity Political Elite Fragmentation in ECE Elite Formation and Reproduction in East Central Europe Patterns of Political Elite Behaviour Influencing Political Elite Behaviour Institutional Change after 1989 The Relationship between Europeanisation and Euroscepticism Elite Systems in East Central Europe Case Studies Poland Czech Republic Slovakia Hungary Implications of Elite Attitudes for Europeanisation Political Elites Incapable Europeanisers Prospects for Democratic Consolidation in East-Central Europe Geoffrey Pridham, Attila Ágh, 2001 *Picturing home* examines the depiction of domestic life in British feature films made and released in the 1940s It explores how pictorial representations of home onscreen in this period re imagined modes of address that had been used during the interwar years to promote ideas about domestic modernity *Picturing home* provides a close analysis of domestic life as constructed in eight films contextualising them in relation to a broader offscreen culture surrounding the suburban home including magazines advertisements furniture catalogues and displays at the Daily Mail Ideal Home Exhibition In doing so it offers a new reading of British 1940s films which demonstrates how they trod a delicate path balancing prewar and postwar traditional and modern private and public concerns **Democracy and Political Culture in Eastern Europe** Hans-Dieter Klingemann, Dieter Fuchs, Jan Zielonka, 2006-11-22 What is the relationship between democracy and political culture in countries undergoing major systemic change Have subjective political orientations of citizens been important in shaping the development of democracy in central and eastern Europe after the fall of communism These core questions are tackled by an

impressive range of twenty political scientists sixteen of which are based in the central and eastern European countries covered in this essential new book Their analyses draw on a unique set of data collected and processed by the contributors to this volume within the framework of the World Values Survey project This data enables these authors to establish similarities and differences in support of democracy between a large number of countries with different cultural and structural conditions as well as historical legacies The macro level findings of the book tend to support the proposition that support of democracy declines the further east one goes In contrast micro level relationships have been found to be astonishingly similar For example support of democracy is always positively related to higher levels of education no matter where an individual citizen happens to live This new book builds a clear understanding of what makes democracies strong and resistant to autocratic temptation

Democratic Consolidation in East-Central Europe Fritz Plasser, Peter Ulram, Harald Waldrauch, 2016-07-27 The postcommunist regimes in East Central Europe are confronted with the double challenge of establishing a democratic order and a market economy The book discusses the concepts of democratic consolidation and analyzes the development of attitudes towards the political and economic system in Poland Hungary the Czech Republic Slovakia and Slovenia The study compares the political values in East Central Europe with respective attitudes in the USA and Western Europe Special attention is given to experiences of the consolidation process in Germany Italy and Austria after 1945 as well as the more recent developments in Latin America and Southern Europe The final chapter discusses patterns and paths of democratic consolidation in the light of concepts of regime change

The Politics of Central Europe Attila Ágh, 1998-06-10 This book provides a thorough introduction to East Central Europe and its renewed emergence since the momentous changes in the former Soviet bloc By carefully differentiating between Central Europe East Central Europe and the Balkans Attila Ágh shows how the term Eastern Europe was a political misnomer of the Cold War Drawing on theories of democratization to develop a common conceptual and theoretical framework this textbook is the first to place the political and social changes of this complex region in a genuinely comparative perspective Through broad thematic sections the student is shown how to distinguish between processes of democratization and redemocratization transition and transformation and is introduced to the important issues of Europeanization nation building institutionalization parties and political culture Illustrated throughout with chronological charts and the latest data analysis this is an invaluable guide to the emerging political systems and their future prospects at the core of the new Europe

History of the Literary Cultures of East-Central Europe Marcel Cornis-Pope, John Neubauer, 2004-05-28 National literary histories based on internally homogeneous native traditions have significantly contributed to the construction of national identities especially in multicultural East Central Europe the region between the German and Russian hegemonic cultural powers stretching from the Baltic states to the Balkans History of the Literary Cultures of East Central Europe which covers the last two hundred years reconceptualizes these literary traditions

by de emphasizing the national myths and by highlighting analogies and points of contact as well as hybrid and marginal phenomena that traditional national histories have ignored or deliberately suppressed The four volumes of the History configure the literatures from five angles 1 key political events 2 literary periods and genres 3 cities and regions 4 literary institutions and 5 real and imaginary figures The first volume which includes the first two of these dimensions is a collaborative effort of more than fifty contributors from Eastern and Western Europe the US and Canada The four volumes of the History comprise the first volume in the new subseries on Literary Cultures

Tradition, Literature and Politics in East-Central Europe Carl Tighe, 2020-12-30 Milan Kundera warned that in in the states of East Central Europe attitudes to the west and the idea of Europe were complex and could even be hostile But few could have imagined how the collapse of communism and membership of the EU would confront these countries with a life that was suddenly and disconcertingly modern and which challenged sustaining traditions in literature culture politics and established views on identity Since the countries of East Central Europe joined the European Union in 2004 the politicians and oppositionists of the centre left who once led the charge against communism have often been forced to give way to right wing authoritarian populist governments These governments while keen to accept EU finance have been determined to present themselves as protecting their traditional ethno national inheritance resisting foreign interference stemming the gay invasion halting Islamic replacement and reversing women s rights They have blamed Communists liberals foreigners Jews and Gypsies revised abortion laws tampered with their constitutions to control the Justice system and taken over the media to an astonishing degree By 2019 amid calls for the suspension of their voting rights both Poland and Hungary had been taken to the European Court of Justice and the European Parliament and had begun to explore ways to put conditions on future EU funding This book focuses on the interface between tradition literature and politics in east central Europe focusing mainly on Poland but also Hungary and the Czech Republic It explores literary tradition and the role of writers to ask why these left liberals who were once ubiquitous in the struggles with communism are now marginalised often reviled and almost entirely absent from political debate It asks in what ways the advent of capitalism normalised literature and what the consequences might be It asks whether the rise of chauvinism is normal in this part of the world and whether the literary traditions that helped sustain independent political thought through the communist years now instead of supporting literature feed nationalist opinion and negative attitudes to the idea of Europe
