The Motivated Construction of Political Judgements , **Political Judgement** Richard Bourke, Raymond Geuss, 2009-08-20 Leading scholars re examine political judgement attempting to understand the relationship between political theory and political practice **Explaining Political Judgement** Perri 6, 2011-09-22 What is political judgement Why do politicians exhibit such contrasting thought styles in making decisions even when they agree ideologically What happens when governments with contrasting thought styles have to deal with each other In this book Perri 6 presents a fresh rigorous explanatory theory of judgement its varieties and its consequences drawing upon Durkheim and Douglas He argues that policy makers will understand and misunderstand their problems and choices in ways that reproduce their own social organisation This theory is developed by using the Cuban Missile Crisis of 1962 as an extended case study examining the decision making of the Kennedy Castro and Khrushchev regimes Explaining Political Judgement is the first comprehensive study to show what a neo Durkheimian institutional approach can offer to political science and to the social sciences generally **Political Judgments** Dick Howard, 1996 Against the backdrop of the radical change in political conditions since the 1989 revolutions in Eastern Europe noted philosopher and political theorist Dick Howard asks what is modern politics Returning to the historical problems posed by the French and American Revolutions Howard examines the ways that philosophy has tried to understand the contemporary political dilemma He then puts his theory to the test by looking at political problems in Eastern Europe in the European Union and in the United States This collection of essays many available in English for the first time will be useful to philosophers sociologists and political scientists **Rethinking Political Judgement** Masa Mrovlje, 2018-11-23 The first book length study to provide a detailed examination of a distinctive crossroads in the history of the left Political Judgement Ronald Beiner, 2013-06-17 Originally published in 1983 One of the basic capacities of man as a political being is his faculty of judgement Yet for all the books on concepts like freedom equality and authority surprisingly little attention has been given to this topic in the tradition of Western political thought What is the nature of political judgement What endows us as human beings with the ability to make reasonable judgements about human affairs and to judge the common world we share with others By what means do we secure validity for our judgements What are the underlying conditions of this human capacity and what implications does it have for the understanding of politics These questions central as they are to any reflection on politics have rarely been addressed in a systematic way This book examines Kant's concept of taste and Aristotle's concept of prudence as well as recent works of political philosophy by Arendt Gadamer and Habermas all crucially influenced by Kant and Aristotle **A Companion to Political Philosophy. Methods, Tools, Topics** Antonella Besussi, 2016-03-23 This book offers a comprehensive overview of the key concepts and issues of contemporary political philosophy providing an essential reference work for scholars and advanced students It is structured in three parts covering methodological issues tools and argumentative strategies employed by political philosophy and

concepts and topics key to the discipline Expert authors from around the world have written twenty chapters in a consistent and engaging style Each chapter is thoroughly cross referenced allowing students to appreciate how methodological issues relate to each other and how methodology and argumentative tools affect the way substantial issues are addressed The chapters are supplemented by further reading lists and selected bibliographies to aid further research The companion will be required reading for masters and post doctoral students providing them with the appropriate tools for approaching political philosophy in a more thoughtful way and showing how substantive topics are addressed within different perspectives and paradigms The companion also provides upper level undergraduates with a sophisticated introduction to the relevant problems and challenges political philosophy addresses

**Torts, Egalitarianism and Distributive Justice** Tsachi Keren-Paz, 2018-12-20 This book argues from a normative perspective for the incorporation of an egalitarian sensitivity into tort law and more generally into private law It shows how an egalitarian sensitivity can reformulate tort doctrine with an emphasis on the tort of negligence Rather than a comprehensive descriptive account of existing tort law this book pro actively searches for new approaches and conceptual tools to meet the challenges faced by egalitarians The understanding of tort law offered in this book will bring about better practical results in specific cases It supports the progressive troops in the ongoing philosophical and social battles that take place in the field of tort law and also adds another voice rich nuanced and sensitive to the chorus that is tort theory

### **The Constitution of the European Union** Ulrich

Haltern, 2025-01-23 This book provides a contextual analysis of the constitution of the European Union which unlike most constitutions does not belong to a state Rather the EU is an international organisation that has moved beyond the features of international law into a terrain very close to the municipal law of federal states Many features we take for granted in nation states are non-existent or contested in the Union There is no European Union constitutional text in the proper sense the Constitutional Treaty signed by the Member States in 2004 failed spectacularly in the process of popular ratification The Union's founding texts were international treaties international law not constitutional law And yet over time legal doctrine put into place by the European Court of Justice in Luxembourg has led to constitutional attributes of Union law and political practice led by the Commission has mirrored these attributes complementing a de facto constitutionalist environment As a consequence we have seen a steady re-ordering of the functional boundaries of the Member States followed by a nascent re-ordering of the imagined boundaries of political community and self All of this is constitutionalism writ large legal doctrines institutional arrangements political practices and their implications for legitimacy democracy and political self-imagination and together they form the subject of this fascinating book
