Prophecy and Politics in the Early Carolingian World Andrew Sorber, 2024-04-16 Prophetic and apocalyptic rhetoric play critical roles in the development and articulation of political authority in the reigns of Charlemagne d 814 and Louis the Pious d 840 The rhetorical authority derived from claims of receiving revelation interpreting divine communication speaking for God and foreseeing calamities became a competitive medium through which individuals legitimized political behaviour debated their long and short term aspirations and struggled for political supremacy Ranging from claims of revelations dreams and visions to the adoption of rhetorical voices based on biblical prophets to the interpretation of signs and portents prophetic rhetoric enjoyed extensive experimentation and varied application throughout early medieval political discourse Prophecy and Politics in the Early Carolingian World argues that claims of divine revelation resistant to any attempts to monopolize them provided a powerful means of speaking with authority for all participants in Frankish political discourse This authority proved instrumental in the articulation and dismantling of effective Carolingian royal authority from 768 to 840 The volume introduces and reinterprets early Carolingian political discourse and intellectual activity as well as the centrality of apocalypticism in the Carolingian period by emphasizing prophecy or revelation and authority rather than prediction and calamity Early Carolingian political discourse was a dialogue that took place across royal proclamations legal statements historical texts visions scriptural commentaries and manifestations of the natural world and in this dialogue the ability to interpret God s will was as powerful as it was problematic

The Political Economy of Heaven and Earth in Ghana Charles Prempeh, 2023-09-30 In March 2017 the president of Ghana Nana Addo Dankwa Akufo announced his intention to build a

national cathedral to the people of Ghana The announcement elicited watertight counter arguments that morphed into two a priori re litigated assumptions First Ghana is a secular country and second religion and state formation are incompatible Informed by a frustrating paradox of an overwhelming religious presence and concurrent pervasive corruption in the country public conversation reached a cul de sac of conviction without compromising In The Political Economy of Heaven and Earth in Ghana Charles Prempeh deploys the national cathedral as an entry point to provide both interdisciplinary and autoethnographic understanding of religion and politics The book shows the capacity of religion when properly cultivated and curated as a worldview to answer the why questions of life will foster personal moral collective and ontological responsibility All this is needed to stem the tide against corruption commodity fetishism environmental degradation illegal mining galamsey heritage destruction and religious exploitation Prempeh recuperates a historical fact about the mutual inclusivity between religion and politics politics helping to manage differences while religion provides a transcendental reason for unity to be forged for human flourishing Separating the two is therefore ahistorical and an obvious threat to the intangible virtues that answers why and how questions for public governance *Prophecies and Divine Justice* Elianna Montgomery, 2025-06-26

Blake's Prophetic Workshop G. A. Rosso, 1993 While William Blake's The Four Zoas may be

fascinating to Blake scholars it presents formidable obstacles to even the most ardent Romanticist let alone interested critics or the general reader Blake's *Prophetic Workshop* attempts to clear some of these obstacles by studying the work from a variety of critical perspectives It assumes some familiarity with Blake's prophecies but is cast between the introductory and advanced levels of the two previous books published on the poem Although the major reading strategy is close textual analysis the poem is marked by various cultural and social contexts that need elucidation Chapters alternate between sketching these contexts and traditions and providing detailed readings within these contexts The first chapters give a reception history of the work and set it within the tradition of the eighteenth century long poem namely Thomson's *Seasons* Pope's *An Essay on Man* and Young's *Night Thoughts* texts that Blake critiques as Newtonian substitutions of Miltonic prophecy Chapter three tests these assertions by reading the poem's creation narratives in terms of Anglican Dissenting apologetics The final chapters sift the cultural contexts that shape Blake's use of biblical typology and scrutinize several continental philosophies of history and how they encroach on *The Four Zoas* as well as situate the poem in the apocalyptic moment of the 1790s While a pluralist approach is followed author George Anthony Rosso Jr subscribes to a fundamentally historical theory that places *The Four Zoas* in the broad and eclectic tradition of English poetic prophecy Aware of recent critiques of the prophetic Rosso pursues his theory with flexibility and tolerance for other viewpoints An appendix provides a useful commentary on the relations between the text and certain designs drawings and sketches in the manuscript Its aim is to show that Blake repeats key images in various frames to provide a sense of context and development and that the drawings expose what the narrative represses often in graphic sexual detail Rosso presents a Blake who is both deadly serious and disarmingly ironic about the relevance of prophecy in the modern world
