Political Sermons Of The American Volume :

Political Sermons of the American Founding Era, 1730-1805 Ellis Sandoz, 1991 The early political culture of the American republic was deeply influenced by the religious consciousness of the New England preachers Indeed it was often through the political sermon the pulpit of the American Revolution that the political rhetoric of the period was formed refined and transmitted And yet the centrality of religious concerns in the lives of eighteenth century Americans is largely neglected This has created a blind spot regarding the fundamental acts of the American founding Political sermons such as the fifty five collected in this volume are unique to America in both kind and significance This volume thus fills an important need if the American founding period is to be adequately understood *Political Sermons*, 1774 **Christianity and Freedom: Volume 1, Historical Perspectives** Timothy Samuel Shah, Allen D. Hertzke, 2016-04-26 In Volume 1 of Christianity and Freedom leading historians uncover the unappreciated role of Christianity in the development of basic human rights and freedoms from antiquity through today These include radical notions of dignity and equality religious freedom liberty of conscience limited government consent of the governed economic liberty autonomous civil society and church state separation as well as more recent advances in democracy human rights and human development Acknowledging that the record is mixed scholars document how the seeds of freedom in Christianity antedate and ultimately undermine later Christian justifications and practices of persecution Drawing from history political science and sociology this volume will become a standard reference work for historians political scientists theologians students journalists business leaders opinion shapers and policymakers **Politicians, Economists and the Supreme Court at Work** Timothy P. Roth, 2010-01-01 A sobering and emphatic reminder of how far we have strayed from the principles on which the republic was established Diagnostic understanding is a necessary first step But are we capable as a body politic to stop the binge and endure the hangover Or must we acquiesce in the anarchy of politics beyond constitutional limits James M Buchanan Nobel Laureate in Economics 1986 Thomas Jefferson wrote I wish never to see all offices transferred to Washington where further withdrawn from the eyes of the people they may more secretly be bought and sold at market What would Jefferson Madison and the other Founders write today Deploying their moral and political philosophy their political economy and their understanding of the Constitution Timothy P Roth contends that the Founders would tell us that most of what the federal government does is either immoral unconstitutional or both Presented as an engaging thought experiment *Politicians Economists and the Supreme Court at Work* examines the metastasizing federal role through two different means first as it relates to the increasing concerns of a contemporary nation and second the depth to which that nation's Founders would be appalled by the actions of their successors Additionally the book provides a critical appraisal of the burgeoning federal enterprise and the federal government's on off and off off budget activities ultimately answering the question What would the Founders do The nature and timeliness of this book will appeal to moral and political philosophers political scientists historians economists
