The Political Causes and Consequences of the Protestant "Reformation" Thomas D'Arcy McGee,1984 *The Impact of the European Reformation* Bridget Heal,Ole Peter Grell,2008 Recent decades have witnessed the fragmentation of Reformation studies High level research has tended to be confined within specific geographical confessional or chronological boundaries By bringing together scholars working on a wide variety of topics this volume aims to counteract this centrifugal trend and to provide a broad perspective on the impact of the European reformation The essays present new research from historians of politics of the church and of belief Their geographical scope ranges from Scotland and England via France and Germany to Transylvania and their chronological span from the 1520s to the 1690s Together they demonstrate that movements for religious reform left no sphere of European life untouched Religion, Political Culture, and the Emergence of Early Modern Society Heinz Schilling,2022-05-09 This volume of essays by Heinz Schilling represents his three main fields of interest in early modern European history The first section of the book entitled Urban Society and Reformation deals with urban society in northern Germany and the Netherlands from the fifteenth to the early nineteenth centuries The author discusses social structure and changes the problems of religion and mentality as well as political culture and thinking The second section confessionalization and Second Reformation treats the paradigm Confessionalization which denotes a fundamental process of social change within Old European society during the second half of the sixteenth and at the beginning of the seventeenth centuries The third section The Netherlands the Pioneer Society of Early Modern Europe deals with the Northern Netherlands as a model for early modern modernization and as a successful republican and bourgeois alternative to the aristocratic Old European society The essays collected in this book were originally written in German and published over the last fifteen years The articles have been revised and the notes have been updated This volume gives a broader English speaking audience the possibility to read Heinz Schilling s research It also provides a concise collection of

the author's writings for those readers who are already familiar with his studies *The Political Causes and Consequences of the Protestant Reformation: A Lecture. By Thomas Darcy McGee. Wood, 2024-08-30 This book presents and evaluates the understanding of political form in the work of Pierre Manent The study of political form is Manent's central philosophical task He is interested in the nature of man in the action that makes us human and thus in politics and political action as privileged windows into human nature and what it is to be human Manent places himself in the classical political tradition with its foundations in human nature and in a politics that accords with nature He also situates himself within a triangle of faith philosophy and politics all of which interest him as part of the reality of things even as he avoids an exclusive commitment to any one vertex in his investigation The book first examines the major influences on Manent the overarching questions that guide his work on political form the theologico political question and the question of the modern difference with the ancient view of man and politics and his two intertwined paths of inquiry into political events and political thought Manent describes political forms as the modes of human association that no science has taken as its specific object City empire Church national monarchy or nation state and modern state are the principal forms that he examines The book discusses Manent's thinking on each form in turn together with the tensions that propel the changes or motion in political form that Manent sees as driving and revealing the course of European political development Using the work of Alasdair MacIntyre Russell Hittinger, Étienne Gilson Robert Sokolowski and Francis Slade the book evaluates Manent's insights into the modern state and political condition which he judges to be exhausted as well as his call for the preservation of the form of the nation marked by Christianity **Historical Researches Into the Politics, Intercourse, and Trade of the Principal Nations of Antiquity** Arnold Hermann Ludwig Heeren, 1847 **Tudor Protestant Political Thought 1547-1603** Stephen A. Chavura, 2011-05-23 This study examines themes in the political ideas of Episcopalian Puritan and Separatist authors from the reign of Edward VI until the death of Elizabeth I Cosmic harmony providentialism natural law absolutism and government by consent are examined in the context of the theological political and social upheavals of the Reformation period
