Political Economy Of Poverty Equity And Growth Nigeria And Indonesia:

The Political Economy of Poverty Equity and Growth Nigeria and Indonesia David L. Bevan, Paul Collier, Jan Willem Gunning, 1999 **Nigeria and Indonesia** Bevan David, 1999 **The Political Economy of Poverty, Equity and Growth: A Comparative Study** Deepak Lal, H. Myint, Hla Myint, 1998-10-08 This wide ranging and innovative book synthesizes the findings of a major international study of the political economy of poverty equity and growth It represents an ambitious interdisciplinary attempt to identify patterns in the interplay of initial conditions institutions interests and ideas which can help to explain the different growth and poverty alleviation outcomes in the Third World [An Economic History of Indonesia](#) Jan Luiten van Zanden, Daan Marks, 2013-05-02 Based on new datasets this book presents an economic history of Indonesia It analyses the causes of stagnation of growth during the colonial and independence period making use of new theoretical insights from institutional economics and new growth theory The book looks at the major themes of Indonesian history colonial exploitation and the successes and limitations of the post 1900 welfare policies the price of instability after 1945 and the economic miracle after 1967 The book not only discusses economic change and development or the lack thereof but also the institutional and socio political structures that were behind these changes It also presents a lot of new data on the changing welfare of the Indonesian population on income distribution and on the functioning of markets for rice credit and labour Concluding with a discussion on whether the poor profited from the economic changes this book is a useful contribution to Southeast Asian Studies and International Economics *Growing Apart* Peter Lewis, 2009-12-11 *Growing Apart* is an important and distinguished contribution to the literature on the political economy of development Indonesia and Nigeria have long presented one of the most natural opportunities for comparative study Peter Lewis one of America's best scholars of Nigeria has produced the definitive treatment of their divergent development paths In the process he tells us much theoretically about when why and how political institutions shape economic growth Larry Diamond Senior Fellow Hoover Institution *Growing Apart* is a careful and sophisticated analysis of the political factors that have shaped the economic fortunes of Indonesia and Nigeria Both scholars and policymakers will benefit from this book's valuable insights Michael L Ross Associate Professor of Political Science Chair of International Development Studies UCLA Lewis presents an extraordinarily well documented comparative case study of two countries with a great deal in common and yet with remarkably different postcolonial histories His approach is a welcome departure from currently fashionable attempts to explain development using large multi country databases packed with often dubious measures of various aspects of governance Ross H McLeod Editor *Bulletin of Indonesian Economic Studies* This is a highly readable and important book Peter Lewis provides us with both a compelling institutionalist analysis of economic development performance and a very insightful comparative account of the political economies of two highly complex developing countries Nigeria and Indonesia His well informed account generates interesting findings by focusing on the ability of leaders in both countries to make

credible commitments to the private sector and assemble pro growth coalitions This kind of cross regional political economy is often advocated in the profession but actually quite rare because it is so hard to do well Lewis s book will set the standard for a long time Nicolas van de Walle John S Knight Professor of International Studies Cornell University Peter M Lewis is Associate Professor and Director of the African Studies Program Johns Hopkins University School of Advanced International Studies

Managing Globalization in the Asian Century Hal Hill, 2016-11-17 The global centre of gravity continues to shift to the Asia Pacific the most dynamic region in the world These economies have generally grown faster for longer periods of time than any other major region in world history Their embrace of globalization has been a central feature and driver of their dynamism The management of Asia Pacific economic integration and globalization is crucial not only for the countries themselves but also for the state of the global economy including importantly latecomer developing economies who look to the region for analytical and development policy lessons Twenty eight leading international authorities in the field drawn from nine countries provide a comprehensive examination of the causes consequences and challenges of globalization in a volume that celebrates the distinguished career of Professor Prema Chandra Athukorala Among the major issues examined are the region s distinctive approach to trade liberalization the effects of economic growth on poverty reduction and the labour market the special challenges of by passed regions the role of ideas in influencing policy making the modalities of connecting to global production networks and the importance of remittances in economic development Several country case studies provide in depth analyses of development processes and outcomes These include episodes in economic development the challenges faced by transition economies the macroeconomics of adjusting to slower growth and rising debt in advanced economies and the so called middle income trap phenomenon

Asian Tigers, African Lions , 2013-10-02 Asian Tigers African Lions is an anthology of contributions by scholars and former diplomats related to the Tracking Development research project funded by the Netherlands Ministry of Foreign Affairs and coordinated by the African Studies Centre and KITLV both in Leiden in collaboration with scholars based in Africa and Asia The project compared the performance of growth and development of four pairs of countries in Southeast Asia and Sub Sahara Africa during the last sixty years It tried to answer the question how two regions with comparable levels of income per capita in the 1950s could diverge so rapidly Why are there so many Asian tigers and not yet so many African lions What could Africa learn from Southeast Asian development trajectories This book has won the Choice Outstanding Academic Title Award 2014

Natural Resources and Economic Growth Marc Badia-Miró, Vicente Pinilla, Henry Willebald, 2015-05-22 The relationship between natural capital and economic growth is an open debate in the field of economic development Is an abundance of natural resources a blessing or a curse for economic performance The field of Economic History offers an excellent vantage to explore the relevance of institutions technical progress and supply demand drivers Natural Resources and Economic Growth contains theoretical and empirical articles by leading scholars who have studied this subject in different historical periods from the 19th century to

the present day and in different parts of the world Part I presents the theoretical issues and discusses the meaning of the curse and the relevance of the historical perspective Part II captures the diversity of experiences presenting thirteen independent case studies based on historical results from North and South America Africa Asia Oceania and Europe This book emphasizes that an abundance of natural resources is not a fixed situation It is a process that reacts to changes in the structure of commodity prices and factor endowments and progress requires capital labour technical change and appropriate institutional arrangements This abundance is not a given but is part of the evolution of the economic system History shows that institutional quality is the key factor to deal with abundant natural resources and especially with the rents derived from their use and exploitation This wide ranging volume will be of great relevance to all those with an interest in economic history development economic growth natural resources world history and institutional economics **Explaining**

Collective Violence in Contemporary Indonesia Z. Tadjoeeddin, 2014-05-07 Tadjoeeddin uniquely explores four types of violent conflicts pertinent to contemporary Indonesia secessionist ethnic routine everyday and electoral violence and seeks to discover what socio economic development can do to overcome conflict and make the country's transition to democracy safe for its constituencies Asia-Africa Development Divergence David Henley, 2015-02-12 Why have South East Asian countries like Malaysia Indonesia and Vietnam been so successful in reducing levels of absolute poverty while in African countries like Kenya Nigeria and Tanzania despite recent economic growth most people are still almost as poor as they were half a century ago This book presents a simple radical explanation for the great divergence in development performance between Asia and Africa the absence in most parts of Africa and the presence in Asia of serious developmental intent on the part of national political leaders
