Keller,1995-11-02 In *Arm in Arm* senior congressional analyst William W Keller offers a fascinating inside account of the contemporary arms trade The book breaks down the traditional distinction between conventional weapons and weapons of mass destruction It examines the implications of the spread of dual use technologies technologies with both peaceful and military applications for international peace and security *The Political Economy of Destructive Power* Mehrdad Vahabi,2004-01-01 This book will appeal to a broad and varied readership from a range of disciplines across the social sciences including economics politics sociology history and psychology **BOOK JACKET** **Arms Races in International Politics** Thomas Mahnken,Joseph Maiolo,David Stevenson,2016-01-14 This volume provides the first comprehensive history of the arms racing phenomenon in modern international politics drawing both on theoretical approaches and on the latest historical research Written by an international team of specialists it is divided into four sections before 1914 the inter war years the Cold War and extra European and post Cold War arms races Twelve case studies examine land and naval armaments before the First World War air land and naval competition during the 1920s and 1930s and nuclear as well as conventional weapons since 1945 Armaments policies are placed within the context of technological development international politics and diplomacy and social politics and economics An extended general introduction and conclusion and introductions to each section provide coherence between the specialized chapters and draw out wider implications for policymakers and for political scientists *Arms Races in International Politics* addresses two key questions what causes arms races and what is the connection between arms races and the outbreak of wars **Political Economy of New Pragmatism** Grzegorz W. Kolodko,2022-09-17 This book provides answers to fundamental questions of sustainable development and international cooperation in light of irreversible globalization

Based on comprehensive research and a wealth of experience from his own political activities the author offers an insightful analysis of the globalized economy and its political cultural and ecological context Presenting an objective assessment the author diagnoses the state of affairs and formulates recipes to overcome present day challenges such as income inequalities climate change demographic imbalance and the new Cold War which overlap with the black trinity populism nationalism and authoritarianism Grzegorz Kolodko is one of the most acute observers of the international economy based on long experience both as a practitioner and as an academic His writings are always an important starting point for debate and discussion about the political economy of globalization Francis Fukuyama Stanford University author of The End of History Grzegorz Kolodko unites deep policy experience a vast breadth of observation and a solid grip on real world economics in his case for a new pragmatism For all involved in the causes of peace justice shared prosperity and public purpose he is a leader and an ally James K Galbraith The University of Texas at Austin Dr Kolodko delivers comprehensive and inspiring economic analysis drawing on his rich historical political leadership His probing and insightful assessment of globalization in today s and tomorrow s world is a must read Rev Jesse L Jackson President of Rainbow Coalition and International Civil Rights Activist

Handbook on the Economics of Conflict Derek L. Braddon, Keith Hartley, 2011-01-01 The Handbook on the Economics of Conflict conveys how economics can contribute to the understanding of conflict in its various dimensions embracing world wars regional conflicts terrorism and the role of peacekeeping in conflict prevention The economics of conflict is a relatively new branch of the discipline of economics Conflict provides opportunities for applying game theory involving strategic behaviour interactions and interdependence between adversaries The Handbook demonstrates that conflict and its prevention is costly it considers new dimensions such as ethnic cleansing destructive power terrorism corruption the impact of new technology peacekeeping the role of economists in defence ministries and the use of private contractors in conflict The Economics of Military Expenditures Christian Schmidt, 1987-07-07 **Political Economy and Grand Strategy** Mark R. Brawley, 2009-09-10 This book examines traditional balance of power theory from a political economic perspective using historical examples to draw out distinctions between the liberal and realist approach and how this affects grand strategy The realist view of the balance of power theory includes implicit assumptions that economic assets can be turned quickly into power and that states always respond to threats quickly and only with a view to the short run These assumptions drive many of the expectations generated from traditional balance of power theory discouraging realists from looking at domestic sources of power which in turn undermined their ability to frame strategic decisions properly By thinking about how power must be managed over time however we can model the choices policy makers confront when determining expenditures on defense while keeping an eye on the impact of those costs on the economy By emphasizing the role of the state identifying different causal patterns in domestic politics and demonstrating the importance of systemic competition this book aims to establish why a neo classical realist approach is not only different from a liberal approach but also superior when addressing

questions on grand strategy This book will be of much interest to students of security studies international political economy grand strategy and IR theory in general Mark R Brawley is Professor of Political Science at McGill University Montreal Canada He is author of several books on International Relations specialising in the connections between political economic issues and security

Global Political Economy and the Modern State System Tobias Ten Brink, 2014-04-03 In Global Political Economy and the Modern State System Tobias ten Brink contributes to an understanding of the modern state system its conflicts and its transformation In contrast to the political attractiveness of optimistic theoretical approaches to globalisation this book demonstrates how an analytical approach rooted in Global Political Economy GPE helps to explain both the tendencies towards integration and towards rivalry in international relations By way of a historical reconstruction of different world order phases in the twentieth century ten Brink analyses multiple phase specific variations of socioeconomic and geopolitical conflicts that are significant for the modern capitalist world system Revised edition of Geopolitik Geschichte und Gegenwart kapitalistischer Staatenkonkurrenz Verlag Westf lisches Dampfboot M nster 2008

Economic Theories of Peace and War Fanny Coulomb, 2004-07-29 War often comes down to one thing money This book will be of interest not only to those involved in the burgeoning field of defence economics but also to those interested in international relations and defence studies

Dilemmas of Nuclear Strategy Roman Kolkowicz, 1987 Nuclear strategy and deterrence in their golden age a nostalgically defined period sometime in the mid 1950s to mid 1960s promised to harness and control the nuclear Moloch hopes were high that the civilian strategists flooding into Washington would succeed in designing a new science of war that would safeguard national security provide a stable international environment and develop a rational decision making process for the management of national interests in a hostile nuclear world Three decades later it is a commonplace that the erstwhile promises and pretensions of the nuclear whiz kids and the wizards of Armageddon have not lived up to expectations

Making Peace Possible Lloyd J. Dumas, Marek Thee, 2014-06-28 In Making Peace Possible the editors have presented a range of papers which focus on the theory and practice of economic conversion of military oriented industry to civilian use The book brings together a wealth of information from academic research and from case studies undertaken by individual countries and by the United Nations Covering such diverse topics as the relationship between the level of armament expenditure in the industrialized countries and economic aid to less developed countries the economic impact of ever increasing expenditure on arms and the theory and practical experience of economic conversion projects in the US and Scandinavia Making Peace Possible shows that economic conversion from military to civilian use can help form the basis for a more peaceful and economically stable world

War, Peace and the Military Franz Kernic, 2023-03-17 This book is a comprehensive analysis of the various social science approaches to explaining and interpreting war peace and the military Its central aim is to trace and reconstruct those basic assumptions constructed and thought processes undertaken by modern social sciences in their research and conceptualization of military violence and the use of force In addition to such

reconstruction the aim is also to enquire into the preconditions of such thought This study therefore eschews the development of an explicit strategy in the sense of a research strategy but instead is much more concerned with thinking about its subject matter by means of re thinking and reflecting upon different theoretical approaches and problems The investigation includes a critical reexamination of the tradition of military sociological research from the beginning of modern sociology to late twentieth century theoretical approaches regarding the security focused and or war driven aspects of modern society
