

The background of the slide is a composite image. On the left, a German flag (black, red, and gold horizontal stripes) is shown waving. On the right, there are laboratory glassware items, including a beaker with a smiley face and a plus sign, and a test tube with a biohazard symbol. The entire scene is overlaid with a grid pattern, and a cityscape is visible at the bottom.

Political Risk Assessment Of The Biotechnology Sector In Germany:

Political Risk Assessment of the Biotechnology Sector in Germany Eric M. Zyla, 2006-09 This book applies a new political risk model which can be used for any industry sector in any country providing a quantitized assessment of the risks for investment in international business environments It is the reprint of a report originally produced privately in May 2002 to evaluate the political risk of investing in the biotechnology sector in Germany It has now been released to the public in an effort to further the use of political risk models and to facilitate international business It is not intended for the casual user but rather as an example of political risk modeling

The International Law of Biotechnology Matthias Herdegen, 2023-01-20 In this thoroughly updated second edition Matthias Herdegen provides a comprehensive and contemporary assessment of the regulation of biotechnology processes and products from an international and comparative perspective complete with analysis of intricate legal and ethical debates

Commercial biotechnology : an international analysis. , *Food and Agricultural Biotechnology in Ethical Perspective* Paul B. Thompson, 2020-11-09 This 3rd edition of Food and Agricultural Biotechnology in Ethical Perspective updates Thompson's analysis to reflect the next generation of biotechnology including synthetic biology gene editing and gene drives The first two editions of this book published as Food Biotechnology in Ethical Perspective in 1997 and 2007 were the first comprehensive philosophical studies of genetic engineering applied to food systems The book is structured with chapter length treatments of risk in four categories food safety to animals to the environment and socio economic risks These chapters are preceded by two chapters providing orientation to the uses of gene technology in food and agriculture and to the goals methods and background assumptions of technological ethics There is also a chapter covering all four types of risk as applied to the first US technology recombinant bovine somatotropin The last four chapters take up 1 intellectual property debates 2 religious metaphysical and intrinsic objections to biotechnology 3 issues in risk and trust and 4 a review of ethical issues in synthetic biology gene editing and gene drives the three key technologies that have emerged since the book was last revised

Industry and Politics in West Germany Peter J. Katzenstein, 2018-08-06 Dynamic technological developments in industrial production the rise of new social movements in national politics and great changes in the international political economy have left a deep imprint on the Federal Republic A compelling explanation of West Germany's success in maintaining economic prosperity and political stability under such challenging conditions has continued to elude observers Under the editorship of Peter J Katzenstein thirteen distinguished scholars from both sides of the Atlantic here provide an original interpretation of the political economy of the Bonn Republic during the forty years since its founding and explore in particular its extraordinary capacity for accommodating change Whereas studies in political economy have typically focused on one level of political action either the shop floor or national politics or the international system this innovative account analyzes the interaction of change at all three levels bringing together case studies drawn from six manufacturing and service sectors

The Political Theories of

Risk Analysis Nicholas P. Guehlstorf,2012-11-03 The purpose of this study is to question whether liberal political theories ought to inform the way policymakers and administrators analyze risk in proposed courses of environmental practice In order to explore the relationship of liberal theory to rational practice in environmental policy this project examines the risk analysis used to approve the genetically engineered bovine growth hormone in American agricultural policy The Political Theories of Risk Analysis suggests that American environmental public policy is attempting to assess danger with an incomplete notion of utility to eliminate the hazards of society with an inadequate contractual justification of political authority and to publicly debate accepted levels of risk with an unfulfilled critical social theory Because environmental risk analyses are incorrectly perceived as technically rational and socially apolitical they result in practices that are muddled and misdirected Making theoretical foundations explicit however could lead to improved practice Public policy and administrative decisions regarding agricultural biotechnologies should and can function with more concern for democratic values The Political Theories of Risk Analysis is for environmental scientists philosophers public policy planners applied ethicists political scientists and environmentalists *Handbook of Biology and Politics* Steven A. Peterson,Albert Somit,2017-05-26 The study of biology and politics or biopolitics has gained considerable currency in recent years as articles on the subject have appeared in mainstream journals and books on the subject have been well received The literature has increased greatly since the 1960s and 1970s when this specialization first made an appearance This volume assesses the contributions of biology to political science Chapters focus on general biological approaches to politics biopolitical contributions to mainstream areas within political science and linkages between biology and public policy The volume provides readers with a comprehensive introduction to the subject *Energy Abstracts for Policy Analysis* ,1988 *Biotechnology and Public Engagement in Europe* J. Hansen,2010-05-13 Providing a comparison the most important instances of public engagement with biotechnology in Europe in recent years this book provides a theoretically reflected and empirically grounded study of the opportunities and obstacles for a thorough democratization of technological development through processes of public engagement
