Then ideating on and illuminating the mind with cosmic consciousness can attract spiritual Microvita to help rejuvenate the mind by dissolving its embedded psychic impressions leading to self realization Thus it can be seen that Microvita have a distinctive role in guiding our life journey towards its cosmic abode I greatly complement Dr Rudolph for this book which will hopefully invoke the interest of many independent minds to explore and discover the new science of Microvita

From Imaginary Oxymora to Real Polarities and Return Hans-Joachim Rudolph, 2012-03-02 Professor Dhanjoo Ghista about the Book The author has done admirable work to develop the concept of Microvita and its synthesis from the medieval question of whether there are universalia ante res impinging on our destiny and fortune to a model of the atomic nucleus onto how Devayonis and Pretayonis can be produced pairwise or apart by the action of the neutral and the positive or negative creation operator respectively Thereafter we learn how imperialism together with its different forms such as capitalism and nationalism all have one psychological base This comes about through diminishing the interest for the sublime and enhancing the interest for material goods Thereafter we journey from Microvita network formation clustering representation synchronisation and coherency to Microvita in the context of the Neo Leibnizian World Model and quantum monadology whereby consciousness should not be interpreted by our daily experiences but as an introspectively realized state Finally we recognize how Microvita give rise to what is known in Sanskrit as advaeta dvaeta dvaetava da meaning non dualistic dualistic non dualism Non dualism from dusk to dawn dualism only in the daytime of existence
