Radiation And Public Perception Benefits And Risks:

Radiation and Public Perception Jack P. Young, 1995 Proceedings of a symposium at the April 1992 meeting Sections present an overview of radiation and public perception positive and negative health aspects of nuclear radiation research on segments of the world population who were exposed to excessive amounts of radioactivity and research on environmental and occupational radiation exposure Covers irradiated foods children in utero during atomic bomb detonations and health assessment of the Chernobyl accident Includes a glossary Annotation copyright by Book News Inc Portland OR *Public Perceptions of Radiation Effects on Health Risks and Well-Being* Yusniza Kamarulzaman, Farrah Dina Yusop, Noorhidawati Abdullah, Azian Madun, Kwan-Hoong Ng, 2020-01-01 This book reports on the investigation of the public's perception of Radio Frequency Electromagnetic Field RF EMF radiation effects on health and well being in Malaysia It elaborates on how understanding the impact of perceived risk is essential in order to investigate the explanatory value and effectiveness of interventions influencing these beliefs The book expands on the knowledge and understanding of different risk perception related to radiation in order to explain the gap in literature regarding the relationship between risk perceptions that lead to public behaviors In doing so the book presents empirical findings of a national study that unveils two key factors affecting public risk perceptions psychographic and personal factors It offers a more collective and cultural understanding of public perceptions on radiation risks via a systematic mixed method research approach Research in the book also shows that while the radiation risk is recognizable and unavoidable the relevant stakeholders should be more proactive and committed to communicate and rectify the perception of radiation The book thus serves as a valuable source of reference to understand the debate and to invite more participatory dialogues on radiation risk perceptions among public **The Social Risks of Agriculture** Ronald C. Wimberley, Craig K. Harris, Joseph J. Molnar, Terry J. Tomazic, 2002-08-30 In a vast society where environmentally conscious nonfarming voters and consumers have grown to greatly outnumber those directly engaged in agriculture what happens in agriculture becomes increasingly subject to control by the general society as policies and laws cater to constituents and consumers This book provides an overview of how Americans perceive and value farmers and examines public opinion with regard to a number of agricultural issues Based on analysis of national survey data the authors offer an empirically based discussion and interpretation of those views and perceptions that help to shape policy and social sustainability This unique collection illustrates that in addition to its natural biological and economic risks agriculture has social risks that reverberate through all levels of society As the general population grows and the number of farms and farmers diminishes the weight of public opinion becomes more important in the policy arena of society as well as in the market demands for food and fiber grown in safe and favorable environmental conditions Setting the stage with a consideration of the larger society's interests in agricultural issues and of social and agricultural interdependence the contributors cover a range of topics and issues affecting agriculture at the end of the 20th century Chapters examine public

perceptions of government's role in farming support for an environmentally friendly agricultural system views on pesticides and chemicals in foods consumer attitudes on food safety threats to clean drinking water concerns over farm animal welfare and the basic agrarian ethic of American society The book concludes with a look to the future of the social risks of agriculture in the 21st century **Radiation and Public Perception** Jack P. Let There Be Light! Robert S. Dutch, 2017-06-16 Have you ever wondered what it is like to work on a nuclear power plant Robert Dutch worked in the UK's nuclear industry for many years as a scientist and then as a tutor at a nuclear training center He also holds degrees in theology Drawing upon his qualifications and experience Robert addresses the controversial issue of nuclear power from a Christian perspective In contrast to a negative nuclear narrative often portrayed he presents a positive nuclear narrative alongside other ways of generating electricity Be prepared to be challenged to think seriously

about nuclear's merits in providing clean low carbon electricity **Nuclear Power and Human Rights in Japan** Emrah Akyüz, 2021-02-11 In *Nuclear Power and Human Rights in Japan: The Fallout of Fukushima* Emrah Akyüz advances an environmental human rights approach to environmental protections regarding nuclear power. Using the aftermath of the Fukushima disaster as a case study, Akyüz argues for three main approaches to environmental protection: including the right to environment, the reinterpretation of human rights, and the role of procedural rights.
