Radical Philosophy Reader:

Radical Philosophy Reader Roy Edgley, Richard Osborne, 1985 **Socialism, Feminism and Philosophy** Sean Sayers, Peter Osborne, 1990 Anthology of articles that have appeared in the journal *Radical Philosophy* It covers topics in social and moral philosophy which are central to current controversies on the left engaging with contemporary issues in critical terms Radical Philosophy, 2013 *The Blackwell Dictionary of Western Philosophy* Nicholas Bunnin, Jiyuan Yu, 2009-01-27 *The Blackwell Dictionary of Western Philosophy* The Blackwell Dictionary of Western Philosophy The style is fresh and engaging and it gives a broad and accurate picture of the western philosophical tradition It is a pleasure to browse in even if one is not looking for an answer to a particular question David Pears Its entries manage to avoid the obscurities of an exaggerated brevity without stretching themselves out as if seeking to embody whole miniature essays In short it presents itself as a model of clarity and clarification Alan Montefiore *Representing Reason* Rachel Joffe Falmagne, Marjorie Hass, 2002-10-16 Philosophy's traditional man of reason independent neutral unemotional is an illusion That's because the man of reason ignores one very important thing the woman As feminist philosophy grew in the 1980s and 90s it became clear that the attributes philosophical tradition wrote off as womanly are in fact part of human nature No longer can philosophy maintain the dichotomy between the rational man and the emotional woman but must now examine a more complex human being able to reason and feel Yet feminist philosophy also makes it clear that men and women theorize the world in different ways from different perspectives *Representing Reasons Feminist Theory and Formal Logic* collects new and old essays that shed light on the underexplored intersection of logic and feminism The papers in this collection cross over many of the traditional divides between continental and analytic philosophy between philosophical reflection and empirical investigation and between empirical investigations with an individual or societal grain of analysis This is possible because *Representing Reasons* frames the relationship between logic and feminism in terms of issues rather than historical figures or methodologies As such the articles serve as a model for crossing these divides just as they break down the traditional divide between logic and feminism **A Marxist Education** Wayne Au, 2018-06-05 *Dialectics of Education* is a rich collection of essays analyzing both the role of education in shaping ideology in the United States and the political implications of struggles for educational justice This book seeks to recover and reframe the dialectical materialist tradition in critical education studies and carries this tradition forward into theory and practice relevant for today Building on the tradition of the groundbreaking book *Schooling in Capitalist America* that was first published in 1976 author Wayne Au presents a Marxist perspective on educational policies and pedagogy and the highlights the potential for struggle in both the political arena and the classroom This book is an essential tool in the growing resistance against the privatization of education and for the struggle for educational rights for all students regardless of ethnicity or social status **Rationalizing Culture** Georgina Born, 2023-09-01 Anthropologist Georgina Born presents one of the first ethnographies of a powerful western cultural

organization the renowned Institut de Recherche et de Coordination Acoustique Musique IRCAM in Paris As a year long participant observer Born studied the social and cultural economy of an institution for research and production of avant garde and computer music She gives a unique portrait of IRCAM s composers computer scientists technicians and secretaries interrogating the effects of the cultural philosophy of the controversial avant garde composer Pierre Boulez who directed the institute until 1992 Born depicts a major artistic institution trying to maintain its status and legitimacy in an era increasingly dominated by market forces and in a volatile political and cultural climate She illuminates the erosion of the legitimacy of art and science in the face of growing commercial and political pressures By tracing how IRCAM has tried to accomodate these pressures while preserving its autonomy Born reveals the contradictory effects of institutionalizing an avant garde Contrary to those who see postmodernism representing an accord between high and popular culture Born stresses the continuities between modernism and postmodernism and how postmodernism itself embodies an implicit antagonism toward popular culture Anthropologist Georgina Born presents one of the first ethnographies of a powerful western cultural organization the renowned Institut de Recherche et de Coordination Acoustique Musique IRCAM in Paris As a year long participant observer Born studied Being English Julian Wolfreys,1994-09-30 Drawing on recent developments concerning national identity in post Marxist criticism and Derridean philosophy Wolfreys looks at the ways in which literature is used to represent the English middle classes to themselves using texts by Coleridge Wordsworth Arnold Gaskell Collins Eliot and Trollope **The Philosopher and His Poor** Jacques Rancière,2004-04-23 Ranci re s account of Western philosophical thought from Plato to Bourdieu argues that philosophers depend on an ideal poor for their own analyses but preclude them from abstract thought *Modern Environmentalism* David Pepper,2002-06-01 Modern Environmentalism presents a comprehensive introduction to environmentalism the origins of its main beliefs and ideas and how these relate to modern environmental ideologies Providing a historical overview of the development of attitudes to nature and the environment in society the book examines key environmentalist ideas influences and movements Science s role in mediating our view of nature is emphasised throughout This entirely new account draws on the explosion of writing on socio environment relations since Pepper s earlier work *The Roots of Modern Environmentalism*
