Radical Renewal The Politics Of Ideas In Modern America:

The Radical Renewal Norman Birnbaum,1988 The Radical Renewal Norman Birnbaum,1988 **Religion and Radical Politics** Robert Hedborg Craig,1992 This study discusses an array of movements organisations and activists many largely unstudied who sought to aid the poor and oppressed through Christian social action **The Transformation of American Politics** David M. Ricci,1993-01-01 Explores the parallel and convergent social economic and political trends within America that have transformed government in Washington and led to the development and prestige of public policy research centres or think tanks **The Changing Agenda of Israeli Sociology** Uri Ram,2012-02-01 This study explores the changing agenda of Israeli sociology by linking content with context and by offering a historically informed critique of sociology as a theory and as a social institution It examines on the one hand the general theoretical perspectives brought to bear upon sociological studies of Israel and on the other the particular social and ideological persuasions with which these studies are imbued Ram shows how the agenda of Israeli sociology has changed in correlation with major political transformations in Israel the long term hegemony of the Labor Movement up to the 1967 war the crisis of the labor regime following the 1973 war and the ascendance of the right wing to governmental power in 1977 Three stages in Israeli sociology corresponding to these political transformations are identified the domination of a functionalist school from the 1950s to the 1970s a crisis in the mid 1970s and the profusion of alternative and competing perspectives since the late 1970s Ram concludes with a plea for a new sociological agenda that would shift the focus from nation building to democratic and egalitarian citizenship formation This book offers the first systematic and comprehensive overview of sociological thought in Israel and by doing so offers a unique interpretation of the social and intellectual history of Israel *After Progress* Norman Birnbaum,2002-07 Here Birnbaum traces the decline and fall of social reform in Europe and America He shows for example that William Howard Taft railed against socialism by which he meant anything restricting the market **Toward a Global Civil Society** Michael Walzer,1997-12-01 The demise of Communism has not only affected Eastern Europe but also the countries of the West where a far reaching examination of political and economic systems has begun This collection of essays by internationally renowned scholars of political theory from Europe and the United States explores both the concept and the reality of civil society and its institutions *The Humanities and the Civic Imagination* James Frank Veninga,1999 For those who believe that the humanities in America are in trouble suffering from over specialization and never ending intramural conflicts this collection of addresses and essays provides much needed hope Since the early 1970s state humanities councils working under a Congressional mandate have developed important models of how the study of history literature and culture can be infused into the public life of the nation Often countering trends that have dominated the humanities on campus state councils drawing upon the energies and resources of volunteer boards professional staff and public minded scholars have demonstrated through thousands of public programs documentary films conferences readings and discussions public issues

forums interpretive exhibits oral histories lectures discussions and workshops that the humanities retain the capacity to help foster a communal vision that can revitalize the public life of the nation

The New American Exceptionalism Donald E. Pease, 2009 For a half century following the end of World War II the seemingly permanent cold war provided the United States with an organizing logic that governed nearly every aspect of American society and culture giving rise to an unwavering belief in the nation's exceptionalism in global affairs and world history After the collapse of the Soviet Union this cold war paradigm was replaced by a series of new ideological narratives that ultimately resulted in the establishment of another potentially endless war the global war on terror In *The New American Exceptionalism* pioneering scholar Donald E. Pease traces the evolution of these state fantasies and shows how they have shaped U.S. national identity since the end of the cold war uncovering the ideological and cultural work required to convince Americans to surrender their civil liberties in exchange for the illusion of security His argument follows the chronology of the transitions between paradigms from the inauguration of the New World Order under George H. W. Bush to the homeland security state that George W. Bush's administration installed in the wake of 9/11 Providing clear and convincing arguments about how the concept of American exceptionalism was reformulated and redeployed in this era Pease examines a wide range of cultural works and political spectacles including the exorcism of the Vietnam syndrome through victory in the Persian Gulf War and the creation of Islamic extremism as an official state enemy At the same time Pease notes that state fantasies cannot altogether conceal the inconsistencies they mask showing how such events as the revelations of prisoner abuse at Abu Ghraib and the exposure of government incompetence after Hurricane Katrina opened fissures in the myth of exceptionalism allowing Barack Obama to challenge the homeland security paradigm with an alternative state fantasy that privileges fairness inclusion and justice

Materializing Democracy Russ Castronovo, Dana D. Nelson, 2002-06-21 Investigates the complex histories and conflicting desires that are generally concealed behind the term democracy

The Bop Apocalypse John Lardas, John Lardas Modern, 2001 Lardas examines the new visions of the three artists and their Beat religiosity wherein they lived their religion of real life experience rather than faith By rejecting the cultural tenets of postwar America each man took on the discourse of the public theology created physical enactments of a religious representation of the world and through literature changed the interpretation of modern religion

C. Wright Mills C. Wright Mills, 2001-09-14 This collection of letters and writings edited by his daughters allows readers to see behind Mills's public persona for the first time

New Nationalisms in Europe United States. Congress. Senate. Committee on Foreign Relations. Subcommittee on European Affairs, 1995 *America in 1900*, The author argues that the problems and issues that have defined America in the 20th century such as business mergers trade disputes and racial violence were first revealed in their modern form in the year 1900 Ten chapters comprise a narrative history of the events of this pivotal year

Intellectuals and the Crisis of Modernity Carl Boggs, 1993-01-01 This book explores the role of intellectuals in politics and social change from traditional society to the present Its theoretical

structure is based upon six distinct types of intellectual activity The rise and decline of specific types is analyzed in the historical context of industrialization technological change shifting social forces and the emergence of popular movements

Critical Theory and Methodology Raymond A. Morrow, Raymond Allen Morrow, David D. Brown, 1994-06-24 Critical Theory traces its roots from Marxism through the renowned Frankfurt School to a wide array of national and cultural traditions Raymond Morrow's book traces the history and outlines the major tenets of critical theory for an undergraduate audience He exemplifies the theory through an analysis of two leading social theorists Jürgen Habermas and Anthony Giddens Unique to this volume is the emphasis on the link between Critical Theory and empirical research and social science methodology often thought to be incompatible

Due Respect Fred Groh, 2018-10-26 Published in 1998 this critical analysis of welfare state morality argues that all its essential claims are untenable that need based distribution of goods is inconsistent with its rationale that morality can be given a rational grounding from which follows an exceptionally strong right of personal sovereignty that cognitive self sufficiency in the ordinary adult shows capacity to deal adequately with the problems of life The same arguments lay the basis for an alternative social morality giving the individual his due respect Among the topics are subjective and objective approaches to moral justification when moral intuitions must be rejected how it can be rational to act against reason personal autonomy and the irresistible impulse and why and when expropriation is morally permissible A summary chapter applies the main conclusions to the poverty problem comparing welfare state morality and the alternative in action

Good Society Robert Bellah, Richard Madsen, Steve Tipton, William Sullivan, Ann Swidler, 2011-02-23 THE GOOD SOCIETY examines how many of our institutions from the family to the government itself fell from grace and offers concrete proposals for revitalizing them

Heroism and the Black Intellectual Jerry Gafio Watts, 2000-11-09 Before and after writing Invisible Man novelist and essayist Ralph Ellison fought to secure a place as a black intellectual in a white dominated society In this sophisticated analysis of Ellison's cultural politics Jerry Watts examines the ways in which black artists and thinkers attempt to establish creative intellectual spaces for themselves Using Ellison as a case study Watts makes important observations about the role of black intellectuals in America today Watts argues that black intellectuals have had to navigate their way through a society that both denied them the resources status and encouragement available to their white peers and alienated them from the rest of their ethnic group For Ellison to pursue meaningful intellectual activities in the face of this marginalization demanded creative heroism a new social and artistic stance that challenges cultural stereotypes For example Ellison first created an artistic space for himself by associating with Communist party literary circles which recognized the value of his writing long before the rest of society was open to his work In addition to avoid prescriptive white intellectual norms Ellison developed his own ideology which Watts terms the blues aesthetic Watts's ambitious study reveals a side of Ellison rarely acknowledged blending careful criticism of art with a wholesale engagement with society

Social Theory and Education Raymond Allen Morrow, Carlos Alberto

Torres, 1995-03-09 This book summarizes and critiques theories of social and cultural reproduction as they relate to sociology of education
