Tony Stoller

Radio Research An Annotated Bibliography 1975 1988 Second Edition:

Classical Music Radio in the United Kingdom, 1945-1995 Tony Stoller, 2017-11-11 This book is the first comprehensive account of classical music on all British radio stations BBC and commercial between 1945 and 1995 It narrates the shifting development of those services from before the launch of the Third Programme until after the start of Classic FM examining the output from both qualitative and quantitative perspectives as well as recounting some of the stories and anecdotes which enliven the tale During these fifty years British classical music radio featured spells of broad multi channel classical music radio with aspirational and mainstream culture enjoying positive interactions followed by periods of more restricted and exclusive output in a paradigm of the place of high culture in UK society as a whole The history was characterised by the recurring tensions between elite and popular provision and the interplay of demands for highbrow and middlebrow output and also sheds new light on the continuing relevance of class in Britain It is an important and unique resource for those studying British history in the second half of the twentieth century as well as being a compelling and diverting account for enthusiasts for classical music radio

Mass Communications Research Resources Christopher H. Sterling, James K. Bracken, Susan B. Hill, 2016-05-06 This reference book is designed as a road map for researchers who need to find specific information about American mass communication as expeditiously as possible Taking a topical approach it integrates publications and organizations into subject focused chapters for easy user reference The editors define mass communication to include print journalism and electronic media and the processes by which they communicate messages to their audiences Included are newspaper magazine radio television cable and newer electronic media industries Within that definition this volume offers an indexed inventory of more than 1 400 resources on most aspects of American mass communication history technology economics content audience research policy and regulation The material featured represents the carefully considered judgment of three experts two of them librarians plus four contributors from different industry venues The primary focus is on the domestic American print and electronic media industries Although there is no claim to a complete census of all materials on print journalism and electronic media what is available is now too vast for any single guide the most important and useful items are here The emphasis is on material published since 1980 though useful older resources are included as well Each chapter is designed to stand alone providing the most important and useful resources of a primary nature organizations and documents as well as secondary books and reports In addition online resources and internet citations are included where possible
