Radio In Australia

Errol Hodge

Radio In Australia:

Radio Wars Errol Hodge, 1994-06-19 Radio Australia the multilingual overseas radio service of the Australian Broadcasting Corporation is little known in Australia but is heard by millions of listeners in the Asia Pacific region and others throughout the world *Radio Wars* first published in 1995 was the first book to tell the story of this important but unexplored aspect of Australia's international presence Launched in 1939 as a propaganda tool the service was for three decades caught uncomfortably between those who would use it as an instrument of foreign policy and those who would have it an icon of journalistic integrity But the author argues that by the time of the Dili massacre propaganda had given way to forthright and factual reporting Spiced with anecdotal detail *Radio Wars* traces a struggle that ranges from personal pettiness to events with significant political ramifications

The Politics of Language in Australia Uldis Ozolins, 1993-05-28 This book traces language policy in Australia from World War II to the present examining the changes in government policy over this time and changes in major public institutions due to the presence of these languages The major focus is on changes in the education and broadcasting systems with attention also to interpreting translating industrial relations and the role of languages in diplomacy and trade Dr Ozolins places language in the context of multicultural politics and shows that government language policies that were once prompted by suspicion now accept and even encourage cultural and linguistic maintenance In fact Australia has introduced many innovations of international significance in language policy particularly with the National Language Policy announced in 1987 This policy marked a decisive change in political assumptions toward languages in postwar Australia because it recognized the importance of languages other than English

Radio in Australia John Potts, 1989 Highlights the difference between radio and other media explores the nature of listening and of sound itself Includes references to Aboriginal radio role in preservation of Indigenous languages p 26 Aboriginal talkback programs p 164 Radio Redfern p 173 176 *Radio Australia News Index, 1946-66* Radio Australia, 1966 **Australia**, 1966

The Media and Communications in Australia Stuart Cunningham, Sue Turnbull, 2020-07-16 Traditional media are being reshaped by digital technologies The funding model for quality journalism has been undermined by the drift of advertising online demarcations between different forms of media are rapidly fading and audiences have fragmented We can catch up with our favourite TV show on a tablet social media can be more important than mainstream radio in a crisis and organisations large and small have become publishers in their own right on apps Nevertheless mainstream media remain powerful The Media and Communications in Australia offers a systematic introduction to this dynamic field Fully updated and revised to take account of recent developments this fourth edition outlines the key media industries and explains how communications technologies are impacting on them It provides a thorough overview of the main approaches taken in studying the media and includes an expanded issues section with new chapters on social media gaming apps the environment media regulation ethics and privacy With contributions from some of Australia's best researchers and teachers in the field

The Media and Communications in Australia remains the most comprehensive and reliable introduction to media and communications available. It is an ideal student text and a reference for teachers of media and anyone interested in this influential industry. **APAIS 1992: Australian public affairs information service**, *International Broadcasting and Its Contested Role in Australian Statecraft* Geoff Heriot, 2023-03-14. This book offers an insightful reappraisal of international broadcasting as discursive rather than soft power in service of democratic statecraft. This at a time when issues of transnational media, the credibility of news and the perils of disinformation and information warfare figure worryingly in public discourse. Reflecting the perspective of middle power Australia, author Geoff Heriot locates the strategic utility of multiplatform international broadcasting with reference to contemporary theories of soft, hard, smart power projection and intercultural communication. He applies a fresh model of strategic analysis to the political history of Radio Australia, examining the various external and internal variables that resulted in its flawed success in political communication during the late Cold War period. *Year Book Australia 1995*, 1994. **Electrical Engineer of Australia & New Zealand**, 1929.
