Raft Of Odysseus The Ethnographic Imagination Of Homers Odyssey:

The Raft of Odysseus Carol Dougherty, 2001-04-05 The Raft of Odysseus looks at the fascinating intersection of traditional myth with an ethnographically viewed Homeric world Carol Dougherty argues that the resourcefulness of Odysseus as an adventurer on perilous seas served as an example to Homer's society which also had to adjust in inventive ways to turbulent conditions The fantastic adventures of Odysseus act as a prism for the experiences of Homer's own listeners traders seafarers storytellers soldiers and give us a glimpse into their own world of hopes and fears 500 years after the Iliadic events were supposed to have happened

The Raft of Odysseus Carol Dougherty, 2023 The Raft of Odysseus offers an interpretation of Homer's Odyssey rooted in the issues of overseas travel trade and settlement that dominated the early archaic period in Greece

Early Greek Epic: Language, Interpretation, Performance Christos Tsagalis, 2022-12-05 In the last fifty years major developments have taken place both in the field of Homeric studies and in the rest of early Greek epic These developments have not only created a more solid basis for studying the Homeric epics but they have also broadened our horizons with respect to the place of Homeric poetry within a larger cultural milieu The impressive advances in Hesiodic studies the more systematic approach to the Epic Cycle the more nuanced use and re-evaluation of dominant twentieth century theories like Neoanalysis and Oral Theory the study of other fragmentary Greek epic the cognitive turn narratology the performance of epic poetry in the ancient and modern world the fruitful utilization of Indo-European material and the widely accepted recognition of the close relation between Homer and the mythology and literature of the ancient Near East have virtually shaped anew the way we read and understand Homer Hesiod and early Greek epic The studies collected in this volume are informed by most of the aforementioned sub-fields and span four research areas i Homer ii Hesiod iii the Epic Cycle d the performance of epic

Women of Substance in Homeric Epic Lilah Grace Canevaro, 2018-09-04 Women in Greek epic are treated as objects as commodities to be exchanged in marriage or as the spoils of warfare However women in Homeric epic also use objects to negotiate their own agency subverting the male viewpoint by utilizing on their own terms the very form they themselves are thought by men to embody Such female objects can transcend their physical limitations and be both symbolically significant and powerfully characterizing They can be tools of recognition and identification They can pause narrative and be used agonistically They can send messages and be vessels for memory Women of Substance in Homeric Epic offers a new and insightful approach to the Iliad and Odyssey bringing together Gender Theory and the burgeoning field of New Materialisms new to classical studies and thereby combining an approach predicated on the idea of the woman as object with one which questions the very distinction between subject and object This productive tension leads us to decentre the male subject and to put centre stage not only the woman as object but also the agency of women and objects The volume comes at a turning point in the gendering of Homeric studies with the publication of the first English translations by women of the Iliad in 2015 and the Odyssey in 2017 by Caroline Alexander and

Emily Wilson respectively It makes a significant contribution to scholarship by demonstrating that women in Homeric epic are not only objectified but are also well versed users of objects this is something that Homer portrays clearly that Odysseus understands but that has often escaped many other men from Odysseus alter ego Aethon in Odyssey 19 to modern experts on Homeric epic *Religious Competition in the Third Century CE: Jews, Christians, and the Greco-Roman World* Jordan D. Rosenblum, Lily Vuong, Nathaniel DesRosiers, 2014-10-01 The essays in this work examine issues related to authority identity or change in religious and philosophical traditions of the third century CE This century is of particular interest because of the political and cultural developments and conflicts that occurred during this period which in turn drastically changed the social and religious landscape of the Roman world The specific focus of this volume edited by Jordan D Rosenblum Lily Vuong and Nathaniel DesRosiers is to explore these major creative movements and to examine their strategies for developing and designating orthodoxies and orthopraxies Contributors were encouraged to analyze or construct the intersections between parallel religious and philosophical communities of the third century including points of contact either between or among Jews Christians pagans and philosophers As a result the discussions of the material contained within this volume are both comparative in nature and interdisciplinary in approach engaging participants who work in the fields of Religious Studies Philosophy History and Archaeology The overall goal was to explore dialogues between individuals or groups that illuminate the mutual competition and influence that was extant among them and to put forth a general methodological framework for the study of these ancient dialogues These religious and philosophical dialogues are not only of great interest and import in their own right but they also can help us to understand how later cultural and religious developments unfolded

Encyclopedia of Ancient Natural Scientists Paul T. Keyser, Georgia L. Irby-Massie, 2008-11-19 The Encyclopedia of Ancient Natural Scientists is the first comprehensive English language work to provide a survey of all ancient natural science from its beginnings through the end of Late Antiquity A team of over 100 of the world s experts in the field have compiled this Encyclopedia including entries which are not mentioned in any other reference work resulting in a unique and hugely ambitious resource which will prove indispensable for anyone seeking the details of the history of ancient science Additional features include a Glossary Gazetteer and Time Line The Glossary explains many Greek or Latin terms difficult to translate whilst the Gazetteer describes the many locales from which scientists came The Time Line shows the rapid rise in the practice of science in the 5th century BCE and rapid decline after Hadrian due to the centralization of Roman power with consequent loss of a context within which science could flourish Reading Homer Kostas Myrsiades, 2009 These nine new essays on Homer s epics deal not only with major Homeric themes of time honor kleos fame geras rewards the psychology of Homeric warriors and the re evaluation of type scenes but also with Homer s influence on contemporary film Following the introduction and an essay which sets the historical background for the epics four essays are devoted to fresh analysis of key passages and themes while another four turn to a discussion of the film Troy and Homer s influence on two other genres of

American cinema Lists and Catalogues in Ancient Literature and Beyond Rebecca Laemmle, Cédric Scheidegger
Laemmle, Katharina Wesselmann, 2021-02-22 Lists and catalogues have been en vogue in philosophy cultural media and literary studies for more than a decade These explorations of enumerative modes however have not yet had the impact on classical scholarship that they deserve While they routinely take a limited set of ancient models as their starting point there is no comparably comprehensive study that focuses on antiquity conversely studies on lists and catalogues in Classics remain largely limited to individual texts and with some notable exceptions offer little in terms of explicit theorising The present volume is an attempt to close this gap and foster the dialogue between the recent theoretical re appraisal of enumerative modes and scholarship on ancient cultures The 16 contributions to the volume juxtapose literary forms of enumeration with an abundance of ancient non sub or para literary practices of listing and cataloguing In their different approaches to this vast and heterogenous corpus they offer a sense of the hermeneutic epistemic and methodological challenges with which the study of enumeration is faced and elucidate how pragmatics materiality performativity and aesthetics are mediated in lists and catalogues **The Homeric Simile in Comparative Perspectives** Jonathan L. Ready, 2018 Presenting a new take on what made the Homeric epics such successful examples of verbal artistry this volume explores the construction of the Homeric simile and the performance of Homeric poetry from the neglected comparative perspectives offered by the study of modern day oral traditions
