Raging Desire:

Thinking And Destiny Harold W. Percival, 2002-04 In *Thinking and Destiny* something new although older than time is now made known to the world about Consciousness The information is largely about the makeup of the human where man comes from what becomes of him it explains what thinking is it tells how a thought is created and how thoughts are exteriorized into acts objects and events and how they make his destiny Destiny is thus shown to be self determined by thinking and the process of re existence and the after death states are told in detail A single reading of any one chapter of *Thinking and Destiny* brings rich rewards in new understanding of life s puzzling mysteries To read the entire book is to come nearer to knowledge of one s destiny and how to shape it than is possible through study of anything previously written in the English language Both the casually curious glancer at books and the most avid seeker for knowledge will be intrigued by the index which lists more than 400 subjects in *Thinking and Destiny* and by the fifteen chapter headings in the Table of Contents which identify the 156 sections The Foreword contains the only pages in which Mr Percival uses the first personal pronoun Here he relates some of the amazing experiences through which he was able to grasp the knowledge he transmits and to acquire the ability to do so

Desire in the Iliad Rachel H. Lesser, 2022-09-08 This is the first study to examine desire in the *Iliad* in a comprehensive way and to explain its relationship to the epic s narrative structure and audience reception Rachel H Lesser offers a new reading of the poem that shows how the characters desires especially those of the mortal hero Achilles and the divine king Zeus motivate plot and keep the audience engaged with the epic until and even beyond its end The author argues that the characters desires are primarily organized in narrative triangles that feature two parties in conflict over a third A variety of desires animate these triangles including sexual passion longing for a lost loved one yearning for lamentation and aggressive desires for vengeance and status and they are signified with terms such as eros himeros pothe menos thumos boule and eeldor as well as through the epic s thematic emotions of grief and anger *Desire in the Iliad* shows how the mortals and gods triangular desires together drive and shape two Iliadic plots the main plot of Achilles withdrawal from the fighting and then return to battle and the superplot of the larger Trojan War story The author also argues that these plots and their motivating desires arouse the listener s or reader s own corresponding desires narrative desire to know and understand the *Iliad* s full story sympathetic desire for characters welfare and empathetic passions longings and wishes Our desires invest us in the epic narrative and their resolution brings us satisfaction
