Rain Forests:

Tropical Rain Forests of the Far East Timothy Charles Whitmore, Christopher Paul Burnham, 1975 Seasonality Growth of the forest Kinds of forest Man and the tropical rain forest **Tropical Rain Forests** Neil Champion, 2007 Describes the rain forest environment including the plants and animals that live in them explains their importance to the worldwide ecosystem and discusses the actions that threaten the existence of these biomes **The Tropical Rain Forest** Marius Jacobs, 2012-12-06 In recent years tropical forests have received more attention and have been the subject of greater environmental concern than any other kind of vegetation There is an increasing public awareness of the importance of these forests not only as a diminishing source of countless products used by mankind nor for their effects on soil stabilization and climate but as unrivalled sources of what today we call biodiversity Threats to the continued existence of the forests represent threats to tens of thousands of species of organisms both plants and animals It is all the more surprising therefore that there have been no major scientific accounts published in recent years since the classic handbook by Paul W Richards *The Tropical Rain Forest* in 1952 Some excellent popular accounts of tropical rain forests have been published including Paul Richards *The Life of the Jungle* and Catherine Caulfield *In the Rainforest and Jungles* edited by Edward Ayensu There have been numerous often conflicting assessments of the rate of conversion of tropical forests to other uses and explanations of the underlying causes and in 1978 UNESCO UNEPI FAO published a massive report *The Tropical Rain Forest* which although full of useful information is highly selective and does not fully survey the enormous diversity of the forests **An Introduction to Tropical Rain Forests** T. C. Whitmore, 1998-03-26 This new edition of Whitmore's classic introduction to tropical rain forests has been comprehensively revised and updated reflecting the changes which have taken place since it was first published in 1990 The sections on human impact have been extended including a new global assessment of deforestation and details of new research on biodiversity and conservation The book remains unique in linking rain forest biology and ecology with silviculture and with concerns over sustainable resource utilization and the future of the tropical rain forests Accessibly written and illustrated throughout it is a must for biology and geography students and anyone who seeks to know more about the nature and importance of the world's tropical rain forests *Rain Forests of the World* Marshall Cavendish Corporation, 2002 Examines the animals plants characteristics and peoples of the world's rain forests as well as endangerment and preservation Contents V 1 Africa bioluminescence V 2 Biomass clearing V 3 Climate and weather emergent V 4 Endangered species food web V 5 Forest fire iguana V 6 Indonesia manatee V 7 Mangrove forest orangutan V 8 Orchid red panda V 9 Reforestation spider V 10 Squirrel Yanomami people V 11 Index **101 Facts About Rain Forests** J. Lou Barnes, 2003-07-03 Describes the importance of rain forests types of plant and animal life that live there and the current threat to rain forests from deforestation and pollution [Tropical Rain Forests And The World Atmosphere](#) Ghilleen T Prance, 2020-01-29 This book the result of a AAAS symposium organized to explore the ramifications of tropical

deforestation emphasizes the relationship of biosphere to troposphere aiming to set tropical forest ecology in the context of the global ecosystem

Tropical Rainforests Susan E. Place, 2001-05 Presents an overview of the nature of rainforests and discusses the causes and consequences of deforestation in Latin America's rainforests as well as alternative approaches to development

Tropical Rain Forests Richard T. Corlett, Richard B. Primack, 2011-03-03 The first edition of *Tropical Rain Forests an Ecological and Biogeographical Comparison* exploded the myth of the rain forest as a single uniform entity In reality the major tropical rain forest regions in tropical America Africa Southeast Asia Madagascar and New Guinea have as many differences as similarities as a result of their isolation from each other during the evolution of their floras and faunas This new edition reinforces this message with new examples from recent and on going research After an introduction to the environments and geological histories of the major rain forest regions subsequent chapters focus on plants primates carnivores and plant eaters birds fruit bats and gliding animals and insects with an emphasis on the ecological and biogeographical differences between regions This is followed by a new chapter on the unique tropical rain forests of oceanic islands The final chapter which has been completely rewritten deals with the impacts of people on tropical rain forests and discusses possible conservation strategies that take into account the differences highlighted in the previous chapters This exciting and very readable book illustrated throughout with color photographs will be invaluable reading for undergraduate students in a wide range of courses as well as an authoritative reference for graduate and professional ecologists conservationists and interested amateurs

Protecting Earth's Rain Forests Anne Welsbacher, 2015-08-01 From brilliantly colored birds and wild elephants to towering trees and exotic flowers rain forests are home to more than half of Earth's plants and animals People living in rain forests depend on this vast array of life and Earth itself relies on the world's rain forests to keep our climate and atmosphere in balance But rain forests around the world are under threat Once rain forests covered nearly 14 percent of Earth but now they have shrunk to less than half that size People around the globe are joining the quest to save rain forests With engaging text and eye catching images plus a special Going Green section this book tells you all about Earth's rain forests and what you can do to protect them
