Raising A Child In A Toxic Society:

Raising a Child in a Toxic Society S. C. Albright, 2005-06-10 This is a three part book Part one is autobiographical recalling the author's growing up years in the 1950s and 1960s and then having and raising a child from the mid 1980s on Her child's youth was riddled by ADD mild learning disabilities exposure to alcohol and social drugs and his self medication behavior until young adulthood as his parents struggled to prevent his self destruction Part two What Went Right What Went Wrong is a decade by decade analysis of American society from the 1950s through 2000 particularly pertaining to societal evolution and its effect on behavioral norms Part three Where Do We Go From Here is the author's analysis of what we as a nation need to do to reclaim our values and rescue our children from the negative influences of society Parenting, Family Policy and Children's Well-Being in an Unequal Society D. Hartas, 2014-01-30 Western societies face many challenges The growing inequality and the diminishing role of the welfare state and the rapid accumulation of the resources of a finite planet at the top 1% have made the world an inhospitable place to many families Parents are left alone to deal with the big societal problems and reverse their impact on their children's educational achievement and life chances The average working family is sliding down the social ladder with a significant impact on children's learning and wellbeing We now know that parental involvement with children's learning although important in its own right is not the primary mechanism through which poverty translates to underachievement and reduced social mobility Far more relevant to children's learning and emotional wellbeing is their parents income and educational qualifications The mantra of what parents do matters is hypocritical considering the strong influence that poverty has on parents and children We can no longer argue that we live in a classless society especially as it becomes clear that most governmental reforms are class based and affect poor families disproportionately In this book Dimitra Hartas explores parenting and its influence on children's learning and wellbeing while examining the impact of social class amidst policy initiatives to eradicate child poverty in 21st Century Britain
