The Oxford Handbook of Millennialism Catherine Wessinger, 2016-07 Seventh Day Adventists Melanesian cargo cults David Koresh's Branch Davidians and the Raelian UFO religion would seem to have little in common What these groups share however is a millennial orientation the audacious human hope for a collective salvation which may be either heavenly or earthly The Oxford Handbook of Millennialism offers readers an in depth look at both the theoretical underpinnings of the study of millennialism and its many manifestations across history and cultures

Cultural Sociology of the Middle East, Asia, and Africa Andrea L. Stanton, Edward Ramsamy, Peter J. Seybolt, Carolyn M. Elliott, 2012-01-05 In our age of globalization and multiculturalism it has never been more important for Americans to understand and appreciate foreign cultures and how people live love and learn in areas of the world unfamiliar to most U S students and the general public The four volumes in our cultural sociology reference encyclopedia take a step forward in this endeavor by presenting concise information on those regions likely to be most foreign to U S students the Middle East Asia and Africa The intent is to convey

what daily life is like for people in these selected regions It is hoped entries within these volumes will aid readers in efforts to understand the importance of cultural sociology to appreciate the effects of cultural forces around the world and to learn the history of countries and cultures within these important regions

Historical Dictionary of the Republic of Korea James E. Hoare, 2020-10-13 South Korea Republic of Korea is the more successful of the two Koreas in both economic and political terms Even the Asian economic crisis of 1997 1998 which hit badly was weathered successfully and when the next crisis came along in 2007 South Korea coped better than many other countries This economic strength taken with the steady progress of democratization since 1987 indicates that when the peninsula is eventually reunified as one day it probably will be a new unified Korea will follow the South Korea model rather than that of North Korea This fourth edition of Historical Dictionary of the Republic of Korea contains a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities as well as aspects of the country's politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about the Republic of Korea

A Protestant Theology of Passion Volker Küster, 2010 Minjung Theology is introduced here through theological biographical sketches of its main representatives They formulated a protestant liberation theology under the South Korean military dictatorship of the 1970s and 80s Their strong emphasis on the suffering han of the people minjung led them to the formulation of a genuine theology of the cross in Asia Volker Küster explores the reception of Minjung Theology and raises the question what happened to it during the democratization process and the rise of globalization in the 1990s Interpretations of art works by Minjung artists provide deep insights into these transformation processes Prologue and epilogue abstract from the Korean case and offer a concise theory of contextual theology in an intercultural framework

New Religions and State's Response to Religious Diversification in Contemporary Vietnam Chung Van Hoang, 2017-07-03 This book approaches newly emerging religious groups through the interplay between religious and non religious spheres in the specific context of Vietnam It considers the new religious groups as a part of religious reconfiguration in Vietnam caused by intensified interactions among these spheres It explores changes of relationship between religions and changes between the religious sphere and the political economic and public spheres in contemporary Vietnam Specifically it traces trajectories of religious development in relation to politico economic changes in this rapidly modernising nation It tests a hypothesis that at least some new yet unrecognized new religious groups have a positive active role in modernisation rather than a negative reactive role To this end the book draws on a number of research approaches and methodologies in an effort to provide readers with a multi faceted understanding of Vietnam's new religious groups The research is interdisciplinary in orientation drawing on sociology and anthropology It is also comparative in that it bases its argument on a consideration of three distinct new religious groups in Vietnam The research is also qualitative and ethnographic in that it drew on some of the techniques associated with participant observation during a sustained period of

fieldwork amongst the three religious groups The concept of religious reconfiguration developed in this book provides a framework for the study of religion in Vietnam which opens the way to further analysis from a comparative perspective Meanwhile an emphasis upon religious reinvention which addresses processes of remaking transforming legitimating and accommodating can be useful for research into New Religious Movements elsewhere in Asia A research in the challenges of new religions could act as a catalyst for interdisciplinary studies based on detailed empirical study of religious diversity and of religious freedom by other scholars It is hoped that this research might help to give a voice to religious minorities that are often the victim of stereotyping misunderstanding and punitive treatment The book is suitable for post graduate students and social researchers who are interested in religious revival religious diversification State religion relationships and State s regulation of new religions

New Religious Movements in Modern Asian History David W. Kim, 2020-09-30 This book provides evidence that the emergence of Asian new religious movements NRMs was predominantly the result of anti colonial ideology from local religious groups or individuals The contributors argue that when traditional religions were powerless to maintain their cultural heritage the leadership of NRMs adduced alternative principles and the new teachings of each NRM attracted the local people enough for them to change their beliefs The contributors argue that as a whole the Asian new religious movements overall were very ardent and progressive in transmitting their new ideologies The varied viewpoints in this volume attest to the consistent development of Asian NRMs from domestic and international dimensions by replacing old traditional religions
