Religion As A Chain Of Memory:

Religion as a Chain of Memory Danièle Hervieu-Léger, 2000 Thus religion may be perceived as a shared understanding with a collective memory that enables it to draw from the well of its past for nourishment in the increasingly secular present

BOOK JACKET **Religion as a Chain of Memory** Danièle Hervieu-Léger, 2000 Thus religion may be perceived as a shared understanding with a collective memory that enables it to draw from the well of its past for nourishment in the increasingly secular present

BOOK JACKET The Location of Religion Kim Knott, 2015-08-12 The ways in which humans interact with their location is an important topic within sociological studies of religion It is integral to the place of religion in secular society The Location of Religion A Spatial Analysis offers an overview of the ways in which religion can be located within social cultural and physical space It examines contemporary spatial theory notably the work of the influential sociologist Henri Lefebvre and the many disciplines that have contributed to the spatial study of religion This volume will be invaluable to all those interested in the role of religion in spatial analysis

Theories of Religion Seth Daniel Kunin, Jonathan Miles-Watson, 2006 This book provides a comprehensive selection of readings that relate to and explore the definition of religion The texts come from a wide range of approaches unified both by the questions they are addressing and their broadly social scientific perspective The disciplines covered include anthropology phenomenology psychology and sociology The editors have also included some key texts relating to the feminist approach to and critique of religion The first section of the book includes some of the foundational texts such as materials by Marx Freud and Durkheim The remaining sections look at more recent discussions of the issues from the different disciplinary perspectives Each reading is introduced by a biographical sketch of the author The book also includes introductory discussions to each section that both raise the key issues developed in a particular discipline and address the disciplinary approaches from a more critical stance

Theories of Religion A Reader is an invaluable critical resource accessible to a broad audience as well as students of theology and religious studies

Religion as a Chain of Memory Danièle Hervieu-Léger, 2000 **The Politics of Religious Literacy** Justine Ellis, 2022-11-07 Religious Literacy has become a popular concept for navigating religious diversity in public life Spanning classrooms to boardrooms The Politics of Religious Literacy challenges commonly held understandings of religious literacy as an inclusive framework for engaging with religion in modern multifaith democracies As the first book to rethink religious literacy from the perspective of affect theory and secularism studies this new approach calls for a constructive reconsideration focused on the often overlooked feelings and practices that inform our questionably secular age This study offers fresh insights into the changing dynamics of religion and secularism in the public sphere

Religion and Non-Religion among Australian Aboriginal Peoples James L. Cox, Adam Possamai, 2016-12-01 Offering a significant contribution to the emerging field of Non Religion Studies Religion and Non Religion among Australian Aboriginal Peoples draws on Australian 2011 Census statistics to ask whether the Indigenous Australian population like the wider Australian

society is becoming increasingly secularised or whether there are other explanations for the surprisingly high percentage of Aboriginal people in Australia who state that they have no religion Contributors from a range of disciplines consider three central questions How do Aboriginal Australians understand or interpret what Westerners have called religion Do Aboriginal Australians distinguish being religious from being non religious How have modernity and Christianity affected Indigenous understandings of religion These questions re focus Western dominated concerns with the decline or revival of religion by incorporating how Indigenous Australians have responded to modernity how modernity has affected Indigenous peoples religious behaviours and perceptions and how variations of response can be found in rural and urban contexts Religion as Orientation and Transformation Jan-Olav Henriksen, 2017-05-12 Religions are not primarily expressed in people's heads and their thoughts but in what they do People use religious symbols in order to orientate or change themselves In this way religion is related to all realms of human life Jan Olav Henriksen shows that only against this backdrop can we understand the role of religions in human life Book jacket *Ancestral Feeling* Renie Chow Choy, 2021-11-30 The language of heritage permeates Scripture encouraging Christians to approach church history like a family history But the notion of ancestry also constrains the world's Catholics and Protestants to trace their confessional descent from Europe rendering them perpetual latecomers in the historical chain *Ancestral Feeling* systematically diagnoses the postcolonial problems generated by an ancestral outlook But applying critical theories in cultural studies to the study of church history the book experiments with ways that the Western Christian inheritance can awaken the memory of one's own ancestors Writing a personal reflection on her family's history in British ruled Hong Kong Renie Chow Choy engages autobiographically with England's ecclesiastical art architecture music and literature in order to affirm her attachment to a heritage normally associated with English national identity For global and immigrant Christians brought into a relationship with English Christianity by colonialism but are bypassed by its history this book makes a bold declaration England's Christian heritage is also our story *Borders of Belief* Gregory J. Goalwin, 2022-07-15 Why have modern nationalists built religious identity as the foundational signifier of nationality in an increasingly secular world The cases of 20th century Ireland and Turkey reveal the answer religious nationalism is not a knee jerk reaction to secular modernization but a tool that forges new and independent national identities
