Religion In Politics Constitutional And Moral Perspectives

**Michael Corbett, Julia Corbett-
Hemeyer, J. Matthew Wilson**

Religion In Politics Constitutional And Moral Perspectives:

Religion in Politics Michael J. Perry, 1999-01-21 Most Americans are religious believers Among these there is disagreement about many fundamental religious moral matters Because the United States is both such a religious country and such a religiously pluralistic country the issue of the proper role of religion in politics is extremely important to political debate In Religion in Politics Michael Perry addresses a fundamental question what role may religious arguments play if any either in public debate about what political choices to make or as a basis of political choice He is principally concerned with political choices that ban or otherwise disfavor one or another sort of human conduct based on the view that the conduct is immoral He divides the controversy into two debates the constitutionally proper role of religious arguments in politics and a related but distinct debate about the morally proper role Perry concludes that political choices about the morality of human conduct should not be based on religion The newest work by one of the most important constitutional theorists writing today Religion in Politics is sure to spark a new debate on the subject

Christian Perspectives on Politics

J. Philip Wogaman, 2000-01-01 Minister Wogaman updates his comprehensive discussions on the meaning and importance of politics the history of Christian political thought and church state relations the legislation of social morality and criminal justice issues *The Oxford Handbook of Religion and American Politics* Corwin E. Smidt, Lyman A. Kellstedt, James L. Guth, 2017 Over the past three decades the study of religion and politics has gone from being ignored by the scholarly community to being a major focus of research Yet because this important research is not easily accessible to nonspecialists much of the analysis of religion's role in the political arena that we read in the media is greatly oversimplified This Handbook seeks to bridge that gap by examining the considerable research that has been conducted to this point and assessing what has been learned what remains unsettled due to conflicting research findings and what important questions remain largely unaddressed by current research endeavors The Handbook is unique to the field of religion and American politics and should be of wide interest to scholars students journalists and others interested in the American political scene

A Global Political Morality Michael J. Perry, 2017-04-03 In *A Global Political Morality* Michael J. Perry addresses several related questions in human rights theory political theory and constitutional theory He begins by explaining what the term human right means and then elaborates and defends the morality of human rights which is the first truly global morality in human history Perry also pursues the implications of the morality of human rights for democratic governance and for the proper role of courts especially the US Supreme Court in protecting constitutionally entrenched human rights The principal constitutional controversies discussed in the book are capital punishment race based affirmative action same sex marriage physician assisted suicide and abortion

The Political Morality of Liberal Democracy Michael J. Perry, 2010 This important new work elaborates and defends an account of the political morality of liberal democracy

The Oxford Handbook of Church and State in the United States Derek Davis, 2010-11-18 21 essays present a scholarly look at the intricacies and past and current

debates that frame the American system of church and state within 5 main areas history politics sociology theology philosophy and law **Ethnography and Law** Eve Darian-Smith,2017-11-30 Ethnographies of law are historically associated with anthropology and the study of far away places and people In contrast this volume underscores the importance of ethnographic research in analyzing law in all societies particularly complex developed nations By exploring recent ethnographic research by socio legal scholars across a range of disciplines the volume highlights how an ethnographic approach helps in appreciating the realities of legal pluralism the subtle contradictions in any legal system and how legal meaning is constantly reproduced on the ground through the cultural frames and practices of peoples everyday lives

Politics and Religion in the United States Michael Corbett,Julia Corbett-Hemeyer,J. Matthew Wilson,2014-04-11 There is a complex relationship between religiosity and secularism in the American experience America is notable both for its strict institutional separation of church and state and for the strong role that religion has played in its major social movements and ongoing political life This book seeks to illuminate for readers the dynamics underlying this seeming paradox and to examine how the various religious groups in America have approached and continue to approach the tensions between sacred and secular This much anticipated revision brings Corbett and Corbett s classic text fully up to date The second edition continues with a thorough discussion of historical origins of religion in political life constitutional matters public opinion and the most relevant groups all while taking theology seriously Revisions include fully updating all the public opinion data fuller incorporation of voting behavior among different religious and demographic groups enhanced discussion of minority religions such as Mormonism and Islam and new examples throughout Shaping Public Theology Max L. Stackhouse,2014-01-30 Max L Stackhouse is one of the most prolific and influential American theologians of the last half century and he has been widely recognized for his contributions to the emerging field of public theology This volume compiles some of Stackhouse s most significant shorter writings These selections make clear his central role in the development of public theology as a distinct disciplinary perspective in the fields of Christian theology and theological ethics Shaping Public Theology serves as an introduction to Stackhouse s extensive corpus readers will see the depth and breadth of his comprehensive public theology while also gaining insight into his singular importance for the field **Islam, Law and the Modern State** Arif A. Jamal,2018-03-14 Within the global phenomenon of the re emergence of religion into issues of public debate one of the most salient issues confronting contemporary Muslim societies is how to relate the legal and political heritage that developed in pre modern Islamic polities to the political order of the modern states in which Muslims now live This work seeks to develop a framework for addressing this issue The central argument is that liberal theory and in particular justice as discourse can be normatively useful in Muslim contexts for relating religion law and state Just as Muslim contexts have developed historically and continue to develop today the same is the case with the requisites of liberal theory and this may allow for liberal choices to be made in a manner that is not a renunciation of Muslim heritage
