Religion Politics And Historiography In Bulgaria:

Religion, Politics, and Historiography in Bulgaria Carsten Riis, 2002 The author shows how the dominant research paradigm in socialist Bulgaria with lines dating back to the nineteenth century interpreted and depicted the history of Christianity during the period of Ottoman Muslim domination The association of religious and national identity legitimated the religious and minority policy of the socialist regime The book demonstrates that political surveillance and control over historiography had direct consequences for the religious communities in Bulgaria Historical Dictionary of Bulgaria Raymond Detrez, 2014-12-18 Bulgaria is a country of extraordinary beauty with high wild mountains and gentle valleys and with picturesque cities and idyllic villages It s bordered by Romania Serbia Macedonia Greece Turkey and the Black Sea After many years of communist rule Bulgaria adopted a democratic constitution and began the process of moving toward political democracy and a market economy while combating inflation unemployment corruption and crime The country joined NATO in 2004 and the EU in 2007 This third edition of Historical Dictionary of Bulgaria covers its history through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 700 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about Bulgaria *Religion and Politics in Interwar Yugoslavia* Maria Falina, 2023-01-26 Religion and Politics in Interwar Yugoslavia explores the interaction between religion nationalism and political modernity in the first half of the 20th century taking the case of the Serbian Orthodox Church as an example This book historicizes the widely held assumption that the bond between religion and nationalism in the Balkans is a natural one or that this bond has been historically inevitable It tells a complex story of how East Orthodox Christianity came to be at the core of one version of Serbian nationalism by bringing together the themes of religion nationalism politics state building secularization and modernity Maria Falina reconstructs how the ideological fusion between Serbian nationalism and East Orthodox Christianity was forged The analysis emphasizes ideas and ideologies through a close reading of public discourses and historical narratives while paying attention to individual actors and their personal histories The book argues that the particular political vision of the Serbian Orthodox Church emerged in reaction to and in interaction with the challenges posed by political modernity that were not unique to Yugoslavia These included establishing the modern multinational and multi religious state the fear of secularization and the rise of communism and fascism Religion and Politics in Interwar Yugoslavia makes an important contribution to understanding the history of interwar Yugoslavia 20th century Europe and the ties between religion and nationalism **Religion and the State** Scott A. Conversion and Apostasy in the Late Ottoman Empire Selim Deringil, 2012-08-27 In the nineteenth century Ottoman Empire traditional religious structures crumbled as the empire itself began to fall apart The state's answer to schism was regulation and control administered in the form of a number of edicts in the early part of the century It is against this background that different religious communities and individuals negotiated survival by converting to

Islam when their political interests or their lives were at stake As the century progressed however conversion was no longer sufficient to guarantee citizenship and property rights as the state became increasingly paranoid about its apostates and what it perceived as their denationalization The book tells the story of the struggle between the Ottoman State the Great Powers and a multitude of evangelical organizations shedding light on current flash points in the Arab world and the Balkans offering alternative perspectives on national and religious identity and the interconnection between the two
