Religion, Society and the State in Arabia William Ochsenwald, 1984 **The Arabs of the Ottoman Empire, 1516-1918** Bruce Masters, 2013-04-29 This book discusses the role of Arabs in the Ottoman Empire for the four centuries that they were its subjects The conventional wisdom was that the Arabs were a subject people who resented or at best were indifferent to their Ottoman overlords This book argues that two social classes Sunni religious scholars and urban notables were willing collaborators in the imperial enterprise and without whose support the Ottoman Empire would not have ruled the Arab lands for as long as they did The Hajj Eric Tagliacozzo, Shawkat M. Toorawa, 2016 Scholars from a range of fields tell the story of the Hajj and explain its significance as one of the key events in the Muslim religious calendar This volume pays attention to the diverse aspects of the Hajj as lived every year by hundreds of millions of Muslims worldwide

Britain, the Hashemites and Arab Rule Timothy J. Paris, 2004-11-23 Timothy Paris examines Winston Churchill's involvement in the struggle for power in a number of Middle Eastern countries between 1920 and 1925 His study traces the development of the Sherifian policy a policy that was devised by the British **Routledge Handbook of Citizenship in the Middle East and North Africa** Roel Meijer, James N. Sater, Zahra R. Babar, 2020-11-23 This comprehensive Handbook gives an overview of the political social economic and legal dimensions of citizenship in the Middle East and North Africa from the nineteenth century to the present The terms citizen and citizenship are mostly used by researchers in an off hand self evident manner A citizen is assumed to have standard rights and duties that everyone enjoys However citizenship is a complex legal social economic cultural ethical and religious concept and practice Since the rise of the modern bureaucratic state in each country of the Middle East and North Africa citizenship has developed differently In addition rights are highly differentiated within one country ranging from privileged underprivileged and discriminated citizens to non citizens Through its dual nature as instrument of state control as well as a source of citizen rights and entitlements citizenship provides crucial insights into state citizen relations and the services the state provides as well as the way citizens respond to these actions This volume focuses on five themes that cover the crucial dimensions of citizenship in the region Historical trajectory of citizenship since the nineteenth century until independence Creation of citizenship from above by the state Different discourses of rights and forms of contestation developed by social movements and society Mechanisms of inclusion and exclusion Politics of citizenship nationality and migration Covering the main dimensions of citizenship this multidisciplinary book is a key resource for students and scholars interested in citizenship politics economics history migration and refugees in the Middle East and North Africa **Wahhabism and the Rise of the House of Saud** Dr. Tarik K. Firro, 2018-07-12 This book examines the role of Muhammad Ibn Abd al Wahhab 1703 1792 and his successors in reconsolidating the religious principles of Wahhabism It explains the role of the Saudi princes in crystallizing the core of the Saudi Wahhabi political entity within their tribal society Key to this explanation is the interrelation between sedentary and nomadic populations and the

consequent impact on the development of Saudi political entities prior to the emergence of the Saudi Kingdom Texts of Wahhabi scholars are compared with those of the early Hanbali scholars pinpointing the new religious elements introduced to foster the Wahhabi creed Discussion focuses on the first and second generations of Wahhabi scholars who maintained the Wahhabi creed with great success keeping its hegemony as the main doctrine in Saudi Arabia and developing a takfiri discourse accusing people of being infidels which by the nineteenth century had become the main religious and political weapon by which the Wahhabis mobilized supporters against their political and religious adversaries To better understand this development the meaning of kufr heresy in Islam and its implications in various Islamic doctrines is examined closely The focus on the role of Wahhabi scholars in the nineteenth century sheds new lights on the principles of continuity and discontinuity in the historical development of Saudi political entities and explains the origin of the modern Saudi State Although major socio economic and cultural change is now taking place under the leadership of Prince Muhammad ibn Salman the main religious structures of the state remain firmly in place It remains to be seen how two diametric societal viewpoints will integrate or clash This work is essential reading for all scholars and students of religious cultural social and political history of Saudi Arabia and Islam in the Middle East
