Religion And Reconciliation In South Africa Voices Of Religious Leaders:

Religion & Reconciliation in South Africa Audrey R. Chapman, Bernard Spong, 2003-04 Postapartheid South Africa's efforts to come to terms with its past particularly its Truth and Reconciliation Commission's emphasis on forgiveness and reconciliation is of special interest to many in the world community The Truth and Reconciliation Commission TRC led by Archbishop Desmond Tutu was mandated to go beyond truth finding and to promote national unity and reconciliation in a spirit of understanding which transcends the conflict and divisions of the past In contrast with other truth commissions the TRC was led by clerics rather than lawyers and judge and the TRC's approach to reconciliation was shaped by and imbued with religious content The TRC submitted its final report to the Mandela administration in October 1998 Over the next two years the Rev Bernard Spong former communications director of the South African Council of Churches conducted a series of in depth interviews about the TRC with thirty three key religious figures In this volume they discuss and evaluate the following issues How should we understand the concept of national or political reconciliation and its requirements What are the differences and similarities between religious and political approaches to reconciliation Does national or political reconciliation require forgiveness between former victims and perpetrators What is the appropriate role of religious representatives in a truth commission process And is it recommended that other countries emulate the South African model How do religious leaders assess the contributions and limitations of the TRC What kind of initiatives are contemporary religious communities taking to promote reconciliation among their members and in the wider society The conversations presented in this volume and the essays interpreting them seek to illuminate issues and questions raised by the TRC model including how to conceptualize reconciliation and the differences between political and religious approaches *The Oxford Handbook of Religion, Conflict, and Peacebuilding* Atalia Omer, R. Scott Appleby, David Little, 2015-01-28 This volume provides a comprehensive and interdisciplinary account of the scholarship on religion conflict and peacebuilding Looking far beyond the traditional parameters of the field the contributors engage deeply with the legacies of colonialism missionary activism secularism orientalism and liberalism as they relate to the discussion of religion violence and nonviolent transformation and resistance Featuring numerous case studies from various contexts and traditions the volume is organized thematically into five different parts It begins with an up to date mapping of scholarship on religion and violence and religion and peace The second part explores the challenges related to developing secularist theories on peace and nationalism broadening the discussion of violence to include an analysis of cultural and structural forms In the third section the chapters explore controversial topics such as religion and development religious militancy and the freedom of religion as a keystone of peacebuilding The fourth part locates notions of peacebuilding in spiritual practice by focusing on constructive resources within various traditions the transformative role of rituals youth and interfaith activism in American university campuses religion and solidarity activism scriptural reasoning as a peacebuilding practice and an extended reflection on the history and

legacy of missionary peacebuilding The volume concludes by looking to the future of peacebuilding scholarship and the possibilities for new growth and progress Bringing together a diverse array of scholars this innovative handbook grapples with the tension between theory and practice cultural theory and the legacy of the liberal peace paradigm offering provocative elastic and context specific insights for strategic peacebuilding processes *Religion and Conflict Resolution* Megan Shore, 2016-04-08 This book examines the ambiguous role that Christianity played in South Africa's Truth and Reconciliation Commission TRC It has two objectives to analyse the role Christianity played in the TRC and to highlight certain consequences that may be instructive to future international conflict resolution processes Religion and conflict resolution is an area of significant importance Ongoing conflicts involving Palestinians and Israelis Muslims and Hindus and even radical Islamic jihadists and Western countries have heightened the awareness of the potential power of religion to fuel conflict Yet these religious traditions also promote peace and respect for others as key components in doing justice Examining the potential role religion can play in generating peace and justice specifically Christianity in South Africa's TRC is of utmost importance as religiously inspired violence continues to occur This book highlights the importance of accounting for religion in international conflict resolution *The Ashgate Research Companion to Religion and Conflict Resolution* Lee Marsden, 2016-03-23 A comprehensive overview of the latest research in religion and conflict resolution this collection of twenty three essays brings together leading scholars in the field examining the contribution religious actors have made and are making towards peace and resolving The Ashgate Research Companion to Religion and Conflict Resolution is primarily aimed at readerships with special interest in conflict resolution international security and religion and international relations and will also serve as a valuable resource for policy makers and conflict resolution practitioners The collection comprises five thematic sections each with chapters on vital and mainly contemporary topics in the field of religion and conflict resolution The principal themes include *The Church Struggle in South Africa* John W. De Gruchy, 2005 No more heartrending yet hopeful case study in Christian ethics exists than in the story of South African apartheid and its recent decisive transformation John de Gruchy's authoritative and newly updated account of Christian complicity with and then resistance to one of the world's most notoriously repressive regimes holds indispensable lessons and dangerous memories for all concerned about evil justice and racial reconciliation *Religion, Tradition, and Restorative Justice in Sierra Leone* Lyn S. Graybill, 2017-06-15 In this groundbreaking study of post conflict Sierra Leone Lyn Graybill examines the ways in which both religion and local tradition supported restorative justice initiatives such as the national Truth and Reconciliation Commission TRC and village level Fambul Tok ceremonies Through her interviews with Christian and Muslim leaders of the Inter Religious Council Graybill uncovers a rich trove of perspectives about the meaning of reconciliation the role of acknowledgment and the significance of forgiveness Through an abundance of polling data and her review of traditional practices among the various ethnic groups Graybill also shows that these perspectives of religious leaders did not at all

conflict with the opinions of the local population whose preferences for restorative justice over retributive justice were compatible with traditional values that prioritized reconciliation over punishment. These local sentiments however were at odds with the international community's preference for retributive justice as embodied in the Special Court for Sierra Leone which ran concurrently with the TRC. Graybill warns that with the dominance of the International Criminal Court in Africa there are currently eighteen pending cases in eight countries local preferences may continue to be sidelined in favor of prosecutions. She argues that the international community is risking the loss of its most valuable assets in post conflict peacebuilding by pushing aside religious and traditional values of reconciliation in favor of Western legal norms. **Religion**

as Empowerment Kyriaki Topidi, Lauren Fielder, 2016-06-10 This volume shows how and why legal empowerment is important for those exercising their religious rights under various jurisdictions in conditions of legal pluralism. At the same time it also questions the thesis that as societies become more modern they also become less religious. The authors look beyond the rule of law orthodoxy in their consideration of the freedom of religion as a human right and place this discussion in a more plurality sensitive context. The book sheds more light on the informal and or customary mechanisms that explain the limited impact of law on individuals and groups especially in non Western societies. The focus is on discussing how religion and the exercise of religious rights may or may not empower individuals and social groups and improve access to human rights in general. This book is important reading for academics and practitioners of law and religion, religious rights, religious diversity and cultural difference as well as NGOs, policy makers, lawyers and advocates at multicultural jurisdictions. It offers a contemporary take on comparative legal studies with a distinct focus on religion as an identity marker. **Religion and Security in South and Central Asia** K. Warikoo, 2010-11 This book provides local perspectives on religion, security, history, geopolitics and geostrategy in South Asia and Central Asia in an integrated manner. Presenting a holistic and updated view of the developments inside and across South and Central Asia it offers coherent and concise analyses by experts on the region.

Religious Imaginations James Walters, 2018-12-15 Market, globalization, technology, climate change and postcolonial political forces are together forging a new, more modern world. However caught up in the mix are some powerful religious narratives that are galvanizing peoples and reimagining and sometimes stifling the political and social order. Some are repressive fundamentalist imaginations such as the so called Islamic Caliphate. Others could be described as post religious such as the evolution of universal human rights out of the European Christian tradition. But the question of the compatibility of these religious worldviews particularly those that have emerged out of the Abrahamic faith traditions is perhaps the most pressing issue in global stability today. What scope for dialogue is there between the Jewish, Muslim and Christian ways of imagining the future? How can we engage with these multiple imaginations to create a shared and peaceful global society? **Religious Imaginations** is an interdisciplinary volume of both new and well known scholars exploring how religious narratives interact with the contemporary geopolitical climate. **Picking Up the Pieces** Samuel Cyuma, 2012-05-22 In the last ten

years of the 20th century the world was twice confronted with unbelievable news from Africa First there was the end of Apartheid in South Africa Who would have thought that such a change would be possible without bloodshed But the miracle happened due to responsible political and Church leaders and as a result of the unique processes organized through the Truth and Reconciliation Commission under the leadership of Archbishop Desmond Tutu The second unbelievable experience from Africa was of a rather different and awfully shocking nature the mass killings in Rwanda This event soon developed into a real genocide and created a wave of horror around the world There political and Church leaders had been unable to prevent this crime against humanity
