and accessible analyses of the complex forms of androcentrism and patriarchy in five of the world's major religions: Hinduism, Buddhism, Judaism, Christianity, and Islam. With a unique comparative thematic methodology, this student-friendly textbook bridges the gap between Religious Studies and courses in Gender and Sexuality Studies, Feminist Studies, Religion and Society, and more. Following a brief introduction to each religious system covered, *Sexism in Major Religions* defines important terms and concepts in modern religious feminism, including sex and gender, androcentrism, and patriarchy, and revolutionary and reform feminisms. Each remaining chapter focuses on one of seven themes representing the main sources and manifestations of religious discrimination against women, such as the gender of the deity, the duties of the mother, and the status of the wife within marriage. Throughout the text, author Paul Gwynne discusses the formal, gender-biased teachings and practices, distinctive features, intersecting areas, and core arguments of conservative defenders and feminist critics of each religion. Provides students with deep comparative insight into the similarities and differences between major religions on issues of gender equality. Offers a fresh and original approach to exploring the forms of sexism across seven distinct themes. An extensive overview of feminism in relation to the women's movement, women's studies, sociology, and American religion introduces the literature and provides a historical context for the nearly one thousand entries that follow.
