Religion In Focus Christianity:

Religions in Focus Graham Harvey, 2016-04-08 Religions in Focus engages with the religious lives of members of some of the most significant religions today It presents religions as contemporary ways of life that motivate and inspire people Because religious people refer to sacred texts honour the founders of their religions learn from elders or mould their lives according to authoritative teachings Religions in Focus explains the relationship between tradition and contemporary practice It offers an introduction to religions that is rooted in the best scholarship of the Study of Religions and provides a secure foundation for further study A team of Religious Studies scholars from many countries all skilled communicators about the contemporary religions with which they are thoroughly familiar introduce what it means to live as a religious person today They insist that however old or young these religions may be what is most interesting is the ways in which people express them today This is not a history of religions but an insightful introduction to living religions A guide to further study and a companion website will point to ways of building on knowledge gained in studying this book and applying skills developed in studying people s religious lives Faith in Focus J. Edward Barrett, 1981-08-26 Sharpening the Focus of the Church Gene A. Getz, 2012-04-16 IT S ALL HEREThe purpose of the church The growth of the church through proper edification New Testament principles of administration and organization Communication of the principle of New Testament evangelism The effects of the church on the world The effects of the world on the church How culture affects the church How the church should affect culture How to formulate objectives goals and standards in order to be a true New Testament church **Christian Faith in Focus** Gordon J. Spykman, 1967 **Focus on Christ** John Stott, 2019-06-30 It pleases the Father Son and Spirit that the Son Jesus Christ be the centre of our worship have the name above all names and be first above all things Everyone has a relationship with him whether bearing his image but being estranged from him or knowing Christ as Lord and Saviour In this book John Stott draws our attention to how the New Testament speaks of Jesus Christ He examines the prepositions used to help us understand more deeply our position in relation to the Son of God We are to live in Christ through Christ on Christ with Christ under Christ for Christ and like Christ and this book will help you become truly Christ centred Christianity Charles E. Farhadian, 2020-12-22 An expert on world religions provides a compelling look into the shape and movement of Christianity s past present and future Charles Farhadian accounts for the cultural social and theological issues that have shaped Christianity worldwide as he describes the distinctives of the world s largest religion Addressing the global nature of Christianity without focusing exclusively on that topic this supplementary text could serve in a variety of courses across the curriculum and is written to be useable in either Christian or secular settings *Christianity as Distinct Practices* Jan-Olav Henriksen, 2019-01-10 Jan Olav Henriksen reconstructs and analyzes Christianity as a cluster of practices that manifest a distinct historically and contextually shaped mode of being in the world Henriksen suggests that these practices imply a complicated relationship between the tradition in which they originate the community that emerges

from and is constituted by that tradition and the individuals who appropriate the tradition that these communities mediate through their practices. Thus to think of Christianity simply in terms of belief is misleading and represents an underdetermination of its distinct character. Henriksen further argues this relationship needs to be described primarily as practices aimed at orientation and transformation. His analysis points to Christianity's similarity to other religions in regard to the functional or pragmatic dimensions it displays. Examining facets such as prayer, the use of scripture, preaching and doctrine, Henriksen emphasizes that the element that makes a practice distinctively Christian is how it relates to and is informed by the Jesus story.

Christianity John Chathanatt, 2024-01-08. Published in the Series Encyclopedia of Indian Religions, this volume is devoted to Christianity in India where it has had a long presence going back to the time of the apostles of Jesus Christ. It focuses on the history, origin, organizations and local engagements, belief system, worship practices, Rites, Rituals, Christian life, Contributions, Spirituality and a few of the main doctrinal and theological items. It further examines the earlier phase of the history of Christianity starting with the traditional belief of the arrival of St Thomas in AD 52, moving to the periods of its association with the Chaldean church, the Portuguese, the Dutch, English and so on. This volume highlights the missionary activities of persons like St Francis Xavier, the creative contributions made to the inter religious dialogue by such people as Roberto de Nobili 1577-1656 and Swami Abhishiktananda 1910-1973, the linguistic and educational contributions of some of the pioneers like the German Jesuit Johanne Ernst Hanxleden known as Arnos Padiri 1681-1732, Herman Gundert 1814-1893, St Elias Kuriakos Chavara 1805-1871 and a fortiori the enormous contributions in the healthcare area throughout the country. Caring for and serving the socio economically marginalized ones, the peripheralized people formed an integral part of the Christian activity in India as it is done even today. This is highlighted very much in the volume. It further explores the contact India had with European Christianity showing that European Christianity proved to have wider influence in the Northern part of India unlike India's early episodic encounters with Palestinian and Persian forms of Christianity which had deep influence in the Southern part of India. The volume also highlights the inner struggle among the followers resulting even in its division originating at the Synod of Diamper in 1599, manifesting by and large the Church state love and hate relationships. In fine, in spite of the drawbacks of putting the Herculean task of two thousand years of history in eight hundred pages or so, this volume gives a rather comprehensive view of Christianity in India especially to those who are unfamiliar with its life and dynamics in the Indian context. The wide range of photographs, 325 of them especially of the churches, revealing the architectural beauty and multiplicity along with the ensemble of art and paintings and pilgrimage centers adds to the enrichment of the volume.

Religion and Conflict Attribution Francis-Vincent Anthony, Chris Hermans, Carl J.A. Sterkens, 2014-10-30. Religion can play a dual role with regard to conflict. It can promote either violence or peace. Religion and Conflict Attribution seeks to clarify the causes of religious conflict as perceived by Christian, Muslim and Hindu college students in Tamil Nadu, India. These students in varying degrees attribute conflict to force driven causes.

namely to coercive power as a means of achieving the economic political or socio cultural goals of religious groups The study reveals how force driven religious conflict is influenced by prescriptive beliefs like religious practice and mystical experience and descriptive beliefs such as the interpretation of religious plurality and religiocentrism It also elaborates on the practical consequences of the salient findings for the educational process

Christianity and Other Religions John Hick, Brian Hebblethwaite, 2014-10-01 Edited by two of the most prominent names in interfaith dialogue this is an introduction to the complex relationships between Christianity and the other world faiths Featuring essays from some of the key thinkers in the Christian faith It covers both Catholic and Protestant approaches and features all the rival points of view including the uncompromising absolutism of Karl Barth and Pope John Paul II the more ecumenical approaches of Karl Rahner and Hans Kung and the religious pluralism of Wilfred Cantwell Smith and John Hick among others
