Religion Political Modernization:

Religion and Political Modernization Donald E. P. Smith, 1974 **Religious Resurgence and Politics in the Contemporary World** Emile F. Sahliyah, 1990-01-01 This book examines the highly politicized religious groups and movements that have surfaced since the late 1970s in the United States Central America South Africa the Philippines India and the Middle East Sahliyah and others analyze this trend toward the politicization of religious conservatism and question a number of assumptions central to concepts of modernization For example it has been assumed by development theorists that the interrelated components of modernization would enhance the trend toward secularization of societies This book shows that in many societies today religious revivalism and fundamentalism seem to be direct products of modernization A global comparative approach is utilized to formulate general explanations for religious revivalism and its implications for modernization development and politics Religion and Political Modernization Donald Eugene Smith, 1974 **Islam and Political Development in Turkey** Toprak, 2022-04-19 Religion and Politics in the Middle East Robert D. Lee, 2018-04-19 This innovative book analyses the relationship between religion and politics in the Middle East through a comparative study of five countries Egypt Israel Turkey Iran and Saudi Arabia Robert D Lee examines each country in terms of four domains in which state and religion necessarily interact national identity ideology institutions and political culture In each domain he considers contradictory hypotheses some of them asserting that religion is a positive force for political development and others identifying it as an obstacle Among the questions the book confronts Is secularization a necessary prerequisite for democratic development How is it and why is it that religion and politics are so deeply entangled in these five countries And why is it that all five countries differ so markedly in the way they identify themselves and use religion for political purposes The book argues that the nature of religious organization and practice in the Middle East must be understood in the context of individual nation states The second edition is updated throughout and includes an entirely new chapter discussing the political and religious climate in Saudi Arabia Earlier introductory analysis has been condensed to make room for new material and chronologies at the end of each chapter have been added to help students understand the broader context The second edition of Religion and Politics in the Middle East is a robust addition to courses on the Middle East Political Modernization in the Gulf Shahid Jamal Ansari, 1998 The entire Gulf is passing through a transitional phase The member states of the Gulf Cooperation Council GCC are witnessing change in varying degrees The change has become too evident from the 1960s It was oil more than any other factor which was responsible for a rapid transition Control over oil production and marketing have led to the strengthening of governmental role as owner and distributor of oil income The regions tribal society is being transformed into a modern society Political modernization is a recent phenomenon if the nature and extent of structural and informal transformations are taken into account Three broadly defined phases of political change can be discerned in the Arabian Peninsula the traditional the neo traditional and the modernizing or post traditional The

modernizing phase was initiated by radical policies of socio economic development including the necessary restructuring of replacement of regimes and a redefinition or expansion of the scope and role of the state However the pace and direction of change is not clear enough The coming few decades are crucial in this regard

Women and Development Prof. Jamal Sanad Al-Suwaidi, 2020-01-01 His Excellency Prof Jamal Sanad Al Suwaidi Director General of the Emirates Center for Strategic Studies and Research has published a new book titled Women and Development which addresses over four chapters major issues relevant to Arab Islamic thought regarding women and their role in development His Excellency believes that women s problems are in fact society s problems and these problems will not be solved without the involvement of government and private organizations and society as a whole Improving the status of women and promoting their participation in development is the concern of the entire country The author puts forth arguments proving the unsustainable rhetoric voiced by regressive political Islam which sought through selective interpretation of Islamic texts to impose restrictions on the freedom of women and their participation in the development process The author also provides practical responses to urgent questions regarding the status of women in Islam such as their access to education and presence in labor markets in relation to men In this regard the author refers to statistics and survey data as well as analytical readings of the circumstances involving women s rights in GCC countries In the last chapter the author explores the status of women in the United Arab Emirates as they set a role model for Gulf and Arab women This model was shaped by the late Sheikh Zayed bin Sultan Al Nahyan may God rest his soul in peace through his open and insightful thought and implemented through effective policies and programs

Religions and Missionaries around the Pacific, 1500-1900 Tanya Storch, 2017-05-15 This volume takes an interdisciplinary approach to the study of religious cultural exchanges around the Pacific in the period 1500 1900 relating these to economic and political developments and to the expansion of communication across the area It brings together twenty two pieces from diaries of religious exiles and missionary field observations to studies from a variety of academic disciplines so enabling a multitude of voices to be heard The articles are grouped in sections dealing with the Islamic period the Iberian Catholic period the Jewish diaspora the Russian Orthodox church the epoch of Protestant culture and finally Asian immigrant religions in the West a substantial introduction contextualizes these chapters in terms of both historical and contemporary approaches

Islam, Secularism, and Liberal Democracy Nader Hashemi, 2009-04-08 Islam s relationship to liberal democratic politics has emerged as one of the most pressing and contentious issues in international affairs In Islam Secularism and Liberal Democracy Nader Hashemi challenges the widely held belief among social scientists that religious politics and liberal democratic development are structurally incompatible This book argues for a rethinking of democratic theory so that it incorporates the variable of religion in the development of liberal democracy In the process it proves that an indigenous theory of Muslim secularism is not only possible but is a necessary requirement for the advancement of liberal democracy in Muslim societies

The Ashgate Research Companion to Modern Theory, Modern

Power, World Politics Nevzat Soguk, Scott G Nelson, 2016-04-28 Deliberately eschewing disciplinary and temporal boundaries this volume makes a major contribution to the de traditionalization of political thinking within the discourses of international relations Collecting the works of twenty five theorists this Ashgate Research Companion engages some of the most pressing aspects of political thinking in world politics today The authors explore theoretical constitutions critiques and affirmations of uniquely modern forms of power past and present Among the themes and dynamics examined are textual appropriation and representation materiality and capital formation geopolitical dimensions of ecological crises connections between representations of violence and securitization subjectivity and genderization counter globalization politics constructivism biopolitics post colonial politics and theory as well as the political prospects of emerging civic and cosmopolitan orders in a time of national religious and secular polarization Radically different in their approaches the authors critically assess the discourses of IR as interpretive frames that are indebted to the historical formation of concepts and to particular negotiations of power that inform the main methodological practices usually granted primacy in the field Students as well as seasoned scholars seeking to challenge accepted theoretical frameworks will find in these chapters fresh insights into contemporary world political problems and new resources for their critical interrogation
