a deeper engagement with Ricoeur's philosophical interpretation of religion The Community of Religions Wayne Teasdale, George Cairns, 2016-10-06 The papers in this volume form a record of the 1993 Parliament of the World's Religions which was one of the largest interfaith gatherings ever held Representatives from minority ethnic and tribal religions took the podium as equals alongside representatives from the world's largest religious traditions This volume contains major addresses and reflections of this parliament set in context by an introduction and conclusion by the editors *The Illustrated Guide to World Religions* Michael David Coogan, 1998 Graced with rich illustrations and written by a team of eminent scholars this book presents a wealth of information on faiths around the world Each chapter in this volume examines one of seven major world religions from Judaism to Christianity and from Islam to Buddhism **Text and Artifact in the Religions of Mediterranean Antiquity** Stephen G. Wilson, Michel Desjardins, 2006-01-01 Can archaeological remains be made to speak when brought into conjunction with texts Can written remains on stone or papyrus shed light on the parables of Jesus or on the Jewish view of afterlife What are the limits to the use of artifactual data and when is the value overstated Text and Artifact addresses the complex and intriguing issue of how primary religious texts from the ancient Mediterranean world are illuminated by and in turn illuminate the ever increasing amount of artifactual evidence available from the surrounding world The book honours Peter Richardson and the first two chapters offer appreciations of this scholarship and teaching The remaining chapters focus on early Christianity late antique Judaism and topics germane to the Roman world at large Many of the essays relate to features of Jewish life the epigraphic evidence for gentile converts to Judaism or for Jewish defectors ancient accounts of the Essenes or of the siege of Masada and the material context of the first great rabbinic work the Mishnah Other essays connect early Christian texts with the social and cultural realia of their day modes of travel notions of gender patronage and benefaction the relation of tenants and owners or reflect on the aesthetics of Christian architecture and the relation between building and ritual in Constantinian churches One study relates the writing of the famous novelist Apuleius to a household mithraeum in Ostia while another explores the changing appropriation of religious realia as the Roman world became Christian These wide ranging and original studies demonstrate clearly that texts and artifacts can be mutually supportive Equally they point to ways in which artifacts no less than texts are inherently ambiguous and teach us to be cautious in our conclusions *Religion, Myth and Folklore in the World's Epics* Lauri Honko, 2011-08-02 The series Religion and Society RS contributes to the exploration of religions as social systems both in Western and non Western societies in particular it examines religions in their differentiation from and intersection with other cultural systems such as art economy law and politics Due attention is given to paradigmatic case or comparative studies that exhibit a clear theoretical orientation with the empirical and historical data of religion and such aspects of religion as ritual the religious imagination constructions of tradition iconography or media In addition the formation of religious communities their construction of identity and their relation to society and the wider public are key issues of this series **Hittite Texts and**

Greek Religion Ian Rutherford, 2020-09-23 Our knowledge of ancient Greece has been transformed in the last century by an increased understanding of the cultures of the Ancient Near East This is particularly true of ancient religion This book looks at the relationship between the religious systems of Ancient Greece and the Hittites who controlled Turkey in the Late Bronze Age 1400 1200 BC The cuneiform texts preserved in the Hittite archives provide a particularly rich source for religious practice detailing festivals purification rituals oracle consultations prayers and myths of the Hittite state as well as documenting the religious practice of neighbouring Anatolian states in which the Hittites took an interest Hittite religion is thus more comprehensively documented than any other ancient religious tradition in the Near East even Egypt The Hittites are also known to have been in contact with Mycenaean Greece known to them as Ahhiyawa The book first sets out the evidence and provides a methodological paradigm for using comparative data It then explores cases where there may have been contact or influence such as in the case of scapegoat rituals or the Kumarbi Cycle Finally it considers key aspects of religious practices shared by both systems such as the pantheon rituals of war festivals and animal sacrifice The aim of such a comparison is to discover clues that may further our understanding of the deep history of religious practices and when used in conjunction with historical data illuminate the differences between cultures and reveal what is distinctive about each of them

Migrating Texts and Traditions William Sweet, 2012-12-15 There can be little dispute that culture influences philosophy we see this in the way that classical Greek culture influenced Greek philosophy that Christianity influenced mediaeval western philosophy that French culture influenced a range of philosophies in France from Cartesianism to post modernism and so on Yet many philosophical texts and traditions have also been introduced into very different cultures and philosophical traditions than their cultures of origin through war and colonialization but also through religion and art and through commercial relations and globalization And this raises questions such as What is it to do French philosophy in Africa or Analytic philosophy in India or Buddhist philosophy in North America This volume examines the phenomenon of the migration of philosophical texts and traditions into other cultures identifies places where it may have succeeded but also where it has not and discusses what is presupposed in introducing a text or a tradition into another intellectual culture
