Religious Dimension In Hegels Thought:

The Religious Dimension in Hegel's Thought Emil L. Fackenheim, 1970 *Hegel and Christian Theology* Peter Crafts Hodgson, 2005 Aimed at theologians philosophers of religion scholars and students Peter Hodgson provides a study of Hegel and of 19th century religious thought **Hegel's Interpretation of the Religions of the World** Jon Stewart, 2018-09-05 In his *Lectures on the Philosophy of Religion* Hegel treats the religions of the world under the rubric the determinate religion This is a part of his corpus that has traditionally been neglected since scholars have struggled to understand what philosophical work it is supposed to do In Hegel's *Interpretation of the Religions of the World* Jon Stewart argues that Hegel's rich analyses of Buddhism Hinduism Zoroastrianism Judaism Egyptian and Greek polytheism and the Roman religion are not simply irrelevant historical material as is often thought Instead they play a central role in Hegel's argument for what he regards as the truth of Christianity Hegel believes that the different conceptions of the gods in the world religions are reflections of individual peoples at specific periods in history These conceptions might at first glance appear random and chaotic but there is Hegel claims a discernible logic in them Simultaneously a theory of mythology history and philosophical anthropology Hegel's account of the world religions goes far beyond the field of philosophy of religion The controversial issues surrounding his treatment of the non European religions are still very much with us today and make his account of religion an issue of continued topicality in the academic landscape of the twenty first century *Hegel and Christian Theology : A Reading of the Lectures on the Philosophy of Religion* Peter C. Hodgson, 2005-03-03 Peter C Hodgson engages the speculative reconstruction of Christian theology that is accomplished by Hegel's *Lectures on the Philosophy of Religion* and provides a close reading of the critical edition of the lectures He analyses Hegel's concept of the object and purpose of the philosophy of religion his critique of the theology of his time his approach to Christianity within the framework of the concept of religion his concept of God his reconstruction of central Christian themes and his placing of Christianity among the religions of the world Hodgson makes a case for the contemporary theological significance of Hegel by identifying currently contested sites of interpretation and their Hegelian resolution **Religion, Modernity, and Politics in Hegel** Thomas A. Lewis, 2011-07-28 This study analyzes Hegel's philosophy of religion in relation to ongoing debates about the relation between religion and politics as well as the history of their conceptualization in the modern West Lewis argues that recent non traditional more Kantian interpretations of Hegel's project open up a new understanding of his treatment of religion *The Subject of Modernity* Anthony J. Cascardi, 1992-03-19 The question of modernity has provoked a vigorous debate in the work of thinkers from Hegel to Habermas Anthony J Cascardi offers an historical account of the origins and transformations of the rational subject of self as it is represented in Descartes Cervantes Pascal Hobbes and the Don Juan myth *Hans Lassen Martensen* Jon Stewart, 2012-02-17 Although he has long been known primarily as the object of S ren Kierkegaard's disdain Hans Lassen Martensen 1808-84 was a celebrated figure in his own time Recognized as a brilliant

scholar and highly successful churchman Martensen worked in a number of different areas of theology and philosophy producing an impressive literary corpus over a period of several decades His authorship is remarkably varied including philosophical treatises theological tracts sermons eulogies book and theater reviews as well as polemical and occasional pieces During his lifetime he saw his works translated into German Swedish English French Hungarian and Dutch These works were widely read and frequently reprinted in numerous editions throughout the second half of the century It is unfortunate that to international research he was known for many years only as a central figure in Kierkegaard's attack on the Danish State Church In the past few decades there has however been a renewed appreciation for Martensen as an important thinker in his own right The present anthology attempts to bring together the works of the leading Danish and international scholars responsible for this recent surge of interest In order to capture the different aspects of Martensen's thought the volume has been organized into three main rubrics I Theology II Philosophy and III Politics and Social Theory Collectively the articles featured here treat Martensen's main works from his dissertation *On the Autonomy of Human Self Consciousness* in 1837 to his monumental three volume *Christian Ethics* from the 1870s The authors demonstrate that the problems critically addressed by Martensen in the Danish Golden Age are still very much with us today in the twenty first century Jon Stewart is Associate Research Professor at the Søren Kierkegaard Research Centre at the University of Copenhagen

The Legacy of Hegel J.J. O'Malley, K.W. Algozin, H.P. Kainz, L.C. Rice, 2012-12-06 The present volume represents the proceedings of the Marquette Hegel Symposium held at Marquette University Milwaukee Wisconsin on June 25 1970 The Symposium celebrating the two hundredth anniversary of Hegel's birth was presented under the combined sponsorship of the Philosophy Department of Marquette University the American Council of Learned Societies and the Johnson Foundation of Racine Wisconsin Its general theme embraced not only specific topics of interest in contemporary Hegel studies but also the wider aspects of the influences and impact of Hegel's thought upon contemporary philosophical political and social problems Principal contributors and panelists were selected for their scholarly achievements in Hegel studies and also in keeping with the broad view of the Hegelian legacy in current thought All sessions of the Symposium were plenary and designed for maximum discussion and interchange among participants The Symposium Committee regrets that it has not been feasible to incorporate the transcript of the discussions except for the round table discussion on editing and translating Hegel into this volume The papers presented in each day's sessions are published here with editorial changes and corrections made by their respective authors The papers by Professors Otto Poggeler and Eric Weil were originally translated by members of our Committee the present versions incorporate many changes and corrections made by their authors The comments on each paper were brought into their present form only after the Symposium and in the light of the discussions which took place during it
