Faith and the Presidency From George Washington to George W. Bush Gary Scott Smith, 2006-10-12 Publisher description **Peace, Politics, and Religion** Jeffrey Haynes, 2020-12-14 Relationships between peace politics and religion are often controversial and sometimes problematic Religion is a core source of identity for billions of people around the world and it is hardly surprising that sometimes it becomes involved in conflicts At the same time we can see religion involved not only in conflict It is also central to conflict resolution peace making and peacebuilding Religious involvement is often necessary to try to end hatred and differences frequently central to political conflicts especially but not only in the Global South Evidence shows that religious leaders and faith based organisations can play constructive roles in helping to end violence and in some cases build peace via early warnings of conflict good offices once conflict has erupted as well as advocacy mediation and reconciliation The chapters of this book highlight that religion can encourage both conflict and peace through the activities of people individually and collectively imbued with religious ideas and ideals **Social Justice Goes To Church: The New Left in Modern American Evangelicalism** Jon Harris, 2020-10-06 The infusion of social justice into the gospel may well be the most dangerous problem facing the church today Yet it is going unnoticed in far too many circles Social Justice Goes to Church can serve as a wake up call Samuel C Smith Ph D Chair and Graduate Program Director Department of History Liberty University In order to understand why so many evangelicals recently support left leaning political causes it is important to know a little history In the 1970s many campus radicals raised in Christian homes brought neo Marxist ideas from college back to church with them At first figures like Jim Wallis Ron Sider and Richard Mouw made great gains for their progressive evangelical cause But after the defeat of Jimmy Carter the religious right stole the headlines Today a new crop of mainstream evangelicals has taken up the cause of the New Left whether they know it or not As pro life evangelicals rush to support movements like BlackLivesMatter and MeToo it is important to realize they are walking in footprints already laid down Their mission may be more successful but it is not new To understand where the evangelical social justice movement is heading it is vital to understand the origins of the movement Social Justice Goes to Church The New Left in Modern American Evangelicalism answers from a historical perspective the vital question Why are American evangelicals moving Left The great injunction to the Church was to preach the Gospel to the world while not being of the world Social justice neatly reverses this trend preaching the ways of the world into the church That is not its only critical reversal The Gospel is about freedom from guilt and sin and bondage Social justice seeks above all to apportion guilt and sin and bondage enslaving entire demographics and requiring that they kneel before man in attrition How important that a book of this nature should enter the fray right now I applaud Mr Harris for his excellent work in providing the practical means of identifying and repelling this fraudulent force this ideological interloper this dangerous false teaching Douglas Kruger Author of Political Correctness Does More Harm Than Good How to Identify Debunk and Dismantle Dangerous Ideas *The Role of Religion and Ethnicity in Contemporary Conflict* Basil Ugorji, René Lemarchand, Ph.D., Jamie L. The SAGE Handbook of Conflict Resolution Jacob Bercovitch, Victor

Kremenyuk, I William Zartman, 2008-12-03 The SAGE Handbook of Conflict Resolution demonstrates the range of themes that constitute modern conflict resolution. It brings out its key issues, methods, and dilemmas through original contributions by leading scholars in a dynamic and expanding field of inquiry. This handbook is exactly what it sets out to be: an indispensable tool for teaching, research, and practice in conflict resolution. Peter Wallensteen, Professor of Peace and Conflict Research, Uppsala University, and University of Notre Dame; Bercovitch, Kremenyuk, and Zartman are among the most important figures in the conflict resolution field. They have pieced together, with the help of more than 35 colleagues from numerous countries, a state-of-the-art review of the sources of international conflict, available methods of conflict management, and the most difficult challenges facing the individuals and organizations trying to guide us through these conflict-ridden times. The collection is brimming with penetrating insights, trenchant analyses, compelling cases, and disciplined speculation. They help us understand both the promise of as well as the obstacles to theory building in the new field of conflict resolution. Lawrence Susskind, Professor and Director of the MIT Harvard Public Disputes Program. The last three sentences of this persuasive book: We conclude this volume more than ever convinced that conflict resolution is not just possible or desirable in the current international environment. It is absolutely necessary. Resolving conflicts and making peace is no longer an option; it is an intellectual and practical skill that we must all possess. If you are part of that, we intellectually or professionally, you will find this book a superb companion. Thomas C. Schelling, Professor Emeritus, Harvard University, and University of Maryland. Conflict resolution is one of the fastest growing academic fields in the world today. Although it is a relatively young discipline, having emerged as a specialized field in the 1950s, it has rapidly grown into a self-contained, vibrant interdisciplinary field. The SAGE Handbook of Conflict Resolution brings together all the conceptual, methodological, and substantive elements of conflict resolution into one volume of over 35 specially commissioned chapters. The Handbook is designed to reflect where the field is today by drawing on the contributions of experts from different fields, presenting in a systematic way the most recent research and practice. Jacob Bercovitch is Professor of International Relations and Fellow of the Royal Society at the University of Canterbury in Christchurch, New Zealand. Victor Kremenyuk is deputy director of the Institute for USA and Canada Studies, Russian Academy of Sciences, Moscow. He is also a research associate at IIASA. I William Zartman is Jacob Blaustein Professor of Conflict Resolution and International Organization at the Nitze School of Advanced International Studies of Johns Hopkins University.

Faith-Based Diplomacy Brian Cox, 2015-06-19 The rise of religion and religious actors combined with nonstate actors increasing influence in the international order has become the new normal. These fundamental changes in the security environment call for a new paradigm to address national security concerns. That paradigm must acknowledge the cultural and historical factors at the heart of many identity-based conflicts and advance the role of nation-states in resolving them. That emerging paradigm is faith-based diplomacy, and this book, written by one of the world's leading experts, describes the principles and methodology of this form of engagement in the strategic political realm. It

is informed by twenty five years of experience in some of the worlds roughest neighborhoods including East Central Europe and the Balkans Sudan Kashmir and the Middle East Canon Brian Cox is an ordained Episcopal priest a pastor in Santa Barbara California a diplomat with a Washington DC nongovernmental organization and a professor in a law schoolbased conflict resolution program in Southern California
