Religious Movements In The Middle Ages Trans Rowan:

Contesting Christendom James L. Halverson, 2008 The pervasiveness of the Christian religion has long been treated as one of the key features of medieval society Indeed Europe in the Middle Ages is often described simply as a Christian culture Yet what do we mean when we say that medieval Europe was a Christian society and what did it mean to be a Christian in the Middle Ages These questions are fundamental to any understanding of the Middle Ages yet the variety of theoretical approaches and conclusions represented in this carefully selected and provocative collection of key works in the field highlights the complexity of the answers Introducing students to medieval Christianity James L Halverson presents a rich array of readings that offers a variety of ways to study the history of religion within a chronological setting His opening chapter and introductions to each section and selection frame the essays and provide a strong conceptual framework to build upon Making it clear that scholars have approached religion from many perspectives and used many different methodologies this collection presents some of the best scholarship of religion as culture and practice emphasizing the ongoing attempt to understand the social and cultural aspects of medieval Christianity Contributions by Rudolf Bell Constance Brittain Bouchard Peter Brown Marcus Bull Caroline Walker Bynum Mark R Cohen Georges Duby Eamon Duffy Joan Ferrante Richard Fletcher Katherine L French Thomas A Fudge Herbert Grundmann James L Halverson Karen Louise Jolly Lester Little Rob Means Bernd Moeller Andrew P Roach Jane Tibbets Schulenburg Keith Thomas and Ian Wood *A Companion to the Medieval World* Carol Lansing, Edward D. Middle Ages, 1000-1200 Heinrich Fichtenau, 2010-11-01 The struggle over fundamental issues erupted with great fury in the eleventh and twelfth centuries In this book preeminent medievalist Heinrich Fichtenau turns his attention to a new attitude that emerged in Western Europe around the year 1000 This new attitude was exhibited both in the rise of heresy in the general population and in the self confident rationality of the nascent schools With his characteristic learning and insight Fichtenau shows how these two separate intellectual phenomena contributed to a medieval world that was never quite as uniform as might appear from our modern perspective Florence and Its Church in the Age of Dante George W.

Dameron, 2013-05-27 By the early fourteenth century the city of Florence had emerged as an economic power in Tuscany surpassing even Siena which had previously been the banking center of the region In the space of fifty years during the lifetime of Dante Alighieri 1265 1321 Florence had transformed itself from a political and economic backwater scarcely keeping pace with its Tuscan neighbors to one of the richest and most influential places on the continent While many historians have focused on the role of the city's bankers and merchants in achieving these rapid transformations in Florence and Its Church in the Age of Dante George W Dameron emphasizes the place of ecclesiastical institutions communities and religious traditions While by no means the only factors to explain Florentine ascension no account of this period is complete without considering the contributions of the institutional church In Florence economic realities and spiritual yearnings intersected in mysterious ways A busy grain market on a site where a church once stood for instance remained a sacred place where many gathered to sing and pray before a painted image of the Virgin Mary as well as to conduct business At the same time religious communities contributed directly to the economic development of the diocese in the areas of food production fiscal affairs and urban development while they also provided institutional leadership and spiritual guidance during a time of profound uncertainty Addressing such issues as systems of patronage and jurisdictional rights Dameron portrays the working of the rural and urban church in all of its complexity Florence and Its Church in the Age of Dante fills a major gap in scholarship and will be of particular interest to medievalists church historians and Italianists **Meister**

Julian of Norwich Kevin Magill, 2006-07-13 Julian of Norwich was a fourteenth century woman who at the age of thirty had a series of vivid visions centred around the crucified Christ Twenty years later while living as an anchoress in a church she is believed to have set out these visions in a text called the *Showing of Love* Going against the current trend to place Julian in the category of mystic a classification which defines her visions as deeply private psychological events this book sets Julian's thinking in the context of a visionary project used to instruct the Christian community Drawing on recent developments in philosophy that debate the objectivity and rationality of vision and perception Kevin J Magill gives full attention to the depth and richness of the visual language and modes of perception in the *Showing of Love* In particular the book focuses on the ways in which Julian presented her vision to the Christian society around her demonstrating the educative potential of interaction between the isolated anchoress and the wider community Challenging Julian's identification as a mystic and solitary female writer this book argues that Julian engaged in a variety of educative methods oral visual conversational mnemonic alliterative that extend the usefulness of her text *The Cambridge*
