Religious Right The Abault On Tolerance And Pluralism In America:

Faith Or Fear Elliott Abrams,1997 The author addresses the loss of Jewish identity in a Christian Society and calls for Jews to return to their heritage *American Providence* Stephen H. Webb,2004-10-22 The relationship between America and Christianity has never been so hotly contested as it is today September 11 2001 and the war on terror have had an almost schismatic impact on the Church American Christians have been forced to ask the really hard questions about faith and politics While some Christians would rather not ask these questions at all they are unavoidable for a religion that seeks to speak to the whole world with the expectation of nothing less than global transformation Like it or not Christians have to take a stand on the issue of America s alleged imperialism not only because America is largely a product of the Christian imagination but also because the converse is true the growth of Christianity worldwide is largely shaped by American values and ideals American Providence makes the case that American Christianity is not an oxymoron It also makes the case for a robust doctrine of providence a doctrine that has been frequently neglected by American theologians due to their reluctance to claim any special status for the United States Webb goes right to the heart of this reluctance by defending the idea that American foreign policy should be seen as a vehicle of God s design for history **Commentary in American Life** Murray Friedman,2005 Commentary magazine s impact on American life letters and politics *Standing with Israel* David Brog,2006 Disc contains a 27 minute version and Trailer Obsession is a film about the threat of Radical Islam to Western Civilizations The ^AOxford Handbook of Religion and American Education Michael D. Hoover,2021-12-27 This pioneering handbook proposes an approach to pluralism that is relational principled and non relativistic going beyond banal calls for mere tolerance The growing religious diversity within societies around the world presents both challenges and opportunities A degree of competition between deeply held religious worldview perspectives is natural and inevitable yet at the same time the world urgently needs engagement and partnership across lines of difference None of the world s most pressing problems can be solved by any single actor and as such it is not a question of if but when you partner with an individual or institution that does not think act or believe as you do The authors argue that religious literacy defined as a dynamic combination of competencies and skills continuously refined through real world cross cultural engagement is vital to building societies and states of neighborly solidarity and civic fairness Through examination reflection and case studies across multiple faith traditions and professional fields this handbook equips scholars and students as well as policymakers and practitioners to assess analyze and act collaboratively in a world of deep diversity The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No
