Religious Imagination And The Body A Feminist Analysis:

Religious Imagination and the Body Paula M. Cooley, 1994-05-12 In recent years feminist scholarship has increasingly focused on the importance of the body and its representations in virtually every social cultural and intellectual context Many have argued that because women are more closely identified with their bodies they have access to privileged and different kinds of knowledge than men In this landmark new book Paula Cooley offers a different perspective on the significance of the body in the context of religious life and practice Building on the pathbreaking work of Elaine Scarry in *The Body in Pain* Cooley looks at a wide range of evidence from the Argentine prison narrative of Alicia Partnoy to the novels of Toni Morrison and the paintings of Frida Kahlo Drawing on current social theory and critique cognitive psychology contemporary fiction and art and women's accounts of religious experience Cooley relates the reality of sentience to the social construction of reality Beginning with an examination of the female body as a metaphor for alternative knowledge she considers the significance of physical pain and pleasure to the religious imagination and the relations between sentience sensuality and female subjectivity Cooley succeeds in bringing forward a sophisticated new understanding of the religious importance of the body at the same time laying the foundations of a feminist theory of religion

Resurrecting Erotic Transgression Anita Monroe, 2016-06-16 *Resurrecting Erotic Transgression* presents a feminist theological methodology based on the work of Julia Kristeva This methodology provides the means for subjecting ambiguity bringing to theology a recognition of the multiplicity of language and identity A method of poetic reading is proposed with a three stage process articulation of the dualities present in and around a focal discourse subversion of these dualities through a range of strategies and the re presentation of the discourse emphasising its ambiguous nature The hermeneutical method of poetic reading is explored in relation to three biblical texts and an image of the otherness of God as whore

Scarring the Black Body Carol E. Henderson, 2002 *Scarring* and the act of scarring are recurrent images in African American literature In *Scarring the Black Body* Carol E Henderson analyzes the cultural and historical implications of scarring in a number of African American texts that feature the trope of the scar including works by Sherley Anne Williams Toni Morrison Ann Petry Ralph Ellison and Richard Wright The first part of *Scarring the Black Body* The Call traces the process by which African bodies were Americanized through the practice of branding Henderson incorporates various materials from advertisements for the return of runaways to slave narratives to examine the cultural practice of writing the body She also considers way in which writers and social activists including Frederick Douglass Olaudah Equiano Harriet Tubman and Sojourner Truth developed a call centered on the body's scars to demand that people of African descent be given equal rights and protection under the law

Hell Hath No Fury Meghan Henning, 2021-01-01 The first major book to examine ancient Christian literature on hell through the lenses of gender and disability studies Enthralling engaging and challenging Henning has successfully given hell the right sort of attention at last filling a major gap in the story and simultaneously charting new territory Jarel Robinson Brown Los Angeles Review of Books

Throughout the Christian tradition descriptions of hell's fiery torments have shaped contemporary notions of the afterlife, divine justice and physical suffering. But rarely do we consider the roots of such conceptions which originate in a group of understudied ancient texts: the early Christian apocalypses. In this pioneering study, Meghan Henning illuminates how the bodies that populate hell in early Christian literature—largely those of women, enslaved persons and individuals with disabilities—are punished after death in spaces that mirror real carceral spaces, effectually criminalizing those bodies on earth. Contextualizing the apocalypses alongside ancient medical texts, inscriptions, philosophy and patristic writings, this book demonstrates the ways that Christian depictions of hell intensified and preserved ancient notions of gender and bodily normativity that continue to inform Christian identity.

The Women and War Reader Lois Ann Lorentzen, Jennifer E. Turpin, 1998-07 Women play many roles during wartime. This compelling study brings together the work of foremost scholars on women and war to address questions of ethnicity, women and the war complex, peacemaking, motherhood and more. It leaves behind outdated arguments about militarist men and pacifist women while still recognizing differences in men's and women's relationships to war.

Reviving the Children of Nimrod A. Pinn, 2019-06-12 As Anthony Pinn argues in his latest collection, humanism comes in many colors. When more attention is given to issues of race as connected to other forms of oppression, it is easier to see the manner in which humanism has lived and functioned within African American communities. Using the biblical figure Nimrod as symbol, *African American Humanist Principles* demonstrates African American humanists' intellectual and praxis-related grounding in a history of rebellion against over-determined and oppressive limitations on human doing and being. Pinn maintains that it is this quest for a fuller sense of being for greater existential and ontological worth that informs the basic principles of African American humanism. *African American Humanist Principles* is one of the only books to present the inner workings of humanist principles as the foundation for humanism from the African American perspective: its form and content, nature and meaning.

Social and Cultural Diversity in a Sporting World Chris Hallinan, Steven J. Jackson, 2008-10-01 Examines a range of cultural issues related to nationalism, gender, race, ethnicity, indigenous culture, sexuality, disability and even religiosity. This volume explores the dimensions of cultural diversity that relate to many of the aforementioned dimensions as they are located within the context of sport.

Gender, Genre, and Identity in Women's Travel Writing Kristi Siegel, 2004 Women experience and portray travel differently. Gender matters irreducibly and complexly. Building on recent scholarship in women's travel writing, these provocative essays not only affirm the impact of gender but also cast women's journeys against coordinates such as race, class, culture, religion, economics, politics and history. The book's scope is unique: Women travelers extend in time from Victorian memsahibs to contemporary road girls, and topics range from Anna Leonowens's slanted portrayal of Siam (later popularized in the movie *The King and I*) to current feminist descriptions of the male road buddy genre. The extensive array of writers examined includes Nancy Prince, Frances Trollope, Cameron Tuttle, Lady Mary Montagu, Catherine Oddie, Kate Karko, Frances Calderón de la Barca, Rosamond
