Remaking The Labour Party From Gaitskell To Blair:

The modernisation of the Labour Party, 1979-97 Christopher Massey, 2020-07-06 This monograph recasts the modernisation of the Labour Party and sheds new light on Labour's years in the wilderness between 1979 and 1997. The monograph uniquely traces the party's major organisational changes across its eighteen years of opposition. Labour's organisational modernisation in this period fundamentally altered the party's internal structures, policy-making pathways and constitution. The study begins with an investigation into the scene inherited by Labour's leadership in the early 1980s and examines Neil Kinnock's quest for a stable majority on the party's ruling National Executive Committee between 1983 and 1987. From this position, the monograph surveys the major organisational changes of the Labour Party in their period of opposition: the Policy Review 1987-92, One Member One Vote 1992-94, Clause IV 1995-96 and Partnership in Power 1996-97. Through a re-examination of Labour's modernisation in the light of new source material and extensive primary interviews, this research significantly contributes to the understanding of the rise of New Labour.

Remaking the Labour Party Tudor Jones, 2005-09-21 Remaking the Labour Party examines the development of revisionist thought in the Labour Party from the 1950s up to Tony Blair's successful attempt to rewrite Clause Four in April 1995. The main focus is upon the most distinctive and controversial aspect of Labour revisionism: its attitude toward public ownership and socialism, private ownership and the mixed economy. Remaking the Labour Party comprises a detailed study of a process of ideological conflict which began with the Labour Party's debate in the 1950s over the link between public ownership and socialism. The deepening confrontation that arose from the revisionist thinking of Crosland and Gaitskell is explored in the Clause Four controversy of 1959-60 and in the uneasy compromise forged in its aftermath. The period of ideological truce under Harold Wilson's leadership is examined together with the bitter conflict that later resurfaced in the party during the 1970s and early 80s. Finally, the study focuses on the second stage of Labour's policy and ideological rethinking which developed after 1983 under the leadership first of Neil Kinnock and then of Tony Blair. Drawing on the author's own interviews with some of the leading protagonists of the debate as well as upon a wide range of primary and secondary sources, Remaking the Labour Party will be of value to students of modern British politics and political thought; it will also be of interest to observers and members of the Labour Party.

Justifying New Labour Policy J. Atkins, 2011-04-12 An original combination of theoretical innovation and a detailed empirical analysis of the ideas, language and policy of New Labour. Politicians often appeal to moral principles and arguments in their efforts to win support for new policy programmes. New Labour's Old Roots Patrick Diamond, 2015-01-28 The New Labour project was not conjured up out of thin air it only looks that way because of the party's amnesia about the intellectual roots and political traditions which have guided it This book provides extracts from fifteen thinkers and politicians located within the revisionist tradition as an antidote to that amnesia It is an all star cast from R H Tawney Hugh Gaitskell and Anthony Crosland to Roy Hattersley Gordon Brown and Tony Blair The collection demonstrates that Labour's revisionism is not a rigid body of doctrine but a cast of mind that distinguishes between core values ends and policy instruments means revisionist thinkers are engaged in the continuous pursuit of policy innovation never shrinking from abandoning policies that fail to achieve the desired ends All successful Labour governments have been determined to avoid the confusion of means and ends These essays show a determination throughout the party's history to debate and discuss political ideas in the cause of a fairer more equal society Fully updated and revised edition

European Socialists and the State in the Twentieth and Twenty-First Centuries Mathieu Fulla, Marc Lazar, 2020-08-05 This edited volume promotes a comparative and transnational approach to the complex and ambiguous relationship between West European socialism and the contemporary state over the longue durée It encourages a better understanding of socialism while also casting an original light on the history of the contemporary state in Europe Socialists have been a prime political force since the late nineteenth century through to the present Through their strength their presence at the heart of societies their dynamism inventiveness and influence they have left their mark on the European physiognomy and helped to forge part of its identity This is particularly true where the welfare state is concerned and the role played by the state in constructing embedding and extending this social model Surprisingly there has been no research aiming to systematically analyse the relationship between socialism and the state This volume fills a gap in knowledge by rejecting the media simplification and political polemic maintained by opponents of socialism and sometimes by socialists themselves which systematically links socialism with statism It focuses on numerous case studies involving France Italy Spain Greece Austria Germany Belgium the United Kingdom and Scandinavia and highlights the diversity of organisations within European socialism Ultimately this book

demonstrates that the fate of this political culture depends on the socialist parties themselves but also on any new configurations that states may assume Conversely the future of states will also depend partly on the choices made by socialists if they still exist and still have the means to shape decisions and make their voices heard
