**The Five-Factor Model of Personality Across Cultures** Robert R. McCrae, Juri Allik, 2012-12-06 ROBERT R MCCRAE it is simply personality research conducted in different countries The implicit assumption behind this practice is that personality processes are universal and where they are studied is thus of no consequence An insensitivity to cultural context once imputed mostly to Americans now appears to characterize the field worldwide Fortunately recent years have also seen a rise of interest in studies of personality and culture Church 2001 Church Lee McCauley McCrae 2000 What do these new studies show Are personality processes indeed universal or are there significant variations across cultures that necessitate a more nuanced approach to research There is as yet no definitive answer to that question In some respects human personality does seem to transcend the boundaries of language and culture in other respects it is profoundly influenced by social and historical forces Sorting these issues out must be a priority for our field if we are to understand the current personality literature

**The Deepest Place** Curt Thompson, MD,2023-08-29 In the face of personal and global suffering is it possible to live with hope rather than despair Join psychiatrist speaker and award winning author Curt Thompson as he shows us how God transforms our grief into a lasting peace that surpasses all understanding Suffering is a defining reality of life Yet so many of us are so focused on avoiding discomfort that we ve never learned how to actually suffer But what if we could move from anxiety to durable hope In The

Deepest Place Thompson invites us to explore how the Apostle Paul's experience of love, secure attachment and the deeply felt sense of God's abiding presence carried him through the challenges he faced and how it can help us not just survive but flourish in the presence of suffering. Combining scripture with his own professional insight, Thompson helps us discover that suffering can increase our sense of security rather than our fears. Hope is something we form in community. Faith can grow out of anger, cynicism and doubt. Perseverance changes our brain and reshapes our imagination. Listening to our bodies helps us find new hope in loss. As Thompson reminds us, those who have suffered greatly, including the Apostle Paul, are able to see their stories with a new understanding of God's presence and unfailing love. Let *The Deepest Place* show you how to do the same.

*Sacred Healing* Janet Davis, 2010. This is a book about opening our souls to honest awareness of grief and pain and letting God's all-embracing love surround us. Each of the author's recollections encourages readers to find comfort in Scripture and prayer as well as in the ordinary things in life: marigolds, willow branches, relationships, synchronicities and even beer. In these simple stories, she addresses those who are too sad and overwhelmed to seek companionship with God and others and she assures them that sacred healing is possible when they allow God's powerful love to embrace their hurting souls.
