Remembering Heraclitus:

Remembering Heraclitus Richard G. Geldard, 2000 Fragments of Heraclitus To be wise is one thing to know the thought that directs all things through all things We should not act like the children of our parents This bright deep meditative jewel like study brings Heraclitus to life in a new way and shows him to be one of the principal sources of Western mystical thinking From Geldard s point of view the study of Heraclitus is not just an academic matter but on the contrary presents us with very real existential and phenomenological challenges The book includes new translations of all the essential fragments Geldard through his exploration of Heraclitus shows us The more that human beings openly and humbly seek higher knowledge the more they develop the power to perceive it until finally they penetrate to the hidden universal order The result of this penetration is knowledge of the Logos that which directs all things through all things The acquisition of this knowledge is not an event it is a stance in the world It is Being in its fullness

Palimpsests of the Real in Recent French Poetry Glenn W. Fetzer, 2021-08-30 The richness and diversity of poetic voices in France since the mid twentieth century sharpen the challenge of charting the poetic landscape in ways that are accessible and cohesive Since poetry in France has long demonstrated a predisposition to philosophical questions *Palimpsests of the Real in Recent French Poetry* reads the work of six poets through the lens of the Pre Socratics The poets discussed range from the well known Jacques Dupin Andr du Bouchet Eug ne Guillevic to the lesser celebrated Jean Louis Chr tien C line Zins and Emmanuel Hocquard What binds these six together is an interest in the real and a fascination with the ways of sensing one s world of experiencing time unity memory and change For each poet the aesthetic character of the work takes precedence and its presentation is informed by the philosophical groundwork laid by ancient thinkers Written not only for specialists but also for students and all readers with a general interest in literature and poetry this book provides introductory material to each poet considered as well as offers critical readings that never stray far from the poetic texts

Architecture and Fire Stamatis Zografos, 2019-06-12 *Architecture and Fire* develops a conceptual reassessment of architectural conservation through the study of the intimate relationship between architecture and fire Stamatis Zografos expands on the general agreement among many theorists that the primitive hut was erected around fire locating fire as the first memory of architecture at the very beginning of architectural evolution Following the introduction Zografos analyses the archive and the renewed interest in the study of archives through the psychoanalysis of Jacques Derrida He moves on to explore the ambivalent nature of fire employing the conflicting philosophies of Gaston Bachelard and Henri Bergson to do so before discussing architectural conservation and the relationship between listed buildings the function of archives and the preservation of memories from the past The following chapter investigates how architecture evolves by absorbing and accommodating fire while the penultimate chapter examines the critical moment of architectural evolution the destruction of buildings by fire with a focus on the tragic disaster at London s Grenfell Tower in 2017 Zografos concludes with thoughts on Freud s drive theory He

argues the practice of architectural conservation is an expression of the life drive and a simultaneous repression of the death drive which suggests controlled destruction should be an integral part of the conservation agenda Architecture and Fire is founded in new interdisciplinary research navigating across the boundaries of architecture conservation archival theory classical mythology evolutionary theory thermodynamics philosophy and psychoanalysis It will be of interest to readers working in and around these disciplines

The Art of Spiritual Midwifery Stephen Faller, 2015-09-24 What comes after reflective listening What comes after the ministry of presence Spiritual midwifery is a powerful framework for offering pastoral care in today's fast paced environment Midwifery offers ways of thinking about those who are served the work itself and what it means to be a clinical caregiver within the tradition of the care of souls Spiritual midwifery has philosophical and spiritual roots that stem from the earliest seeds of Western thought even back to Jesus and Socrates Readers will find an inductive approach toward a conceptual model that offers insight for richer assessments and outcome oriented goals of care Part One sets out the metaphors of the midwife and the dialogue Part Two unpacks the methodology behind the mechanics Part Three looks at creative applications of midwifery and is followed by a Symposium patterned after Plato's own Symposium A rigorous theory remains at the centre of the work but the tone is poetically balanced enough to invite the transformation of the spiritual caregiver From the philosophy of Heraclitus to the theology of Kierkegaard and the spiritual direction of Guenther The Art of Spiritual Midwifery brings forth a comprehensive conception of pastoral care and its delivery

The Catcher in the Rye and Philosophy Keith Dromm, Heather Salter, 2012 The puzzling frustrating world of Holden Caulfield never loosens its grip on our imagination Somehow the growing pains of a privileged alienated teenager lock onto deeper issues that continue to haunt us all The Catcher in the Rye and Philosophy exposes these deeper issues by looking at

Cosmological Aesthetics through the Kantian Sublime and Nietzschean Dionysian Erman Kaplama, 2013-12-12 Erman Kaplama explores the principle of transition bergang from metaphysics to physics developed by Kant in his unfinished magnum opus *Opus Postumum* Drawing on the Heraclitean logos and Kant's notions of sense intuition *Anschauung* and reflective judgment Kaplama interprets transition as an aesthetic principle He revises the idea of nature *physis* as the principle of motion referring to Heraclitus cosmology as well as Heidegger's and Nietzsche's lectures on the pre-Socratics Kaplama compares the Kantian sublime and Nietzschean Dionysian as aesthetic theories representing the transition from the sensible to supersensible and as cosmological theories that consider human nature *ethos* as an extension of nature In light of such Nietzschean notions as the eternal recurrence and will to power the Dionysian is shown to trigger the transition by which nature and art are redefined Finally Cosmological Aesthetics employs the principles of transition and motion to analyze Van Gogh's *Starry Night* in an excursus *Kinesis*

Dónal Mac Erlaine, 2024-03-12 Our universe is characterized by constant motion From electrons to galaxies all things are on the move This resonates within the human condition we are born to move From the earliest hunters sailors and horse riders to the modern world of trains bicycles and cars movement is everywhere in human life Our history as nomads compares starkly to our increasingly sedentary life today This fundamental disruption of the human as a moving being led to the invention of the wheel new religious cultures and even the rational mind This book considers the full depth of the link between humanity and motion examining how it manifests in us and how we embody it Broad and multidisciplinary it blends history geography psychology philosophy architecture anthropology and spirituality
