Remembrance And Imagination Patterns In The Historical And Liter:

Remembrance and Imagination Joseph Theodoor Leerssen, 1997 The nineteenth century witnessed the growth of Irish cultural nationalism as a dominant force in the country's political and literary life *Remembrance and Imagination* is a major study which charts the development and impact of a national self image through key texts and key episodes and does so by placing the history of two cultural spheres side by side literature and historical scholarship The literary and discursive work of writers like Lady Morgan Maturin Thomas Moore Thomas Davis Yeats and Synge is placed against the background of contemporary debates concerning the true historical and cultural identity of Ireland while developments in the historical sciences are traced in their impact on the literary imagination Special attention is given to the influential scholar George Petrie and to the far ranging and persistent controversy concerning the round towers The Irish self image in the nineteenth century attempted to formulate permanence tradition and continuity in the face of historical and political divisions and incoherence The cultivation of a gloried past and of an idyllic peasantry are central preoccupations in Irish national thought This book analyzes the discourse rhetoric stereotypes and ingrained attitudes with which those preoccupations were invested both in literature and historical scholarship The book closes with a reinterpretation of the position of Synge and Joyce in repudiating the nineteenth century schemata of representing Ireland Modernism, Ireland and the Erotics of Memory

Nicholas Andrew Miller, 2002-09-19 In *Modernism Ireland and the Erotics of Memory* Nicholas Miller re examines memory and its role in modern Irish culture Arguing that a continuous renegotiation of memory is characteristic of Irish modernist writing Miller investigates a series of case studies in modern Irish historical imagination He reassesses Ireland's self construction through external or foreign discourses such as the cinema and proposes readings of Yeats and Joyce as counter memorialists Combining theoretical and historical approaches Miller shows how the modernist handling of history transforms both memory and the story of the past by highlighting readers investments in histories that are produced specifically and concretely through local acts of reading This original study will attract scholars of Modernism Irish studies film and literary theory The Encyclopedia of Romantic Literature, 3 Volume Set Frederick Burwick, Nancy Moore Goslee, Diane Long

Connolly, 2011-11-17 Claire Connolly offers a cultural history of the Irish novel in the period between the radical decade of

the 1790s and the gaining of Catholic Emancipation in 1829 These decades saw the emergence of a group of talented Irish writers who developed and advanced such innovative forms as the national tale and the historical novel fictions that took Ireland as their topic and setting and which often imagined its history via domestic plots that addressed wider issues of dispossession and inheritance Their openness to contemporary politics as well as to recent historiography antiquarian scholarship poetry song plays and memoirs produced a series of notable fictions marked most of all by their ability to fashion from these resources a new vocabulary of cultural identity This book extends and enriches the current understanding of Irish Romanticism blending sympathetic textual analysis of the fiction with careful historical contextualization **Irish**

Literature in Transition, 1780-1830: Volume 2 Claire Connolly, 2020-03-12 The years between 1780 and 1830 are vital decades in the history of Irish writing in English This book charts the confluence of Enlightenment antiquarian and romantic energies within Irish literary culture and shows how different writers and genres absorbed dispersed and remade those interests during five decades of political change During those same years literature made its own history By the 1840s Irish writing formed a recognizable body of work which later generations would draw on quote anthologize and dispute Questions raised by novels poems and plays of the late eighteenth and early nineteenth centuries the politics of language and voice the relationship between literature and locality the possibility of literature as a profession resonated for many Irish writers over the centuries that followed and continue to matter today This comprehensive volume will be a key reference for scholars and students of Irish literature and romantic literary studies **New Perspectives on Imagology**, 2022-11-14 With this volume
