Robert Burton's Rhetoric Susan Wells, 2019-08-30 Published in five editions between 1621 and 1651 *The Anatomy of Melancholy* marks a unique moment in the development of disciplines when fields of knowledge were distinct but not yet restrictive In Robert Burton's *Rhetoric* Susan Wells analyzes the *Anatomy* demonstrating how its early modern practices of knowledge and persuasion can offer a model for transdisciplinary scholarship today In the first decades of the seventeenth century Robert Burton attempted to gather all the existing knowledge about melancholy drawing from professional discourses including theology medicine and philology as well as the emerging sciences Examining this text through a rhetorical lens Wells provides an account of these disciplinary exchanges in all their subtle variety and abundant wit showing that questions of how knowledge is organized and how it is made persuasive are central to rhetorical theory Ultimately Wells argues that in addition to a book about melancholy Burton's *Anatomy* is a meditation on knowledge A fresh interpretation of *The Anatomy of Melancholy* this volume will be welcomed by scholars of early modern English and the rhetorics of health and medicine as well as those interested in transdisciplinary work and rhetorical theory

Theaters of Translation Andrew S. Keener, 2025 In *Theaters of Translation* Cosmopolitan Vernaculars in Shakespeare s England Andrew S Keener argues that plays by Thomas Kyd Mary Sidney Herbert Ben Jonson and others were shaped by and contributed to a multilingual Europe full of dictionaries grammars and language learning dialogues Bringing together critical discussions and methodologies in transnational literary studies book history and the history of theater and performance Keener proposes a fresh multilingual approach to English Renaissance drama in a way that also liberates the histories of early modern languages and literatures from their national silos Rather than accepting Shakespeare as England s national playwright and instead of inscribing the period s theater and drama within England s political geographic and linguistic limits *Theaters of Translation* demonstrates the intercourse between England s drama and the great variety of multilingual dictionaries dialogues grammars and language manuals circulating throughout Europe Covering the period 1570 1640 when England s drama and crucially the English language itself was a proving ground for linguistic mixture Keener emphasizes the term cosmopolitan vernaculars which refers to non classical languages that modeled transnational forms of belonging for

playgoers readers and authors across early modern Europe in doing so he challenges scholarship that continues to figure Renaissance England as a site of national and linguistic cohesion The critical genealogy of the term cosmopolitan vernaculars is itself rooted in studies of premodern Sanskrit and in postcolonial theory addressing the British Empire so by acknowledging the complexities associated with the terms cosmopolitanism and vernacularity Keener offers a conceptual and historical bridge between the medieval period and the imperial era making room for linguistic considerations of cosmopolitanism in England among French Italian Spanish and other European languages in relation to the English theater Linking recent contributions to cosmopolitan theory with transnational studies of early modern literature and culture particularly studies examining the dynamics of multiple languages translation and polyglot manuals and dictionaries in Europe Theaters of Translation highlights both the ways in which cosmopolitanism manifests through vernacular languages in print and performance and the ways languages themselves can exhibit cosmopolitanism for those who encounter them on the page or on the stage With this evidence Keener analyzes the workings of cosmopolitan vernaculars in early modern England and in ways that open up new transnational interpretations of plays Theaters of Translation also seeks to make much more out of details known to scholars already such as the fact that Ben Jonson owned and annotated a copy of Pietro Aretino s scandalous Italian dialogues or that Shakespeare s First Folio was advertised for sale in Germany before its London publication but which have been overlooked or obscured because they do not always agree with the prevailing nationally focused approaches to early modern drama in England

Theatre, Magic and Philosophy Gabriela Dragnea Horvath, 2017-07-06 Analyzing Shakespeare s views on theatre and magic and John Dee s concerns with philosophy and magic in the light of the Italian version of philosophia perennis mainly Marsilio Ficino Pico della Mirandola and Giordano Bruno this book offers a new perspective on the Italian English cultural dialogue at the Renaissance and its contribution to intellectual history In an interdisciplinary and intercultural approach it investigates the structural commonalities of theatre and magic as contiguous to the foundational concepts of perennial philosophy and explores the idea that the Italian thinkers informed not only natural philosophy and experimentation in England but also Shakespeare s theatre The first full length project to consider Shakespeare and John Dee in juxtaposition this study brings textual and contextual evidence that Gonzalo an honest old Counsellor in The Tempest is a plausible theatrical representation of John Dee At the same time it places John Dee in the tradition of the philosophia perennis accounting for what appears to the modern scholar the conflicting nature of his faith and his scientific mind his powerful fantasy and his need for order and rigor and clarifies Edward Kelly s role and creative participation in the scrying sessions regarding him as co author of the dramatic episodes reported in Dee s spiritual diaries Finally it connects the Enochian Angelic language to the myth of the Adamic language at the core of Italian philosophy and brings evidence that the Enochian is an artificial language originated by applying creatively the analytical instruments of text hermeneutics used in the Cabala

French Encounters with the Ottomans, 1510-1560 Pascale

Barthe,2016-05-20 Focusing on early Renaissance Franco Ottoman relations this book fills a gap in studies of Ottoman representations by early modern European powers by addressing the Franco Ottoman bond In French Encounters with the Ottomans Pascale Barthe examines the birth of the Franco Ottoman rapprochement and the enthusiasm with which before the age of absolutism French kings and their subjects pursued exchanges real or imagined with those they referred to as the Turks Barthe calls into question the existence of an Orientalist discourse in the Renaissance and examines early cross cultural relations through the lenses of sixteenth century French literary and cultural production Informed by insights from historians literary scholars and art historians from around the world this study underscores and challenges long standing dichotomies Christians vs Muslims West vs East as well as reductive periodizations Middle Ages vs Renaissance and compartmentalization of disciplines Grounded in close readings it includes discussions of cultural production specifically visual representations of space and customs Barthe showcases diplomatic envoys courtly poets bourgeois prominent fiction writers and chroniclers who all engaged eagerly with the Turks and developed a multiplicity of responses to the Ottomans before the latter became both fashionable and neutralized and their representation fixed *Travels and Translations* Alison Yarrington,Stefano Villani,Julia Kelly,2013-11-01 This volume explores the fascinating interactions and exchanges between British and Italian cultures from the early modern period to the present It looks at how these exchanges were mediated through personal encounters travel writings and translations involving a variety of protagonists explorers writers poets preachers diplomats and tourists In particular this book examines the understanding of Italy as a destination and set of locations each with their own distinctive geographical character during a period which saw the creation of the modern Italian state It also charts the shifts in travelling activity during this period from early explorers and cartographers via those taking part in the Grand Tour in the 18th and 19th centuries to more modern poet travellers and blogging tourists Drawing upon literary studies history art history cultural studies translation studies sociology and socio linguistics this volume takes a cross disciplinary approach to its rich constellation of cultural transactions East Meets West in the Middle Ages and Early Modern Times Albrecht Classen,2013-09-03 This new volume explores the surprisingly intense and complex relationships between East and West during the Middle Ages and the early modern world combining a large number of critical studies representing such diverse fields as literary German French Italian English Spanish and Arabic and other subdisciplines of history religion anthropology and linguistics The differences between Islam and Christianity erected strong barriers separating two global cultures but as this volume indicates despite many attempts to Other the opposing side the premodern world experienced an astonishing degree of contacts meetings exchanges and influences Scientists travelers authors medical researchers chroniclers diplomats and merchants criss crossed the East and the West or studied the sources produced by the other culture for many different reasons As much as the theoretical concept of Orientalism has been useful in sensitizing us to the fundamental tensions and conflicts separating both worlds at least since the eighteenth century the premodern world

did not quite yet operate in such an ideological framework Even though the Crusades had violently pitted Christians against Muslims there were countless contacts and a palpable curiosity on both sides both before during and after those religious warfares

The Politics of Translation and Transmission Hanna Orsolya Vincze,2012-03-15 This book is a study on the beginnings of Hungarian political thought as set out by two 17th century mirrors of princes the first attempts at political theorising in the Hungarian vernacular The unlikely source text for these treatises was an advice book by King James the VIth and Ist to his son Basilikon Doron As an analysis of the translation and re reading of a widely circulated text by the king of England and Scotland the book is also a study in early modern cross cultural dialogue situated in the context of recent discussions on transculturalism and more specifically on the intellectual connections between Britain and the world The various contemporary translations of King James s book to diverse contexts and languages enlisted it to different agendas making it difficult to cast the process of translation and transmission as a story of a reception of an idea They rather call attention to the importance of the local stakes involved in translation How ideas originally formulated in a Scottish context came to be re articulated in a Central European one is a particularly interesting story that provides us with a possibility to paint a picture of the various political languages in use at the time from divine right arguments to elements of civic humanism neostoicism political Calvinism in its magisterial version Old Testament biblicism and millenarianism

The Routledge Handbook of Translation History Christopher Rundle,2021-09-30 The Routledge Handbook of Translation History presents the first comprehensive state of the art overview of this multi faceted disciplinary area and serves both as an introduction to carrying out research into translation and interpreting history and as a key point of reference for some of its main theoretical and methodological issues interdisciplinary approaches and research themes The Handbook brings together 30 eminent international scholars from a wide range of disciplinary backgrounds offering examples of the most innovative research while representing a wide range of approaches themes and cultural contexts The Handbook is divided into four sections the first looks at some key methodological and theoretical approaches the second examines some of the key research areas that have developed an interdisciplinary dialogue with translation history the third looks at translation history from the perspective of specific cultural and religious perspectives and the fourth offers a selection of case studies on some of the key topics to have emerged in translation and interpreting history over the past 20 years This Handbook is an indispensable resource for students and researchers of translation and interpreting history translation theory and related areas

The Venetian Discovery of America Elizabeth Horodowich,2018-09-06 Demonstrates how Venetian newsmongers played a crucial yet heretofore unrecognized role in the invention of America

The Whispers of Cities John-Paul A. Ghobrial,2013 Explores interactions between early modern Europe and the Ottoman Empire through the experiences of the English ambassador to the Ottoman Empire from 1687 to 1692 showing how information flows between Istanbul London and Paris were rooted in the personal exchanges between Ottomans and Europeans in everyday encounters

"Prints in Translation, 1450-1750" Edward H. Wouk, 2017-07-05 Printed artworks were often ephemeral but in the early modern period exchanges between print and other media were common setting off chain reactions of images and objects that endured Paintings sculpture decorative arts musical or scientific instruments and armor exerted their own influence on prints while prints provided artists with paper veneers templates and sources of adaptable images This interdisciplinary collection unites scholars from different fields of art history who elucidate the agency of prints on more traditionally valued media and vice versa Contributors explore how after translations across traditional geographic temporal and material boundaries original meanings may be lost reconfigured or subverted in surprising ways whether a Netherlandish motif graces a cabinet in Italy or the print itself colored or copied is integrated into the calligraphic scheme of a Persian royal album These intertwined relationships yield unexpected yet surprisingly prevalent modes of perception Andrea Mantegna's 1470-1500 Battle of the Sea Gods an engraving that emulates the properties of sculpted relief was in fact reborn as relief sculpture and fabrics based on print designs were reapplied to prints returning color and tactility to the very objects from which they derived Together the essays in this volume witness a methodological shift in the study of print from examining the printed image as an index of an absent invention in another medium a painting sculpture or drawing to considering its role as a generative active agent driving modes of invention and perception far beyond the locus of its production

Elizabethan Translation and Literary Culture Gabriela Schmidt, 2013-04-30 Reversing F. O. Matthiessen's famous description of translation as an Elizabethan art Elizabethan literature may well be considered an art of translation Amidst a climate of intense intercultural and intertextual exchange the cultural figure of *translatio studii* had become a formative concept in most European vernacular writing of the period However due to the comparatively marginal status of English in European literary culture it was above all translation in the literal sense that became the dominant mode of applying this concept in late 16th century England Translations into English were not only produced on an unprecedented scale they also became a key site for critical debate where contemporary discussions about authorship style and the development of a specifically English literary identity converged The essays in this volume set out to explore Elizabethan translation as a literary practice and as a crucial influence on English literature They analyse the competitive balancing of voices and authorities found in these texts and examine the ways in which both translated models and English literary culture were creatively transformed in the process of appropriation
