Kingship and Love in Scottish Poetry, 1424-1540 Joanna Martin, 2016-04-22 Looking at late medieval Scottish poetic narratives which incorporate exploration of the amorousness of kings this study places these poems in the context of Scotland's repeated experience of minority kings and a consequent instability in governance The focus of this study is the presence of amatory discourses in poetry of a political or advisory nature written in Scotland between the early fifteenth and the mid sixteenth century Joanna Martin offers new readings of the works of major figures in the Scottish literature of the period including Robert Henryson William Dunbar and Sir David Lyndsay At the same time she provides new perspectives on anonymous texts among them *The Thre Prestis of Peblis* and *King Hart* and on the works of less well known writers such as John Bellenden and William Stewart which are crucial to our understanding of the literary culture north of the Border during the period under discussion Handbuch deutscher historischen Buchbestände. Fabian, Vincenc Streit Vlasta Faltysová Pavel Pohlei, **Obscene Pedagogies** Carissa M. Harris, 2018-12-15 In *Obscene Pedagogies* Carissa M Harris investigates the relationship between obscenity gender and pedagogy in Middle English and Middle Scots literary texts from 1300 to 1580 to show how sexually explicit and defiantly vulgar speech taught readers and listeners about sexual behavior and consent Through innovative close readings of literary texts including erotic lyrics single woman's songs debate poems between men and women Scottish insult poetry battles and *The Canterbury Tales* Harris demonstrates how through its transgressive charge and galvanizing shock value obscenity taught audiences about gender sex pleasure and power in ways both positive and harmful Harris's own voice proudly witty and sharply polemical inspires the reader to address these medieval texts with an eye on contemporary issues of gender violence and misogyny Scottish Philosophy in the Seventeenth Century Alexander Broadie, 2020 Scottish philosophy of the seventeenth century was an important part of a wider European philosophical discourse After situating such thought in its political and religious contexts the contributors to this volume investigate the writings of a variety of Scottish thinkers in the areas of logic metaphysics politics ethics law and religion Machiavelli in the British Isles Alessandra Petrina, 2016-05-13 *Machiavelli in the British Isles* reassesses the impact of Machiavelli's *The Prince* in sixteenth century England and Scotland through the analysis of early English translations produced before 1640 surviving in manuscript form This study concentrates on two of the four extant sixteenth century versions William Fowler's Scottish translation and the Queen's College Oxford English translation which has been hitherto overlooked by scholars Alessandra Petrina begins with an overview of the circulation and readership of Machiavelli in early modern Britain before focusing on the eight surviving manuscripts She reconstructs each manuscript's history and the afterlife of the translations before moving to a detailed examination of two of the translations Petrina's

investigation of William Fowler's translation takes into account his biography in order to understand the Machiavellian influence on early modern political thought. Her study of the Queen's College translation analyses the manuscript's provenance as well as technical details including writing and paper quality. Importantly, this book includes annotated editions of both translations which compare the texts with the original Italian versions as well as French and Latin versions. With this volume, Petrina has compiled an important reference source offering easy access to little-known translations and shedding light on a community of readers and scholars who were fascinated by Machiavelli despite political or religious opinion.

Wessel Gansfort (1419-1489) and Northern Humanism Fokke Akkerman, Gerda C. Huisman, Arie Johan Vanderjagt, 1993. These nineteen original studies deal with Wessel Gansfort 1419-1489, the Modern Devotion and its influence, subjects and personalities of early humanism and the Reformation in the northern Netherlands and Germany.
