Organised into three sections Hotspots and Trade Routes Usual Dealings and Recycling Economies the chapters in this collection shed light on the practices materials and networks of the paper trade. Altogether the collection uncovers the actors involved in the networks of paper production transportation purchase and reuse between the thirteenth and nineteenth centuries and across the central and peripheral papermaking regions of Europe.

Dissoi Logoi: Introduction, Critical Text, Translation, and Commentary Sebastiano Molinelli, 2024-10-16 This new critical edition of Dissoi Logoi starts from a codicological analysis that is unprecedented in scope the studied codices are twenty six and depth their material dimensions transmitted works provenance date scribe first possessors and current place of conservation are considered. On this basis a new stemma codicum and a new Greek critical text with parallel English translation are offered. The extensive introduction reconstructs the manuscript and printed transmission of the text and sheds new light on its nature and its reception in antiquity. Dissoi Logoi appears to have been written between 355 and 338 BCE in

an Eastern form of Doric by a sophist who aimed to promote his course It likely worked as a source for Sextus Empiricus which contributes to explaining the work s collocation at the end of Sextus codices The third and final part of the book consists in a two level commentary First the Structural Commentary looks into blocks of chapters from a rhetorical and philosophical perspective Then the Lemmatic Commentary delves into the most salient lemmas of the text covering textual linguistic literary and historical issues as well Spain in Italy Thomas James Dandelelet, John A. Marino, American Academy in Rome, 2007 This volume integrates the theme of Spain in Italy into a broad synthesis of late Renaissance and early modern Italy by restoring the contingency of events local and imperial decision making and the distinct voices of individual Spaniards and Italians
