Renaissance Exploration By Hale John Rigby:

Handbook to Life in Renaissance Europe Sandra Sider, 2007 The word renaissance means rebirth and the most obvious example of this phenomenon was the regeneration of Europe's classical Roman roots The Renaissance began in northern Italy in the late 14th century and culminated in England in the early 17th century Emphasis on the dignity of man though not of woman and on human potential distinguished the Renaissance from the previous Middle Ages In poetry and literature individual thought and action were prevalent while depictions of the human form became a touchstone of Renaissance art In science and medicine the macrocosm and microcosm of the human condition inspired remarkable strides in research and discovery and the Earth itself was explored situating Europeans within a wider realm of possibilities Organized thematically the Handbook to Life in Renaissance Europe covers all aspects of life in Renaissance Europe History religion art and visual culture architecture literature and language music warfare commerce exploration and travel science and medicine education daily life *Renaissance Exploration* John Rigby Hale, 1972 *Renaissance Europe* J. R. Hale, John Rigby Hale, 1977-01-01 *War, Culture and Society in Renaissance Venice* John Rigby Hale, David Chambers, Cecil H. Clough, Michael Mallett, 1993-01-01 While the majority of these essays are about wars fought against Venice's enemies or on the building and defence of Venetian and other fortifications there are also essays on other aspects of Venetian life and art on Giorgione's earliest work on the career of a Venetian pope on the building of the Ca d'Oro and on the Diarii of Marino Sanuto

Sovereignty and Territorial Temptation Christopher R. Rossi, 2017-04-27 This powerful book stands on its head the most venerated tradition in international law and discusses the challenges of scarcity sovereignty and territorial temptation Newly emergent resources accessible through global climate change discovery or technological advancement highlight time tested problems of sovereignty and challenge liberal internationalism's promise of beneficial or shared solutions From the High Arctic to the hyper arid reaches of the Atacama Desert from the South China Sea to the history of the law of the sea from doctrinal and scholarly treatments to institutional forms of global governance the historically recurring problem of territorial temptation in the ageless age of scarcity calls into question the future of the global commons and illuminates the tendency among states to share resources but only when necessary *Across Currents: Connections Between Atlantic and (Trans)Pacific Studies* Nicole Poppenhagen, Jens Temmen, 2020-04-28 This book explores connections between Atlantic studies and trans Pacific studies including the potential discursive topical and historical overlaps of the two fields It carves out mutual concerns and theoretical affinities but also divergent approaches and differences While acknowledging the fundamental differences that characterize the individual fields the essays in this volume examine how both Atlantic and trans Pacific studies are part of global currents of political activist artistic economic and academic exchange This volume brings together voices from Europe North America and the Pacific with disciplinary backgrounds in history culture and literature Directed at scholars with a background in trans Pacific and or Atlantic studies this collection is an attempt to stimulate

exchange between the two fields to intensify their impact within the current transnational focus of literary and cultural studies to encourage the questioning of well mapped paths of inquiry and to outline new theoretical approaches to both fields

This book was originally published as a special issue of the journal *Atlantic Studies* **Writing East** Iain Macleod Higgins, 2010-11-24 No work revealed more of the mysterious East to statesmen explorers readers and writers of the late Middle Ages than the *Book of John Mandeville* One of the most widely circulated documents of its day it first appeared in French between 1356 and 1371 and was soon translated into nine other European languages Ostensibly the account of one English knight's journeys through Africa and Asia it is rather a compilation of travel writings first shaped by an unknown redactor *Writing East* is a study of how Mandeville's *Travels* came to appear in its various versions explaining how it went through a series of transformations as it reached new audiences in order to serve as both a response to previous writings about the East and an important voice in the medieval conversation about the nature and limits of the world Higgins offers a palimpsestic reading of this multi text that demonstrates not only how the original French author overwrote his precursors but also how subsequent translators molded the material to serve their own ideological agendas **Renaissance Europe**
