Render Unto Caesar The Religious Sphere In World Politics:

Render Unto Caesar Sabrina P. Ramet, Donald W. Treadgold, 1995 From the introduction For many people it may come as a surprise to learn that the history of ecological politics has not always been inherently and necessarily progressive and benign In fact ecological ideas have a history of being distorted and placed in the service of highly regressive ends even of fascism itself This theme is discussed in the two essays presented here Fascist Ideology The Green Wing of the Nazi Party and its Historical Antecedents and Ecology and the Modernization of Fascism in the German Ultra Right Annotation copyright by Book News Inc Portland OR *The Three Yugoslavias* Sabrina P. Ramet, 2006-06-06 Based on extensive archival research and fieldwork and the culmination of more than two decades of study *The Three Yugoslavias* is a major contribution to an understanding of Yugoslavia and its successor states Religion in Global Politics Jeffrey Haynes, 2014-10-13 One of the most resilient ideas about societal development after World War II was that nations would inevitably secularise as they modernised However as we come to the end of the secular twentieth century it is obvious that religion continues to be an important factor in politics around the world The author examines the continuing importance of religion focusing upon the regions of Europe the Americas Africa and Asia The Translatability of the Religious Dimension in Shakespeare from Page to Stage, from West to East Jenny Wong, 2018-05-29 This interdisciplinary study traverses the disciplines of translation studies hermeneutics theater studies and sociology Under the power turn or political turn in translation studies the omission and untranslatability of religious material are often seen as the product of censorship or self censorship But the theology of each individual translating agent is often neglected as a contributing factor to such untranslatability This book comprehensively traces the hermeneutical process of the translators as readers and the situational process and semiotics of theater translation Together these factors contribute to an image of translated literature that in turn influences the literature's reception While translation theorists influenced by the current sociological turn view social factors as determining translation activities and strategies this volume argues that the translator's or the dramatist's theology and religious values interact with the socio cultural milieu to carve out a unique drama production Often it is the religious values of the translating agents that determine the product rather than social factors Further the translatability of religious discourse should be understood in a broader sense according to the seven dimensions proposed by Ninian Smart rather than merely focusing on untranslatability as a result of semantic and linguistic differences *The Young Bultmann* William D. Dennison, 2008 During his early life 1884-1925 Rudolf Bultmann passionately attempted to unite scholar and laity through his understanding of God which developed in the context of his home and its love for the common people of the church the legacy of Schleiermacher Marburg Lutheran neo Kantianism the eschatological perspective of the History of Religion School dialectical theology and Heidegger's philosophy of existence Bultmann always insisted that God reflected the inner forces of life within each human being Over the years however Bultmann came to hold that Lutheran neo Kantianism

provided the basic structure by which to analyze critique and strengthen his understanding of God In light of this neo Kantian structure Bultmann insisted that God could not be the formulation of any scientific ethical or artistic construction In other words God could not be the object or manifestation of human reason in any form since God transcended human reason Hence in 1925 through the assistance of the dialectical theologians and Heidegger Bultmann presented his purest formulation of a neo Kantian understanding of God God as the spontaneous moment of encountering the dialectical forces within our existential being

The Routledge History of East Central Europe since 1700 Irina Livezeanu, Arpad von Klimó, 2017-03-16 Covering territory from Russia in the east to Germany and Austria in the west The Routledge History of East Central Europe since 1700 explores the origins and evolution of modernity in this turbulent region This book applies fresh critical approaches to major historical controversies and debates expanding the study of a region that has experienced persistent and profound change and yet has long been dominated by narrowly nationalist interpretations Written by an international team of contributors that reflects the increasing globalization and pluralism of East Central European studies chapters discuss key themes such as economic development the relationship between religion and ethnicity the intersection between culture and imperial national wartime and revolutionary political agendas migration women s and gender history ideologies and political movements the legacy of communism and the ways in which various states in East Central Europe deployed and were formed by the politics of memory and commemoration This book uses new methodologies in order to fundamentally reshape perspectives on the development of East Central Europe over the past three centuries Transnational and comparative in approach this volume presents the latest research on the social cultural political and economic history of modern East Central Europe providing an analytical and comprehensive overview for all students of this region

Religion and Politics in Post-Communist Romania Lavinia Stan, Lucian Turcescu, 2007-10-25 In the post communist era it has become evident that the emerging democracies in Eastern Europe will be determined by many factors only some of them political Throughout the region the Orthodox Roman Catholic and Greek Catholic churches have tried to impose their views on democracy through direct political engagement Facing internal challenges and external competitions from other religions old and new the Orthodox Church in Romania has sought to consolidate its position and ensure Romania s version of democracy recognizes its privileged position of national Church Stan and Turcescu examine the complex relationship between church and state in this new Romania providing analysis in key areas church collaboration with communist authorities post communist electoral politics nationalism and ethno politics restitution of Greek Catholic property religious education and sexual behavior and reproduction

Medieval Religion Constance H. Berman, 2005 Constance Hoffman Berman presents an indispensable collection of the most influential and revisionist work to be done on religion in the Middle Ages in the last two decades Bringing together an authoritative list of scholars from around the world this book is a comprehensive compilation of the most important work in this field Medieval Religion provides a valuable service for all those who study the Middle Ages

church history or religion Understanding the War in Kosovo Florian Bieber, Zidas Daskalovski, 2004-08-02 The war in Kosovo has been a defining moment in post Cold War Europe Kosovo has great importance beyond the Balkans as the most ambitious attempt of the international community to prevent internal conflicts and rebuild a society destroyed by war and ethnic cleansing As the danger of ethnic conflict prevails in the region and elsewhere around the world the experience of Kosovo offers important lessons This is a comprehensive survey of developments in Kosovo leading up to during and after the war in 1999 providing additionally the international and regional framework to the conflict It examines the underlying causes of the war the attempts by the international community to intervene and the war itself in spring 1999 It critically examines the international administration in Kosovo since June 1999 and contextualizes it within the relations of Kosovo to its neighbours and as part of the larger European strategy in Southeastern Europe with the stability pact It does not seek to promote one interpretation of the conflict and its aftermath but brings together a range of intellectual arguments from some sixteen researchers from the Balkans the rest of Europe and North America Balkan Babel Sabrina Petra Ramet, 2018-02-19 The fourth edition of this critically acclaimed work includes a new chapter a new epilogue and revisions throughout the book Sabrina Ramet a veteran observer of the Yugoslav scene traces the steady deterioration of Yugoslavia's political and social fabric in the years since 1980 arguing that while the federal system and multiethnic fabric laid down fault lines the final crisis was sown in the failure to resolve the legitimacy question triggered by economic deterioration and pushed forward toward war by Serbian politicians bent on power either within a centralized Yugoslavia or within an ethnically cleansed Greater Serbia With her detailed knowledge of the area and extensive fieldwork Ramet paints a strikingly original picture of Yugoslavia's demise and the emergence of the Yugoslav successor states
