Rene Herbst Pioneer Of Modernism:

Rene Herbst Guillemette Delaporte,2004-10-01 Rene Herbst's enduring furniture designs provide fundamental lessons for today's interior designers. A staunch modernist, Herbst was a founding member and later president of the Union des artistes modernes UAM in France, which sought to make domestic comfort accessible to all regardless of class. The diversity of his work is testament to his prolific and creative output, and his design is marked by its simplicity and functionality. The French architect-turned designer was nicknamed the man of steel because he pioneered the use of the material for furniture years before mass production on a large scale was possible. In 1929, he created several versions of his celebrated Sandow Chair, which ignited his research into serial production and inaugurated the era of mass production. This book presents a selection of the best works from the Herbst Collection held by the library of the Musee des Arts decoratifs in Paris and demonstrates how Herbst was the catalyst of a new style of living that spurred the birth of modernity.

Sport and the European Avant-Garde (1900-1945) ,2022-02-07 What has been the significance of sport for the European avant-garde in the first half of the 20th century? From an international and interdisciplinary perspective, we show the extent to which avant-garde art and culture was shaped by the dynamic encounter with modern sports. Our focus lies on avant-garde artists, groups, movements, and institutions across Europe, including Cubism, Futurism, Vorticism, Purism, Expressionism, Dada, the Bauhaus, Constructivism in Central and Eastern Europe, thereby unfolding the diversity of avant-garde responses to modern sports. The book in front of you includes fascinating readings in the fields of aesthetics, visual cultures, cultural history, and politics, and highlights why specific kinds of sport, such as cycling, boxing, and football, became important for avant-garde movements and artists.
