Centre Stage Frank Finlay, Ralf Jeutter, 1999 In this volume scholars and theatre practitioners from Austria, Britain and Germany explore the current state of Austrian drama in studies of the themes, forms and concerns of some of the most important contemporary playwrights. Many of the contributions address works which have not previously been the subject of scholarly analysis. The writers discussed include Wolfgang Bauer, Thomas Bernhard, Elias Canetti, Peter Handke, Fritz Hochwalder, Elfriede Jelinek, Jakov Lind, Felix Mitterer, Hermann Nitsch, Gerhard Roth, Werner Schwab, Marlene Steeruwitz, Peter Turrini and the film maker Wim Wenders. This collection which includes photographs and an essay on the problems of translating will be of particular interest to teachers, students and translators of German language drama as well as to a wider theatre-going public.

Phenomenology Dermot Moran, Lester E. Embree, 2004 This set reprints the essential scholarship published in the field. It includes a general introduction by the editors as well as individual volume introductions exploring and contextualising the main themes of the comprehensively covered tradition. This is a key point of reference for anyone researching the phenomenological tradition.

The Savage Mind (La Pensée Sauvage) 1 Claude Lévi-Strauss, 1966

Culture in Mind Bradd Shore, 1998-10-29 Despite the recognized importance of cultural diversity in understanding the modern world, the emerging science of cognitive psychology has relied far more on experimental psychology, neurobiology and computer science than on cultural anthropology for its models of how we think. In this exciting new book, anthropologist Bradd Shore has created the first study linking multiculturalism to cognitive psychology, exploring the complex relationship between culture in public institutions and in mental representations. In so doing, he answers in a completely new way the age-old question of whether humans are basically the same psychologically independent of cultures or basically diverse because of cultural differences. The first half of the book emphasizes cultural models from Australian Aboriginal rituals and Samoan comedy skits to more familiar terrain including a study of baseball as a cultural model for Americans. Along the way, the author sheds new and novel light on many familiar institutions from educational curricula and shopping malls to modular furniture and cyberpunk fiction. These observations are then linked to theoretical developments in linguistics, semiotics and neuroscience, creating a bold new approach to understanding the role of culture in everyday meaning-making. The author argues that culture must be considered an intrinsic component of the human mind to a degree that most psychologists and even many anthropologists have not recognized. This new position of cultural models will make absorbing reading for psychologists, anthropologists, linguists and philosophers and to anyone interested in the issues of cultural diversity.

Women and Sacrifice William Beers, 1992 *Women and Sacrifice* is an original and lucid book that explores the anthropology and developmental psychology of male violence in blood sacrifice and its implications in religion and culture It is the first comprehensive study of the psychology of gender and religion using the controversial ideas of Heinz Kohut and self psychology Beers not only makes an important contribution to our psychological understanding of sacrifice he explores how narcissistic anxiety fuels rituals and social structures that subordinate women He bases his provocative theory on three general premises sacrifice is traditionally performed only by men the gender specificity of sacrifice can be traced to gender specific developments of men and women and is reflected in religions throughout the world and the male violence of sacrifice is related to other forms of male violence Beers reviews the theories of symbol formation of Freud Jung Klein and Winnicott and argues that Kohut's self psychology is more appropriate for understanding the psychology of symbolic ritual The psychological claims in the book are presented in the context of social structures cultural expressions and individual and group history Beers includes critiques of such leading theorists of ritual and sacrifice as Durkheim Levi Strauss Douglas Turner Geertz Freud Jung and Girard In analyzing sacrifice among the Malekulans of Melanesia and the eucharist of the American Episcopal Church Beers develops the theory that such rituals have a psychological function that diminishes and controls women He claims that men so fear women that religious ritual excludes women in order that men can gain and retain power over them

Lévi-Strauss Emmanuelle Loyer, 2019-01-18 Academic writer figure of melancholy aesthete Claude Lévi Strauss 1908-2009 not only transformed his academic discipline he also profoundly changed the way that we view ourselves and the world around us In this award winning biography historian Emmanuelle Loyer recounts Lévi Strauss's childhood in an assimilated Jewish household his promising student years as well as his first forays into political and intellectual movements As a young professor Lévi Strauss left Paris in 1935 for São Paulo to teach sociology His rugged expeditions into the Brazilian hinterland where he discovered the Amerindian Other made him into an anthropologist The racial laws of the Vichy regime would force

him to leave France yet again this time for the USA in 1941 where he became Professor Claude L. Lévi-Strauss to avoid confusion with the jeans manufacturer. Lévi-Strauss's return to France after the war ushered in the period during which he produced his greatest works: several decades of intense labour in which he reinvented anthropology, establishing it as a discipline that offered a new view on the world. In 1955 *Tristes Tropiques* offered indisputable proof of this: the world over. During those years Lévi-Strauss became something of a French national monument as well as a celebrity intellectual of global renown. But he always claimed his perspective was a view from afar, enabling him to deliver incisive and subversive diagnoses of our waning modernity. Loyer's outstanding biography tells the story of a true intellectual adventurer whose unforgettable voice invites us to rethink questions of the human and the meaning of progress. She portrays Lévi-Strauss less as a modern than as our own great and disquieted contemporary.

The Idea of Africa V. Y. Mudimbe, 1994-11-22. This is a remarkable book. It will occupy a significant place in the critical literature of African Studies. *International Journal of African Historical Studies*. To read Mudimbe is to walk through a museum of many exhibits in the company of an erudite companion who explains with much learned commentary what you are seeing. American Anthropologist Mudimbe's sympathetic yet rigorous accounts of such diverse Africanist discourses as Herskovits's cultural relativism and contemporary Afrocentricity bring to the surface the underlying goals and contexts in which these were produced. Ivan Karp: A sequel to his highly acclaimed *The Invention of Africa*; this is V. Y. Mudimbe's exploration of how the idea of Africa was constructed by the Western world.
