Macht Und Ohnmacht Der Guerilla:

Guerrillas and Revolution in Latin America Timothy P. Wickham-Crowley, 2018-06-26 In this comparative survey of guerrilla movements in Latin America Timothy Wickham Crowley explores the origins and outcomes of rural insurgencies in nearly a dozen cases since 1956 Focusing on the personal backgrounds of the guerrillas themselves and on national social conditions the author explains why guerrillas emerged strongly in certain countries but not others He considers for example under what circumstances guerrillas acquire military strength and why they do or do not secure substantial support from the peasantry in rural areas

Macht und Ohnmacht der Guerilla Fritz Rene Allemann, 1970 , **Guerrilla Warfare** Walter Laqueur, 2017-07-28 As the author makes clear every book has a history Guerrilla Warfare is no exception Together with its sequel Terrorism and two companion readers it was part of a wider study to give a critical interpretation of guerrilla and terrorism theory and practice throughout history It did not aim at providing a general theory of political violence nor did it give instructions on how to conduct guerrilla warfare and terrorist operations Its aim remains to bring about greater semantic and analytic clarity and to do so at psychological as well as political levels While the word guerrilla has been very popular much less attention has been given to guerrilla warfare than to terrorism even though the former has been politically more successful The reasons for the lack of detailed attention are obvious guerrilla operations take place far from big cities in the countryside in remote regions of a nation In such areas there are no film cameras or recorders In his probing new introduction Laqueur points out that a review of strategies and the fate of guerrilla movements during the last two decades show certain common features Both mainly concerned nationalists fighting for independence either against foreign occupants or against other ethnic groups within their own country But despite the many attempts only in two places Afghanistan and Chechnya were the guerrillas successful According to Laqueur historical experience demonstrates that guerrilla movements have prevailed over incumbents only in specific conditions Due to a constellation of factors ranging from modern means of observation to increase in firepower The author suggests that we may witness a combination of political warfare propaganda guerrilla operations and terrorism In such cases this could be a potent strategy for unsponsored revolutionary change But either as social history or military strategy this work remains a crucial work of our times

Ethics of Terrorism & Counter-Terrorism Georg Meggle, Andreas Kemmerling, Mark Textor, 2013-05-02 We are supposed to wage war against Terrorism but exactly what we are fighting against in this war there is nearly no consensus about And much worse nearly nobody cares about this conceptual disaster the main thing being whether or not you are taking sides with the good guys This volume is an analytical attempt to end this disaster What is Terrorism Are terrorist acts to be defined exclusively on the basis of the characteristics of the respective actions Or should we restrict such actions to acts performed by non state organisations And most important is terrorism already by its very nature to be morally condemned But having a clear idea of what Terrorism is would be only the beginning Rational moral assessment still needs two further components

The relevant facts and the relevant values and norms Now in a field where systematic disinformation has been even proclaimed to be the official policy facts are obviously very hard to get at This volume is mainly interested in Ethics What s wrong with Terrorism And what is morally right or morally wrong respectively with all the different means of Counter Terrorism What are the moral boundaries for waging war against terrorism What are the right ways of dealing with terrorists And what about the alleged anti terrorism wars on Afghanistan and Iraq With contributions from Marcelo Dascal Tomis Kapitan Daniel Messelken Seumas Miller Olaf L Mueller Igor Primoratz Charles P Webel Per Bauhn Rüdiger Bittner C A J Tony Coady Haig Khatchadourian Georg Meggle Peter Simpson Carolin Emcke Ralf Groetker Laurence Lustgarten Thomas Mertens Aleksandar Pavkovic Filimon Peonidis Janna Thompson Veronique Zanetti **Guerrilla** Walter Laqueur, 2019-03-08 This book deals with guerrilla warfare it does not aim at presenting a universal theory for such a theory would be either exceedingly vague or exceedingly wrong The present volume is the first part of a wider study which the author believes has not been attempted before a critical interpretation of guerrilla and terrorist theory and practice **A History of Terrorism** Andrew White, 2017-09-08 Terrorism is often mistakenly thought of as a modern phenomenon but it goes back quite some time A History of Terrorism charts the history of political terror from nineteenth century Europe to the multinational operations of Arab and other groups today The question is What is its true impact today and in the future Laqueur addresses long neglected psychological issues concerning the origins of and motivations behind terrorism and examines the sociology of terrorism in depth funding intelligence gathering weapons and tactics informers and countermeasures and the crucial role of the media depiction of the terrorist personality Systematic terrorism and current interpretations of terrorism its common patterns motives and aims are unflinchingly faced and clearly explicated Laqueur ultimately considers the effectiveness of terrorism and examines the ominous possibility of nuclear blackmail Originally published in 1977 this book is one of the two most quoted works on terrorism This expanded edition features a new preface and important contributions by distinguished security expert Bruce Hoffman that apply Laqueur s classic and seemingly timeless work to contemporary terrorism issues

Exploring Revolution Timothy P. Wickham-Crowley, 2019-07-26 This series of essays on insurgency and revolution focuses on events in Latin America since 1956 The contributors discuss revolutionary theory the nature of social movements and models of social action Topics raised include terror guerilla regimes mobilizing peasants and the vulnerability of regimes to revolution *Theorie des Irregulären* Dirk Freudenberg, 2008-09-27 **Sozialrevolutionärer Terrorismus** Alexander Straßner, 2009-01-10 Sozialrevolutionärer Terrorismus in seiner Breite und ideologischen Bezügen ist zu einem Stiefkind der Forschung degeneriert Waren die relevanten Organisationen der sechziger und siebziger Jahre RAF Bewegung 2 Juni Rote Brigaden Tupamaros eins der dominante Faktor der Berichterstattung so fristen sie heute ein Schattendasein neben dem die Agenda beherrschenden transnationalen Netzwerkterrorismus Im Mittelpunkt des Sammelbandes steht dabei nicht allein die historische Analyse der wichtigsten europäischen wie baltischen sozialrevolutionären Gruppierungen sondern deren

ideologischer Bezugsrahmen sowie gemeinsame Entstehungs und Zerfallsbedingungen Wie an taktischen und ideologischen Grenzflächen deutlich wird findet sich aber auch im Terrorismus moderner Prägung sozialrevolutionäres Gedankengut Vor diesem Hintergrund wird deutlich dass der sozialrevolutionär motivierte Terrorismus nicht mit dem Kollaps des real existierenden Sozialismus sein Ende gefunden hat Angesichts von Negativeffekten der Globalisierung und fortschreitender sozialer Deprivation auch in Industriegesellschaften können sozialrevolutionäre Motive auch zukünftige Motive für Terroristen sein

Political Violence, Crises and Revolutions (Routledge Revivals) Ekkart Zimmermann, 2013-04-15 First published in 1983 this extraordinary study provides a comprehensive systematic evaluation of cross national theorizing and quantitative empirical evidence on four interrelated phenomena Political violence Crises Military Coups Diktator Revolutions Findings from social psychological research on aggression are integrated in this outstanding study as well as results reported in social historical studies of revolution The focus of the book is always on analytical perspectives and corresponding empirical evidence The author continually highlights the sociostructural and political conditions of political violence crises and revolutions This exceptionally detailed and systematic inventory of theories and research on a classic triad of political science political violence crises and revolutions also includes a remarkable bibliography encompassing over 3000 items

Piero Gleijeses' International History of the Cold War in Southern Africa, Omnibus E-Book Piero Gleijeses, 2013-12-01 This Omnibus E Book brings together Piero Gleijeses's two landmark books for the first time Visions of Freedom Havana Washington Pretoria and the Struggle for Southern Africa 1976 1991 During the final fifteen years of the Cold War southern Africa underwent a period of upheaval with dramatic twists and turns in relations between the superpowers Americans Cubans Soviets and Africans fought over the future of Angola where tens of thousands of Cuban soldiers were stationed and

over the decolonization of Namibia Africa's last colony Beyond lay the great prize South Africa Piero Gleijeses uses archival sources particularly from the United States South Africa and the closed Cuban archives to provide an unprecedented international history of this important theater of the late Cold War *Conflicting Missions* Havana Washington and Africa 1959-1976 This sweeping history of Cuban policy in Africa from 1959 to 1976 is based on unprecedented research in African Cuban and American archives Among Gleijeses's many sources are Cuban archival materials to which he is the only non-Cuban to ever have access Setting his story within the context of U.S. policy toward both Africa and Cuba during the Cold War Gleijeses challenges the notion that Cuban policy in Africa was directed by the Soviet Union *Tangled Roots* Jeffrey Ivan Victoroff, 2006 What do we really know about the contributing causes of terrorism Are all forms of terrorism created equal or are there important differences in terrorisms that one must know about to customize effective counter strategies Does poverty cause terrorism This book talks about the basic human ingredients that combust to produce violent extremism

Conflicting Missions Piero Gleijeses, 2011-03-01 This is a compelling and dramatic account of Cuban policy in Africa from 1959 to 1976 and of its escalating clash with U.S. policy toward the continent Piero Gleijeses's fast-paced narrative takes the reader from Cuba's first steps to assist Algerian rebels fighting France in 1961 to the secret war between Havana and Washington in Zaire in 1964-65 where 100 Cubans led by Che Guevara clashed with 1,000 mercenaries controlled by the CIA and finally to the dramatic dispatch of 30,000 Cubans to Angola in 1975-76 which stopped the South African advance on Luanda and doomed Henry Kissinger's major covert operation there Based on unprecedented archival research and firsthand interviews in virtually all of the countries involved Gleijeses was even able to gain extensive access to closed Cuban archives this comprehensive and balanced work sheds new light on U.S. foreign policy and CIA covert operations It revolutionizes our view of Cuba's international role challenges conventional U.S. beliefs about the influence of the Soviet Union in directing Cuba's actions in Africa and provides for the first time ever a look from the inside at Cuba's foreign policy during the Cold War Washington Post Book World Gleijeses's research bluntly contradicts the Congressional testimony of the era and the memoirs of Henry A. Kissinger After reviewing Dr. Gleijeses's work several former senior United States diplomats who were involved in making policy toward Angola broadly endorsed its conclusions New York Times With the publication of *Conflicting Missions* Piero Gleijeses establishes his reputation as the most impressive historian of the Cold War in the Third World Drawing on previously unavailable Cuban and African as well as American sources he tells a story that's full of fresh and surprising information And best of all he does this with a remarkable sensitivity to the perspectives of the protagonists This book will become an instant classic John Lewis Gaddis author of *We Now Know: Rethinking Cold War History* Based on unprecedented research in Cuban American and European archives this is the compelling story of Cuban policy in Africa from 1959 to 1976 and of its escalating clash with U.S. policy toward the continent Piero Gleijeses sheds new light on U.S. foreign policy and CIA covert operations revolutionizes our view of Cuba's international role and provides the first look from

the inside at Cuba's foreign policy during the Cold War **Verfassung und Recht in Übersee** ,1987 **Revolution**

Rosemary H. T. O'Kane,2000 All of the major work on the subject of revolutions is collected in this useful set Including work from seminal figures such as Hatto and Gottschalk in the 1940s as well as the most important literature all the way through 1998 the articles reprinted here consider the concept theory and causes of revolution revolutionary state building and the outcomes of revolutions case studies of great revolutions and much more **Stadt entwickeln mit Methoden der Guerilla?** Schertel, Daniel,2012 Seit einiger Zeit begegnet einem das Wort Guerilla in berraschenden Zusammenhängen und seltsamen Kombinationen Unzweifelhaft handelt es sich derzeit um ein Modewort das gerne genutzt wird um eigene Ideen und Vorstellungen attraktiv zu labeln und von der Anziehungskraft des Wortes zu profitieren Der Begriff aus der Kriegstheorie steht für eine asymmetrische Kriegsführung bei der ein machtloser gegen einen stärkeren Kontrahenten irregulär zu Felde zieht was sich vornehmlich auf der taktischen Ebene zeigt Zudem besitzt das Wort neben militärischen Inhalten auch eine ideologisch und mythologische Beladung hervorgerufen durch erfolgreiche Guerillas die im Deckmantel des Kommunismus gefhrt wurden Eine Guerilla ist grundsätzlich ein Kampf für eine schwächere alternative Idee oder für eine Befreiung von bestehenden Strukturen und Vorstellungen Zu konfliktreichen Prozessen der Stadtentwicklung passt der Begriff erstaunlich gut Neben aktivistischen Bürgerinitiativen und Eigenschaften von kulturellen Interventionen im Stadtraum kann man auch den Kampf von Zwischennutzungen um ihre Verstetigung mit dem taktischen Vorgehen und den strategischen Zielen einer Guerilla vergleichen Werden die ursprünglich militanten Methoden aus dem militärischen Kontext gezogen lässt sich die charakteristische Irregularität einer Guerilla beim Kommunikations und Kooperationsvermögen der zeitgenössischen Guerilleros erkennen Die irreguläre Kommunikation soll neben Aufmerksamkeitsgewinn auch Rezipienten in ihrer Wahrnehmung stören und sie so zur Reflexion und letztendlich zur Unterstützung bringen Mit dem Eingehen taktischer Kooperationen wiederum können die schwächeren Guerilleros einen Mangel an Ressourcen ausgleichen und an Stärke gewinnen Bei der Verwendung des Wortes Guerilla muss immer auch der Initiator bzw die Initiatorin betrachtet werden Entweder will vom konnotativen Glanz des Wortes profitiert oder einem Konflikt eine besondere Qualität zuweisen werden Das irreguläre Vorgehen das nun teilweise mit Guerilla tituiert wird ist indes nichts Neues Systemische Veränderungen bedürfen solchen Impulsen von Außen und verlangen von den Machthabern nach entsprechender Anpassung oder nach adäquaten Anti Guerilla Methoden Eine auf irreguläre Weise dargelegte Alternative kann sich in bestehende Systeme integrieren und in ihnen aufgehen Viele alternative Ideen galten anfangs als Spinnerei und sind heute beispielsweise in der Stadtplanung gängige Praxis The word Guerrilla confronts us nowadays in surprising contexts and peculiar constellations Its trendiness makes it an attractive label for ideas and beliefs that hope to profit from the word's appeal Originating in war theory the term refers primarily to the tactical level and denotes asymmetrical warfare in which a powerless body advances irregularly against a stronger opponent In addition to its military connotations the word also carries an ideological and mythological

weight evoked most succinctly by the successful Guerrillas who fought under the cloak of Communism The Guerrilla fundamentally represents the struggle for a weaker alternative idea or for the liberation from extant structures or beliefs The concept suits conflictual processes of urban development surprisingly well Besides activist citizen initiatives and elements of cultural intervention in urban space we can also compare a temporary use s battle to secure its continuation with the tactical approach and strategic goals of a Guerilla Though the original military methods have been extracted from their original context we can still recognize the irregularity characteristic of Guerrillas in the communication strategy and capacity for cooperation of today s Guerrilleros Irregular communication serves both to grab attention as well as to disrupt the recipient s usual perception of things urging him or her to reflect on new ideas and ultimately support them By engaging in tactical cooperation weaker Guerrilleros can compensate for any paucity of resources and gain strength in numbers Today s concept of Guerrilla cannot be separated from the individuals behind it who either hope to profit from the word s connotative glamour or to imbue their conflict with a special quality Irregular lines of action now so often dubbed Guerrilla are in fact nothing new Systemic changes require external impetus and they demand commensurate adaptation or adequate anti Guerrilla methods of those in power An alternative demonstrated in an irregular way can be integrated into extant systems and bear fruit there Numerous alternative ideas originally considered unconventional or even crazy have been absorbed as typical practice for instance in urban planning
