MACINTYRE READER

EDITED BY KELVIN KNIGHT

Macintyre Reader

Peta Tait, Katie Lavers

Macintyre Reader:

The MacIntyre Reader Kelvin Knight, 1998-10-23 Alasdair MacIntyre is one of the most controversial philosophers and social theorists of our time He opposes liberalism and postmodernism with the teleological arguments of an updated Thomistic Aristotelianism It is this tradition he claims which presents the best theory so far about the nature of rationality morality and politics This is the first Reader of MacIntyre's work It includes extracts from and synopses of two famous books from the 1980s After Virtue and Whose Justice Which Rationality as well as the whole of several shorter works one published for the first time in English and two interviews Taken together these constitute not only a representative collection of his work but also the most powerful and accessible presentation of his arguments yet available The Reader also includes a summary by the editor of the development of MacIntyre's central ideas and an extensive guide to further reading Students will find the book a useful guide to MacIntyre's case against both capitalist institutions and academic orthodoxies RoutledgeFalmer Reader in the Philosophy of Education Wilfred Carr, 2021-04-29 This Reader brings together a wide range of material to present an international perspective on topical issues in philosophy of education today Focusing on the enduring trends in this field this lively and informative Reader provides broad coverage of the field and includes crucial topics With an emphasis on contemporary pieces that deal with issues relevant to the immediate real world this book represents the research and views of some of the most respected authors in the field today Wilfred Carr also provides a specially written introduction which provides a much needed context to the role of philosophy in the current educational climate Students of philosophy and philosophy of education will find this Reader an important route map to further reading and understanding The Routledge Circus Studies Reader Peta Tait, Katie Lavers, 2020-09-10 The Routledge Circus Studies Reader offers an absorbing critical introduction to this diverse and emerging field It brings together the work of over 30 scholars in this discipline including Janet Davis Helen Stoddart and Peta Tait to highlight and address the field s key historical critical and theoretical issues It is organised into three accessible sections Perspectives Precedents and Presents which approach historical aspects current issues and the future of circus performance. The chapters grouped together into 13 theme based sub sections provide a clear entry point into the field and emphasise the diversity of approaches available to students and scholars of circus studies Classic accounts of performance including pieces by Philippe Petit and Friedrich Nietzsche are included alongside more recent scholarship in the field Edited by two scholars whose work is strongly connected to the dynamic world of performance The Routledge Circus Studies Reader is an essential teaching and study resource for the emerging discipline of circus studies It also provides a stimulating introduction to the field for lovers of The Hauerwas Reader Stanley Hauerwas, 2001-07-23 A Stanley Hauerwas Reader including Hauerwas essays and circus excerpts from his books and monographs intended to provide a comprehensive introduction to his work Reading Alasdair MacIntyre's After Virtue Christopher Stephen Lutz, 2012-03-15 Concise guide to MacIntyre's most important

book After Virtue examining its arguments in detail and placing it within the broader context of MacIntyre's career Marxism, the Millennium and Beyond M. Cowling, P. Reynolds, 2000-10-31 This collection investigates the state of play in studies informed by Marxism Among other contributions it includes an essay on state theory by Bob Jessop a discussion of fundamental socialist values using analytical Marxism by Alan Carling Walk Away Grant Havers, Lee Trepanier, 2019-07-19 This book examines key twentieth century philosophers theologians and social scientists who began their careers with commitments to the political left only later to reappraise or reject them Their reevaluation of their own previous positions reveals not only the change in their own thought but also the societal changes in the culture economics and politics to which they were reacting By exploring the evolution of the political thought of these philosophers this book draws connections among these thinkers and schools and discovers the general trajectory of twentieth century political thinking in the West Hospitality as Holiness Luke Bretherton, 2017-03-02 We live amid increasing ethical plurality and fragmentation while at the same time more and more questions of moral gravity confront us Some of these questions are new such as those around human cloning and genetics Other questions that were previously settled have re emerged such as those around the place of religion in politics Responses to such questions are diverse numerous and often vehemently contested Hospitality as Holiness seeks to address the underlying question facing the church within contemporary moral debates how should Christians relate to their neighbours when ethical disputes arise The problems the book examines centre on what the nature and basis of Christian moral thought and action is and in the contemporary context whether moral disputes may be resolved with those who do not share the same framework as Christians Bretherton establishes a model that of hospitality for how Christians and non Christians can relate to each other amid moral diversity This book will appeal to those interested in the broad question of the relationship between reason tradition natural law and revelation in theology and more specifically to those engaged with questions about plurality tolerance and ethical conflict in Christian ethics and medical ethics MacIntyre's After Virtue at 40 Tom Angier, 2023-10-25 Since its publication in 1981 Alasdair MacIntyre s After Virtue has been recognised as a classic Primarily a work of moral philosophy it also draws on sociology classics political science and theology to effect a unique intellectual synthesis and its combination of erudition and challenging even provocative argument has made a significant impact throughout the humanities disciplines This volume of new essays unpacks the influence of After Virtue on ethical and political theory sociology and theology and offers a multi faceted exploration of its significance The essays offer a way into MacIntyre's philosophy and demonstrate how rather than waning in influence over the past forty years his most seminal text has found an ever wider audience and continues to inspire controversy and debate in the humanities Revolutionary Aristotelianism Kelvin Knight, Paul Blackledge, 2016-11-21 This book includes revisions of papers originally presented at the inaugural conference of the International Society for MacIntyrean Philosophy on the theme of Alasdair MacIntyre's Revolutionary Aristotelianism Ethics Resistance and Utopia

hosted by the Human Rights and Social Justice Research Institute at London Metropolitan University The papers selected are by fifteen leading international philosophers and political theorists Writing from a variety of perspectives they address MacIntyre's accounts of Aristotelianism Thomism and Marxism his virtue ethics and metaethics the development of his philosophical project and his critiques of managerialism capitalism and liberalism The book concludes with an extensive response by MacIntyre in which he clarifies his past arguments his present position and his relation to rival theories of moral political and social practice Research Handbook on the History of Political Thought Cary J. Nederman, Guillaume Bogiaris, 2024-06-05 This insightful Handbook reviews the key frameworks guiding political scientists and historians of political thought Comprehensive in scope it covers historical methodology traditions epochs and classic authors and texts spanning from ancient Greece until the nineteenth century Virtue Ethics and Contemporary Aristotelianism Andrius Bielskis, Eleni Leontsini, Kelvin Knight, 2020-05-28 This compelling and distinctive volume advances Aristotelianism by bringing its traditional virtue ethics to bear upon characteristically modern issues such as the politics of economic power and egalitarian dispute This volume bridges the gap between Aristotle's philosophy and the multitude of contemporary Aristotelian theories that have been formulated in the twentieth and twenty first centuries Part I draws on Aristotle's texts and Thomas Aguinas Aristotelianism to examine the Aristotelian tradition of virtues with a chapter by Alasdair MacIntyre contextualising the different readings of Aristotle's philosophy Part II offers a critical engagement with MacIntyrean Aristotelianism while Part III demonstrates the ongoing influence of Aristotelianism in contemporary theoretical debates on governance and politics Extensive in its historical scope this is a valuable collection relating the tradition of virtue to modernity which will be of interest to all working in virtue ethics and contemporary Aristotelian politics Political Theory on Death and Dying Erin A. Dolgoy, Kimberly Hurd Hale, Bruce Peabody, 2021-09-14 Political Theory on Death and Dying provides a comprehensive encyclopedic review that compiles and curates the latest scholarship research and debates on the political and social implications of death and dying Adopting an easy to follow chronological and multi disciplinary approach on 45 canonical figures and thinkers leading scholars from a diverse range of fields including political science philosophy and English discuss each thinker's ethical and philosophical accounts on mortality and death Each chapter focuses on a single established figure in political philosophy as well as religious and literary thinkers covering classical to contemporary thought on death Through this approach the chapters are designed to stand alone allowing the reader to study every entry in isolation and with greater depth as well as trace how thinkers are influenced by their predecessors A key contribution to the field Political Theory on Death and Dying provides an excellent overview for students and researchers who study philosophy of death the history of political thought and political philosophy **An Analysis of Alasdair MacIntyre's After Virtue** Jon W. Thompson, 2017-07-05 Alasdair MacIntyre s 1981 After Virtue was a ground breaking contribution to modern moral philosophy Dissatisfied with the major trends in the moral philosophy of his time MacIntyre argued that modern moral

discourse had no real rational basis Instead he suggested if one wanted to build a rational theory for morality and moral actions one would have to go all the way back to Aristotle To build his arguments which are widely acknowledged to be as important as they are complex MacIntyre relies on two critical thinking skills above all others evaluation and interpretation The primary goal of evaluation is to judge the strength or weakness of arguments asking how acceptable a given line of reasoning is and how adequate it is to the situation In After Virtue MacIntyre applies incisive evaluation skills to major positions and figures in moral philosophy one after the other showing how and why Aristotle's template remains a stronger way of considering moral questions Throughout this process MacIntyre also relies on his interpretative skills As MacIntyre knows clarifying meanings questioning definitions and laying down definitions of his key terms is as vital to advancing his arguments as it is to evaluating those of other philosophers Volume 11, Tome III: Kierkegaard's Influence on Philosophy Jon Stewart, 2016-12-05 Kierkegaard's relation to the field of philosophy is a particularly complex and disputed one He rejected the model of philosophical inquiry that was mainstream in his day and was careful to have his pseudonymous authors repeatedly disassociate themselves from philosophy But although it seems clear that Kierkegaard never regarded himself as a philosopher there can be no doubt that his writings contain philosophical ideas and insights and have been profoundly influential in a number of different philosophical traditions. The present volume attempts to document these different traditions of the philosophical reception of Kierkegaard's thought Tome III traces Kierkegaard's influence on Anglophone philosophy It has long been thought that Kierkegaard played no role in this tradition which for years was dominated by analytic philosophy In this environment it was common to dismiss Kierkegaard along with the then current European philosophers who were influenced by him However a closer look reveals that in fact there were several thinkers in the US Canada and Great Britain who were inspired by Kierkegaard even during the heyday of analytic philosophy Today it can be said that Kierkegaard has made some serious inroads into mainstream Anglophone philosophy with many authors seeking inspiration in his works for current discussions concerning ethics personal identity philosophy of religion and Law as Communication Adolfo Sánchez-Hidalgo, 2025-05-04 The Communicational Theory philosophical anthropology of Law CTL is a successful synthesis of the hermeneutic and analytical postulates proceeding under the assumption that Law is the heritage of jurists and can be enriched by a rational and systematic reconstruction of the legal order CTL offers an original perspective on the classic tension between normativity and institutionality between Legal Theory and Legal Sociology helping readers rediscover the value of Theory of Law in terms of explaining and advancing a range of legal functions It wouldn't be saying too much to claim that through CTL the contributions of the European philosophy of law from the 19th and 20th centuries jurisprudence of concepts legal sociology legal positivism institutionalism etc can be reclaimed and now coordinated from a communicational and philosophy of language perspective offering us a complete and useful Theory of Law CTL does not avoid the problem of the idea of justice rather it confronts it by distinguishing between the

Theory of Justice and ambital justice As such readers are equipped to verify the originality of the Theory of Legal Decision in the CTL framework and thus will find new tools for critically assessing the performance of courts and public authorities This book details the epistemological presuppositions on which CTL is built but also offers new lines of critical development which reflect CTL s theoretical and philosophical potential In the studies presented here readers will find original answers to classic problems of the Theory of Law together with examples of CTL s practical application to the great challenges of our time such as interculturalism legal AI populist demagogy the transparency of public powers etc all without forgetting the challenges of Religious Voices in Public Places Nigel Biggar, Linda Hogan, 2009-09-03 Drawing on political the future of Law philosophy and theology theory and practice this essay collection tackles the complex questions arising from the interface of religion and public life Includes critical analyses of theorists Rawls Stout and Habermas and discussion of key issues such as religious education and human rights Witness Is Presence Miika Tolonen, 2014-01-07 In a postsecular cultural situation the conditions for understanding and communicating a Christian tradition have changed None of the established religions can any longer claim monopoly in the marketplace of religions A claim of this study is that a postsecular situation characterized among other things by dwindling memberships in established churches as well as a new visibility of alternative religious expressions opens up a need to reflect on alternative ways of understanding Christianity in its context This study focuses on the question how can a Christian tradition be communicated understandably in a postsecular context In traditional terms how can Christian witness be understood in our situation It is to this need according to this study that the ecclesiology of Stanley Hauerwas provides a meaningful perspective This perspective becomes relevant because in a postsecular context a Christian church even a folk church cannot assume to be in a position of majority or power There is therefore a need to ask how to understand Christianity as a community of witness that is neither in power nor a majority The study suggests that embodiment of Christian convictions becomes a central factor in a meaningful postsecular notion of witness The Routledge Companion to Hermeneutics [eff Malpas, Hans-Helmuth Gander, 2014-11-20 Hermeneutics is a major theoretical and practical form of intellectual enquiry central not only to philosophy but many other disciplines in the humanities and social sciences With phenomenology and existentialism it is also one of the twentieth century s most important philosophical movements and includes major thinkers such as Heidegger Gadamer and Ricoeur The Routledge Companion to Hermeneutics is an outstanding guide and reference source to the key philosophers topics and themes in this exciting subject and is the first volume of its kind Comprising over fifty chapters by a team of international contributors the Companion is divided into five parts main figures in the hermeneutical tradition movement including Heidegger Gadamer and Ricoeur main topics in hermeneutics such as language truth relativism and history the engagement of hermeneutics with central disciplines such as literature religion race and gender and art hermeneutics and world philosophies including Asian Islamic and Judaic thought hermeneutic challenges and debates such as critical theory structuralism and phenomenology

Alasdair MacIntyre's Views and Biological Ethics Sherel Jeevan Joseph Mendonsa, 2022-11-29 Some of the most fundamental questions which moral philosophers have been grappling with include What makes us moral beings Is morality a product of culture or nature or both Are ethical norms and principles universal and unchanging or are they relative being rooted in specific socio political and historical contexts Can ethical conclusions be derived from descriptive statements This book addresses these and similar questions through a comparative study between Alasdair MacIntyre's views and biological ethics It discusses how both MacIntyre's views and biological ethics highlight the importance of human biology for human morality Based on this discussion the book proposes that both the rational and the biological including the emotional dimensions of humans have to be considered in order to understand the complex and multi layered phenomenon of human morality As such it will prove to be a valuable resource for undergraduate and postgraduate students of moral philosophy especially those interested in studying the biological approach toward ethics Thomistic Aristotelian ethics and metaethics
